THOSE who read the ads are the ones who save the scads.

We are going to name our pig Old Virginia. She-roots.

What has become of the old-fashioned boy who used to smoke rabbit tobacco?

It may be that the Kaiser is infallible and invincible, but it looks to us like he is in wrong.

MAYBE the reason old Carranza doesn't get a shave is that he expects to beard Villa in his den.

"ONLY three more days of Grace, says Germany." And some Charles-tonians wish it was true!

ENGLAND may be mistress of the seas, but Germany is master of the U's, while Uncle Sam has charge of the V's.

We put more than three cents worth in this paper each week, and it is not our fault if anybody cannot get it out.

THE unusually sound News and Courier is quite correct. Nothing should bother a man who is so fortunate as to dwell in Pickens.

GRUMBLING is a bad habit. Some people would grumble and growl if they had baked angel for dinner every day in the week.

DID you know that Pickens had a millionaire citizen? Well, maybe not quite that—but Mr. E. H. Craig has a hen that laid 220 eggs last year.

A CORRESPONDENT writes us: "You are so slightly henpecked that your editor friends haven't noticed that you are a married man." It does look that way.

WELL, well! Colonel Booker of the Spartanburg Journal has this heading to a prohibition editorial: "Let's Have Something." The Colonel must have fallen off the wagon.

CARRANZA suggests that the United States place an embargo on munitions and everything else that helps to prolong the war. Well, suppose we begin on Mexico—just to see how it works.

"It's an ill wind," etc. The recent freezing weather in South Carolina has killed millions of the boll weevil, according to a statement made by the farm demonstration agent of Hampton county.

SHOULD this country be dried up entirely, as now seems probable, what will become of the many advertised cures, fakes and others, said to destroy the appetite for liquor—to say nothing of the Keeley institutes?

OUR WEEKLY RIDDLE.—Two negroes fishing; the little negro is the big negro's boy, but the big negro is not the little negro's daddy. What's the relation?

The big negro is the little negro's mammy.

WHEN Jones wants to go up town He leaves home on the sly, For every time she sees him leave, His wife, she says, "buy buy."

"ATLANTA short on coal," says a headline. But long on gas.

We have a lingering idea that the U. States is the boy for the U-boats.

THOSE New Yorkers who buy meat from a butcher shop that sells only horseflesh at least have the satisfaction of knowing what they are eating.

AFTER advising Colonel McKissick to get married we feel like we ought to also let him know that sen-sen is absolutely no protection when a woman is around.

We'd like to say just here that we believe in Senator O'Dell Pickens county has about the best and most level-headed senator in the state. If all the members were like him the general assembly would be of some benefit to the people.

Some newspapers are saying it would be a good move on the part of the president, in forming his next cabinet, to put Colonel Roosevelt in one of the several positions. Surely; put him in the cabinet, lock the door and throw the key away.

If correspondents want their articles published in The Sentinel they must send their names along with the articles they want published. We will not publish your name if you do not want us to, but we must know who is the author of each article we publish. Bear this in mind, please.

THO we never saw the editor of the Williamsville (N. D.) Item, we deeply sympathize with him, and our sympathy is explained by the following notice which recently appeared in his paper: "We wish to apologize to Mrs. Orlando Overlook. In our paper last week we had as a heading 'Mrs. Overlook's Big Feet.' The word we ought to have used is a French word, pronounced the same way, but spelled fete. It means a celebration and is considered a very tony word."

We Still Believe It's a Horn

The heading of that good newspaper, Newberry Observer, is illustrated, and we know it's all right and all that; but would Brother Wallace mind telling us whether the man in the picture is aiming a gun at something or the taking a drink out of a long bottle?—Pickens Sentinel.

It's a telescope, you mountain galoot; and the man is observing what is going on in the world—which is represented by the circular picture at the right hand corner. Just now his gaze fixed on the two Americas.

What you take for a bottle is half as long as a man. Whoever saw a bottle as long as that? How would a person carry it around? Bottles in this part of the state to drink out of are either quart size or pocket flasks. Pickens moon-shine bottles may be three feet long; but they never get as far away from home as Newberry.

A Good Joke
Aiken Journal and Review.
We are glad to see Gary Hiott's paper so prosperous, but how could it be otherwise in the county of good Pickens?

PHONE NOS. 10 AND 66

For the convenience of our customers who are sometimes delayed in ordering groceries through the office, we have installed a telephone in our Grocery Department. The number is 66, and for prompt delivery of your grocery order, please give your order on No. 66.

We will receive several shipments of new goods within the next ten days, have just received a new car Furniture, bought before the big advance in prices, have another car Chase City Buggies on the way, and will receive another car Mitchell Wagons in a short time.

Our Spring Clothing for men and boys, Oxfords for men, ladies and children, and a large part of our Staple Dry Goods, was bought last fall, and since then there has been a tremendous advance in prices all along these lines. We are glad to say, however, that we will be in a position to sell you nearly every line of merchandise almost as cheap as you bought last spring.

Take Coats Spool Thread, for instance. The price has not only advanced, but on black thread after February 1 there is only 150 yards to the spool. We have already contracted for enough spool cotton to carry us through the year, at the old price, and every spool has 200 yards to the spool.

See us for what you want. We have the goods, the quality and the right prices.

Yours truly,

How to Reduce Your Fertilizer Cost

Leading Southern farmers will tell you that 400 pounds of SWIFT'S RED STEER BRAND FERTILIZERS will make from 20 to 50 pounds MORE LINT COTTON PER ACRE than other brands of fertilizer. Even at 15c per pound, every 10 pounds more lint per acre reduces your fertilizer cost \$7.50 per ton. Figure this out for yourself. You can prove it this year by using SWIFT'S.

The reason is that SWIFT'S FERTILIZERS are always made from highest quality and highest-priced materials, skilfully compounded, double mixed and thoroughly cured.

The difference between SWIFT'S and other fertilizers WILL ALWAYS SHOW UP AT THE SCALES.

This same increased production applies to all other crops.
