CALOMEL MAKES YOU SICK, UGH! IT'S MERCURY AND SALIVATES

Straighten Up! Don't Lose a Day's Work! Clean Your Sluggish Liver and Bowels With "Dodson's Liver Tone."

Ugh! Calomel makes you sick. Take a dose of the vile, dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you feel sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a spoonful tonight and if it doesn't straighten you right up and make you feel fine and vigorous by morning I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.—Adv.

King's Business College INCORPORATED

Special Summer RATES ARE NOW ON

Buy unlimited life scholarship before Aug. 15th and save $10 on any course. Bookkeeping, Shorthand, Typewriting and English Courses. We train for Business Employment and Success. Great demand for graduates. Send for catalog and full information.

Address KING'S BUSINESS COLLEGE, RALEIGH, N. C., or CHARLOTTE, N. C.

ONE FISH IS SOLD FOR $329

Return of Sturgeon to Delaware River Surprising as It Was Thought to Have Been Exterminated.

Sturgeon fishing in the Delaware river and bay has showed a surprising improvement over past years in the number of catches and size of the fish, the Philadelphia Record states. Old river men are mystified by the return of the sturgeon, as it was thought these big fish had been about exterminated. Recently a number of exceptionally big fish were caught, some averaging well above 200 pounds and a few 300 pound sturgeon have also been caught.

The cow sturgeon are just now filled with roe and some of the big ones yield from 90 to 100 pounds, selling at $2.75 a pound at the wharves. One fisherman who brought in a 300-pound sturgeon last week was paid $305 for the roe and $24 for the fish, his catch netting him $329.

Harry A. Dalbow of Pennsgrove, who has been buying caviar here for many years, says that this is one of the best sturgeon seasons in the bay he has seen for a long time. There is a big demand for the roe this year, as importations of caviar from Russia, where sturgeon are caught extensively, have been cut off by the war.

A Domestic Cataclysm.

He (reading the news)—My dear, I see there's another break in China.

She—I can't help it, John. Even taking it out of her wages won't stop her.

Constipation generally indicates disordered stomach, liver and bowels. Wright's Indian Vegetable Pills restore regularity without griping. Adv.

The Paxton Toilet Company, Boston, Mass.

Working Both Ways.

"It is the early bird that catches the worm."

"So does the early fish."

If you suspect that your child has Worms, a single dose of Dr. Peery's "Dead Shot" will settle the question. Its action upon the Stomach and Bowels is beneficial in either case. No second dose or after purgative necessary. Adv.

Two Standpoints.

She —Mrs. Scraggs dresses in awful taste.

He—I know she does; I've tasted her salads.

Maybe He Was Too Weak.

"I don't believe that man was really hungry."

"Why?"

"He said he hadn't had anything to eat for three days, and I told him if he would split that cord of wood I'd give him his breakfast."

"Well?"

"He asked me for his breakfast first. Any man who was really that hungry would have been glad to earn his meal."

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine — double strength — is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Joke on Mother.

Returning home one afternoon, little Richard's mother found him apparently in great pain. Careful questioning failed to disclose the cause of the lad's suffering. Previous experience told the mother that Richard probably was in need of that oil so unpopular with children, and she proceeded to administer a generous portion despite the crying resistance of Richard. A few minutes later the boy appeared, apparently in great glee.

"I've got a joke on mother—I've got a joke on mother," he cried.

Members of the family were curious, of course.

"Mother thought I was sick and gave me oil, but I got the toothache," he exclaimed between laughs.

Richard's earlier reticence was due to dread of the dentist's chair.—Indianapolis News.

How He Led the Class.

There was some doubt as to whether Johnny, age eight, of Muncie, would be promoted this year, his mind having run largely to baseball and other matters extraneous to school, but he managed to "pull through." As he came home waving his report card his mother asked, rather fearfully, "And how did you stand, son?"

