

CALOMEL WHEN BILIOUS? NO! STOP! AGTS LIKE DYNAMITE ON LIVER

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Doesn't Make You Sick!

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!
Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you feel "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just try a spoonful of harmless Dodson's Liver Tone.
Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a

spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salfate or make you sick.
I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—Adv.

Portable Medicine Chest.
The cartridge belt medicine chest is for use in peace as well as in war, but it is especially intended for hunters, prospectors and such persons who have need for remedies, but who cannot be burdened with chests and similar bulky paraphernalia. It has been devised by Dr. Otto Sommer of Seattle, Wash. The belt is made of canvas or leather, as desired, and it has numerous compartments for vials containing medicine, just as a cartridge belt and swallows it. If relief does a person wearing the belt wishes to take a shot at some internal disorder he plucks a medicinal pellet from the belt and swallows it. If relief does not follow he plucks another of a different kind until his medicinal ammunition is depleted. At this point he dons another belt fully loaded and repeats the operation. The inventor says the belt is useful on long walks, trips and on horseback expeditions.

CZAR ABDICATES AFTER BIG REVOLT; SON ON THRONE

Russian Duma in Control of Great Empire—500 Persons Killed.

GRAND DUKE MADE REGENT

Simultaneous Uprisings in Petrograd and Moscow—Emperor Placed Under Guard—Emperor Heeds Demand to Quit—Soldiers Join Revolutionists and Two Statesmen Are Slain.

Petrograd, March 19.—Czar Nicholas of Russia has abdicated and the Grand Duke Michael Alexandrovitch, his younger brother, has been named as regent of the empire.
Nothing official regarding the dynasty's future has been given out, but it is understood the Grand Duke Alexis, heir apparent, is to be recognized formally when conditions become settled.
Corrupt Ministry Ousted.
The Russian ministry, charged with corruption and incompetence, has been swept out of office.
One minister, Alexander Protopopoff, head of the interior department, is reported to have been killed, and the other ministers, as well as the president of the imperial council, are under arrest.

A new national cabinet is announced, with Prince Lvoff as president of the council and premier, and the other offices held by the men who are close to the Russian people.
No Peace Movement.
The duma joined hands in the revolt which aimed at the reactionary conduct of the war and the ineffective distribution of food. Its success means a more aggressive part in the war and is said to put an end to German hopes for a separate peace with Russia.
The British and French ambassadors here already have established official business relations with the new cabinet and with the executive committee named by the duma. It was this committee that forced the czar's abdication.

Czar on Way From Front.
London, March 19.—A Reuter dispatch from Petrograd says that the emperor is expected to arrive at the Tsarskoe-Selo palace and that several regiments with artillery are hastening to the same place.
The Grand Duke Nicholas is reported to have reached the Russian capital. The dispatch says that he will probably take command of the troops.
According to information received here the Russian people have been most distrustful during recent events of the personal influence of Empress Alexandra. She was supposed to exercise the greatest influence over Emperor Nicholas.
The Empress Alexandra, before her marriage to the emperor of Russia in 1894, was the German Princess Alix of Hesse-Darmstadt.

A popular revolution has been successful and the government of Russia rests temporarily with a self-appointed committee of the duma.
After three days of battle, in which the majority of the 30,000 troops in Petrograd mutinied and supported the revolutionists, calm has returned.
The czar's abdication was in compliance with the urgent demand of the committee of the duma, which notified him that upon his assent depended the fate of the dynasty.
Troops Back the Duma.
Telegraphing from Petrograd Wednesday, Reuter's correspondent says Kronstadt, the fortress and great naval station at the head of the Gulf of Finland, 20 miles west of Petrograd, has joined the revolutionary movement. Two deputies, Peplauff and Taskine, on instructions from the duma committee, proceeded to Kronstadt, where the troops placed themselves at the disposal of the duma.

The Copenhagen Ekstrabladet reports that the Russian consul in Haparanda, Sweden, says that former Premier Sturmer and Minister of the Interior Protopopoff were killed in Petrograd. Both were charged with pro-German sympathies.
New Cabinet Announced.
A new national cabinet is announced, with Prince Lvoff as president of the council and premier, and the other offices held by the men who are close to the Russian people.
The members of the new national cabinet are announced as follows:
Premier, President of the Council and Minister of the Interior—Prince Georges E. Lvoff.
Foreign Minister—Prof. Paul N. Miloukoff.
Minister of Public Instruction—Pro-

EAGER TO PROSECUTE WAR

English Correspondent Asserts That All Classes of Russians Favor Continuation of Hostilities.
London, March 19.—Reuter's Petrograd correspondent sent the following dispatch concerning the Russian revolution under date of March 14:
"Your correspondent has been in the streets both night and day for the last three days. He has seen long lines of hungry men, women and children, and

Professor Manuloff of Moscow university. Minister of War and Navy, and Interior—A. J. Guehkov, formerly president of the duma.
Minister of Agriculture—M. Ichingarov, deputy from Petrograd.
Minister of Finance—M. Tereschtenko, deputy from Kiev.
Minister of Justice—Deputy Keren-ski of Saratoff.
Minister of Communications—N. V. Nekrasoff, vice president of the duma.
Controller of State—M. Godneff, deputy from Kazan.
Control Is Complete.
That control by the new government is complete is undoubted. Telegrams from generals commanding at the various fronts have displayed an astonishing unanimity of support of the new order.

