Farm Machinery Again

We are talking again on this subject because we want to impress on your minds the fact that successful farmers have become so through the use of this same machinery, and what others can do you ought to do.

The earth is full of wealth waiting for some one to dig it out, but you will never pry it all loose with bare hands or the old time tools.

If you saw a dollar in the road you would pick it up. Our machinery means a good many dollars "picked up" for you. Better start your "picking" now.
