THE CENTAUR COMPANY, NEW YORK, N. Y.

Reduced R. R. Fare G'ville and Return

Greatly reduced railway rates will be given from Pickens to Greenville June 3, 4, 5, good to return on any train leaving Greenville before mid-night of June 8. Ordinarily the round trip fare from Pickens to Greenville is \$1.10, but on these dates it will be 90 cents.

The occasion is the eighth annual convention of the United Commercial Travelers of the Carolinas, which Greenville was so fortunate in getting for 1914. The date the convention meets is June, and the concluding exercises will be a big baseball game on Saturday afternoon of the 6th.

Greenville is noted for the gorgeous was in which she entertains her conventions, and in this instance all of her citizens, and especially the Chamber of Commerce, is making a special effort to make this the most enjoyable occasion of any convention which has ever met within the city's borders. All who come will certainly have a big time, and the preparations are elaborate enough to take care of every U. C. T., who can come, as well as other visitors.

Abstract of New Requirements For Voting in the Primaries

The State Democratic convention has declared existing rolls of Democratic clubs null and void.

Democrats must enroll themselves on the book of the club district in which they reside in order to vote in primary next August.

White Democrats, 21 years of age (or those who will reach that age before the succeeding general election), who have been residents of the state for two years and of the county for six months prior to the succeeding general election and of the club district 60 days prior to the first primary following their offer to enroll, are entitled to enroll in the book of their club district to vote in the primary election, provided they are citizens of the United States and of South Carolina.

The book of enrollment for each Democratic club in the state will be opened by the secretary of the club on or before the second Tuesday in June, 1914.

Democrats who wish to enroll in order to vote in the primary elections must present themselves in person to the secretary and sign the roll, giving their age, occupation and postoffice address (and street and number of their house where these designations exist.)

In case he is unable to write, the applicant for enrollment must make his mark on the book of the club district in which he resides, and the secretary will put his name on the book.

Notice will be given by county chairmen of the names of the secretaries of clubs and where books of enrollment are to be opened.

The books of enrollment will be closed and filed with the county chairmen on the last Tuesday in July.

Camp of Sons of Veterans Organized

A camp of United Sons of Confederate Veterans was organized in Easley on Saturday afternoon, May 23. J. A. Hinton was elected Commandant; J. B. Jameson, first lieutenant; W. F. Ewart, second lieutenant; T. Barton, adjutant; Dr. H. E. Russell, surgeon; E. P. McCravy, quartermaster; O. T. Hinton, chaplain; J. E. Craig, treasurer and color sergeant; E. P. McCravy, historian. The other members are C. T. Martin, J. M. Jameson, J. T. Latham, T. B. Owens, E. M. King, R. L. Bishop, L. A. Rogers, R. H. Sweet, James Turner, W. M. Nalley, J. L. Bagwell, W. E. Smith, Irvin Miller.

A charter has been applied for.

C. T. Martin, T. T. Barton and W. F. Ewart were appointed a committee to get up a constitution and by-laws.

The regular meetings are to be held on the first Saturday in each month.

The Camp was, on motion, named "The William Young" Camp, in honor of William Young, a young Confederate volunteer from near Easley, who was the first man of the Fourth S. C. Regiment, and probably the first Southern soldier killed at the Battle of Bull Run, July 21, 1861.

COUGH TWO YEARS OLD

Yields to Vinol. Read Why.

Strong vigorous men and women hardly ever catch cold; it is only when the system is run down and vitality low that colds and coughs get a foothold.

Now isn't it reasonable that the right way to cure a cough is to build up your run down condition again? Mrs. D. A. McGee of Waycross, Ga., says: "I had a chronic cold and cough which kept me awake nights for two years and I felt tired all the time. Vinol cured my cough and I feel stronger in every way."

The reason Vinol is so efficacious in such cases is because it contains in a delicious concentrated form all the medicinal curative elements of cod liver oil, with ionic, blood building iron added.

Chronic coughs and colds yield to Vinol because it builds up the weakened, run-down system.

You can get your money back any time if Vinol does not do all we say.

Away With Constipation

Seven of America's Best Doctors Endorse Dodson's Liver Tone to Take Place of Calomel

Dangerous calomel's place is now taken by Dodson's Liver Tone safely and reliably, according to seven of the most noted and highest priced physicians in the United States, after careful analysis. These physicians always command huge fees and in this consultation were paid for their best skill.