Demonstrations against the government have been frequent during the last few weeks. The attempted proroguing of the duma fanned the fires, which spread rapidly from class to class and from civilians to troops.
Sunday it broke forth in flame. Panic-stricken, the government ordered the mounted patrols to fire on the people. The patrols refused, and a battle between the police and the troops followed, regiment after regiment joining the revolutionists, seizing and throwing the heads of the secret police into prison.
For three days open battle raged in the streets of Petrograd. Strikes in factories and on street cars were called in sympathy with the revolution.

Wednesday the week's nightmare of revolution ended more suddenly than it had begun. Planks were pulled from windows, doors were unbarred, factories, stores and banks reopened.
500 Slain in Revolt.
The only evidence that a revolution had been fought and won was the smoldering ruins of a few public buildings. The cost in life is unknown. It is believed, however, that it did not exceed 500.
Magical and sudden as was the transition from the old to the new, it is believed here that its results will be almost immediately visible in the institution by the new Russia of a more vigorous and efficient prosecution of the war against Germany.

Appeal Made to Czar.
The duma telegraphed the principal generals at the front to use their influence with Emperor Nicholas in support of the duma's appeal for a popular government, says Reuter's Petrograd correspondent.
General Brussloff, commander in chief of the armies on the southwest front, replied:
"Your telegram received. I have fulfilled my duty to my emperor and my country."
Gen. Nicholas V. Ruzsky, member of the supreme military council, replied: "I have carried out your request."
M. Rodzianko, president of the duma, sent the following telegram to Emperor Nicholas:
"The situation is becoming worse. Measures must be taken immediately, for tomorrow it may be too late. The hour has arrived when the fate of the country and of the dynasty is being decided."

M. Chitcheviovitch, president of the council of empire, was arrested in his home and temporarily held in the ministerial room of the duma.
A telegram received by the naval attaché of the Russian embassy in Paris reported that the railways and public services in Petrograd had resumed work.
The revolution, which evidently was carefully prepared, broke out simultaneously in Petrograd and Moscow; The garrisons, which obeyed the instructions of the revolutionaries, immediately took possession of these cities after comparatively little fighting and equally small amount of destruction of property.

Petrograd Bridge Blown Up.
In Petrograd one bridge was blown up. Strict military rule prevails and the army has the situation so well in hand that it is not expected adherents of the late government will be able to offer any serious resistance, even in remote provinces.
After receiving word of the revolution, it is reported, Emperor Nicholas returned to the palace, where he arrived on Wednesday.
The following details of the revolution have been given to the press from a source usually well informed on Russian affairs:
"The soldiers refused to act against the crowd which started trouble when it heard of the ukase issued by Emperor Nicholas proroguing the duma. On Sunday the committee which had met to discuss the food situation was partly transformed into a provisional government under the presidency of President Rodzianko of the duma and included representatives of the duma council of the empire and of the municipality. The garrison agreed to support the provisional government."

The proclamation by the military governor in Petrograd forbidding any street assemblages and declaring that any disorders would be ruthlessly suppressed made it apparent that affairs were graver than the dispatches allowed by the Russian censorship would indicate.
has seen the wanton firing of rifles and machine guns, and civil war in the main thoroughfares, but has not heard a single word against war.
"A shortage of food, the lack of organization and the neglect of the most elementary precautions are popularly ascribed to German influences. This is a word of provocation on every lip.
"The killing of Rasputin was the match that set fire to the vast heap of patriotic determination that Russia would deserve well of her allies if she would give herself the chance.

Died of Premature Old Age!
(BY V. M. PIERCE, M. D.)
How many times we hear of comparatively young persons passing away when they should have lived to be 70 or 80 years of age. This fatal work is usually attributed to the kidneys, as, when the kidneys degenerate, it causes auto-intoxication. The more injurious the poisons passing thru the kidneys, the quicker will those noble organs be degenerated, and the sooner they decay.
To prevent premature old age and promote long life, lighten the work of the kidneys by drinking plenty of pure water all day long, and occasionally taking Anuric (double strength) before meals. This can be obtained at drug stores. Anuric will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant arising.