Dodson's Liver Tone is a palatable vegetable-liquid, with easy and natural action, and is sold and guaranteed by Pickens Drug Co., who will refund purchase price (50c.) instantly without question if it does not prove satisfactory in every way.

There is not only no danger in taking this reliable remedy, but it causes no gripe, no pain and the after-effects are pleasant instead of disagreeable, as with calomel. Dodson's Liver Tone interferes in no way with your regular duties, habits and diet. Instead, it actually builds and strengthens you so that you feel happier, brighter, better and healthier.—Adv.

A. K. Park Greenville, S. C.

Mary Margaret Freeman

Mary Margaret, 3-year-old daughter of Rev. and Mrs. L. E. M. Freeman, died at their home in Raleigh, N. C., on May 16. The following obituary notice is taken from the Biblical Recorder and will be read with interest and sorrow by the many friends of the bereaved parents in this county, Dr. Freeman being a native of Pickens county:

A little life, counted in months and years, but how big in its influence! God gave to Dr. and Mrs. L. E. M. Freeman a little girl, but, because He loved her with an especial love, He soon took her back to Himself.

Beautiful, gentle, affectionate, little Mary Margaret was idolized in her home, and tenderly loved by all who knew her. The children in the neighborhood were devoted to her, and daily sought her and her baby brother as playmates. Of this baby brother Mary Margaret was the self-appointed guardian, guiding his uncertain steps, and shielding him from all real or imaginary danger. During her last brief illness the nurses who cared for the little sufferer were so won by her extreme loveliness that, forgetting professional interest, they mourned her death as sincerely as those who had known her longer. Certainly no life was ever more lapped in love.

Weeping may endure for a night, but joy cometh in the morning." The home is under the shadow of death today, but do we not know that in the days to come it will be all the brighter because of the little girl who was its sunshine a brief three years and three months?

May God comfort the stricken household and give them a new vision of Heaven, where there is no sorrow, no suffering and, best of all, no sin.

Miss S. E. Young, Meredith College, Raleigh, N. C.

Easley Near-Locals

A large mud turtle strayed from the "old mud pond" last week and while leisurely wandering up Church street was arrested for speeding—almost up with Greenville.

A harmless hen was shot one day last week, while on the streets of a live town between Pickens and Greenville. She cackled and the police shot her for disturbing the peace.

Since the railroad company began improvements on their track and it was announced that it would probably put on an electric car, they are improving the streets around the station at the junction by laying several flower plats. The dry weather and dust, however, have been hard on the flowers.

Three young men, not thoroughly acquainted with city life, meandered in an auto over to the city one night recently on business. After the business was transacted their city friend and Elk asked the boys from the neighboring town around to the club to "have something on him." When they were confronted by the waiter and were asked what they would have, one of the forward and unsophisticated ones answered, "Ovs-

The top of the market paid for all kinds of produce. J. W. HENDRICKS

A LESSON About the Ford

Teacher—Johnnie, into how many classes are motor cars divided?
Johnnie—Two—Fords and Automobiles.
Teacher—Correct. What is a Ford?
Johnnie—A Ford is a scientifically constructed four-wheel motor car intended as the safest and surest mode of travel at the least cost.
Teacher—Does it fulfill the purpose for which it is intended?
Johnnie—It does.
Teacher—What can you say of a day's outing in a Ford?
Johnnie—It consists of a continuous spin over hill and vale, full of pleasure, fun and incidents, but without accident.
Teacher—What are the necessities to take for a day's outing in a Ford?
Johnnie—A little gasoline in a tank, a little oil in the engine and a little water in the radiator, and your wife and babies in the car.
Teacher—Why are Fords more cheaply and satisfactorily operated than automobiles?
Johnnie—Because they are mechanically perfect, free from cumbersome adjuncts; in other words, are simplicity simplified.
Teacher—Now, what is an automobile?
Johnnie—A car usually of heavy weight, with big, expensive pneumatic tires, high rated horse power, made up of self-starters, storage batteries, magnetic clutches, a network of wiring, automatic pumps, air-pressure pumps, oil pumps, oil feed pipes, sight oil feed, speedometers, odometers, clocks, volt meters, aerometers, air pressure gauges, deep unholstering, shock absorbers and other mechanical conglomeration intended as a medium of separating the rich from their cash.
Teacher—Does it fulfill the purpose for which it was intended?
Johnnie—It does.
Teacher—What can you say of a day's outing in an automobile?
Johnnie—It consists of break-downs, bog-downs, layouts and blowouts.
Teacher—What are the necessities to take for a day's outing in an automobile?
Johnnie—Four big extra casings, extra tubes, an electrician mechanic, an able-bodied chauffeur, a checkbook and a good account with your local bank; and you will need frequent gasoline stations, telephone stations and garages.
Teacher—Why are automobiles more expensive to operate than Fords?
Johnnie—For the same reason that it is impractical to operate locomotives with pneumatic tires on dirt roads.

Letter From "B"

Mr. Editor: As it has been some time since we contributed anything to the columns of the dear old Sentinel, we decided to knock at its doors again for admittance provided its editor thought our items worthy of space.

We are always glad to receive The Sentinel, for it has a warm spot in our hearts. The Sentinel was the first paper the writer ever read a line in, when the late Major D. F. Bradley was its editor. It was through the good advice of that worthy and benevolent gentleman, telling me the importance of an education, when I was not old enough to see the need of it, that I today possess what little I know. He advised me to continue to read good books and papers, and by following his advice I find a newspaper is one of the grandest educators on earth, where a child's opportunities are limited for an education.

A poor man who can give his children only a common school education, cannot invest a dollar in anything else that will do his children as much good as a good newspaper. Once they get to reading a paper they become to like it and the more they read the better scholars they make. Just so by reading the Bible or any other good book. It seems to make a better person out of a child both spiritually and intellectually.

When we see and realize the responsibility resting upon parents who are raising children and then see so many children growing up in ignorance, maybe their father tramping around spending his money for whiskey or something else and making his children work, when they ought to be in school, how can we keep from advocating a compulsory educational law? Yes, we are in favor of giving the children better education and making such a father go to work himself or put him on the gang.

Just a word in regard to the election laws. Some say give every white man a right to the ballot. I say so too, provided, that the white man has sense enough to know how to vote intelligently, but if he has not, I say disfranchise him. A man who will be marched up to the ballot box and vote just as his landlord or some other man says regardless of knowing whether he has voted for or against his own interest, should not be allowed to vote. Such a man as that don't vote, so to speak, they only put the ticket in the box and the man who made it out voted it. We don't mean to disfranchise a man who can't read, but we say such a man as the above, has no use for the ballot.

Well, it is dry weather down this way as well as elsewhere. A bad stand of cotton is the general report. Vegetation is not doing much good. From all appearance now, this looks like it might be a bad crop year, though there is plenty room for a chance.

Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.—Adv.

Announcing The New Typewriter OLIVER No. 7

WE ANNOUNCE AN AMAZING MODEL—THE OLIVER No. 7, a typewriter of superexcellence, with automatic devices and refinements that mark the zenith of typewriter progress. A marvel of beauty, speed and easy action. Typewriting efficiency raised to the nth power.

The OLIVER No. 7 embodies all previous Oliver innovations and new self-acting devices never before seen on any typewriter. A leap in advance which places The Oliver ten years ahead of its time. So smooth in action, so light to the touch, so easy to run, that experts are amazed. A model that means to the typist delightful ease of operation.

A model that means a higher standard of typewriting, longer and better service.

The No. 7 is now on exhibit and sale at all Oliver Branches and Agencies throughout the United States.

The new model has more improvements, refinements and new uses than we can even enumerate here.

The "cushioned keyboard" with "anchor keys" and the new automatic features mean less work for the hands, less strain on the eyes, less manual and mental effort.

With all of these masterly mechanical improvements we have made the machine more beautiful and symmetrical. From every standpoint THE OLIVER No. 7 attains superlative excellence.

Nothing you could wish for has been omitted. The new device, refinements, improvements and conveniences found on the No. 7 represent an enormous outlay and vastly increase its value—the price has not been raised one penny. We shall even continue in force our popular 17-Cents-a-Day purchase plan, the same as on previous Oliver models.

The OLIVER No. 7, equipped with the famous Printype, if desired, without extra charge.

You owe it to yourself to see the new machine before you buy any typewriter at any price. Note its beauty, speed and easy action, its wonderful automatic devices. Try it on any work that is ever done on typewriters. Try it on many kinds of work that no other typewriter will do.

It is a significant fact that the typewriter that introduced such epoch-making innovations as visible writing, visible reading, Printype, etc., should be the first to introduce automatic methods of operation.