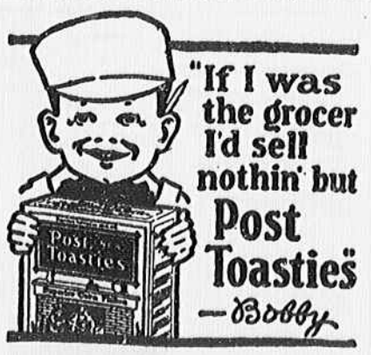
"Right at the head of the class," was the bonstful reply. "The teacher told me that if the class were turned upside down I'd be at the head, and it certainly was upside down this morning, because we didn't study or do anything but shoot paper wads, whisper and act up."—Indianapolis News.

The Slacker.

She—Are you going to enlist?

He—Well, I would if I thought I could not pass the examination.

Canada's 1916 trade with Britain amounted to $821,680,408.



"If I was the grocer I'd sell nothin' but Post Toasties" —Bobby

CLUB GIRLS CLASSES END

Intsruction In Club Work at Winthrop College Brought to Close.—Many Attend Session.

Rock Hill.—A great deal of interest attached to the delivery at the summer school at Winthrop College of certificates to the 98 club girls who have been the guests of the college for the past two weeks. The club girls have applied themselves assiduously to the tasks assigned them as was shown by the splendid display of articles they made while here. It is considered marvelous that they have accomplished so much in so short a time.

Their commencement exercises which were held at the open hour after chapel, were an inspiration to all. Their rendition of "Carolina" and the canning club song were very creditable. In the absence of President Johnson, Prof. Maginnis delivered the certificates, preceding the delivery with an explanation of their significannce. In 1912 six counties were engaged in the work with six demonstrators and 54 girls; in 1917 36 counties are engaged in the work with 36 demonstrators and eight assistants and 7,000 girls. In addition to this, 6,000 women are engaged in regularly organized effective work. The courses for women cover three years and are carefully planned and well executed. The courses for girls cover four years. These courses enter into all the phases of domestic and economic life of girls and women. The "tomato girl," from learning how to grow and can tomatoes, goes on to other things. In the same way the "poultry girl" passes out into larger fields.

The counties engaged in this work pay the railroad fare and Winthrop College provides free entertainment and tiution to the prize winning girls for the short courses which end as today with a public commencement. Many entertainments are given the girls by the Y. W. C. A., the Chamber of Commerce of Rock Hill, the summer school faculty and others. Miss Edith Parrott is at the head of the home demonstration work for girls and women. She is assisted by Mrs. Dora Dee Walker, whose interest in this important work never lags. Other members of the demonstration faculty who have seemed tireless in their efforts to help the girls are Mr. Clevealnd, Miss Smith, Miss Garrison, Miss Lemon, Miss Barrett and Miss Forney.

The girls have had lessons in singing, cooking, bead and basket making. They have darned stockings, taken notes and written recipes. In addition to learning to work, they also have learned to play and have heard a number of rare lectures.

National Guard to be Examined.

Charleston.—Gen. Wood and Col. Roudiez, who is in charge of military affairs, were busy arranging for the calling out of the National Guard in this department on July 25, and one of the biggest tasks is to round up enough doctors to put through the necessary physical examinations of the soldiers after they have reported for duty at their armories. The National Guardsmen will be held at their quarters for about two weeks after being called out, and during that time they will undergo rigid physical examinations and there will be a general checking up of the forces. There will evidently be no delay in mobilizing the National Guard on July 25, as every preparation is being made to take care of the big outpouring of men. After a couple of weeks at armories, the gupardsmen will probably be assembled at State camps, from which they will go to divisional centers.

More Camps in South.

Charleston. — Still more training camps will be located in the Southeastern army department for later drafts, in the opinion of Gen. Wood, as the war department is expected to find that troops from the Central and near Northwestern States may be sent to the South for training almost as cheaply as to the Mexican border, where they are now being rounded into shape, thus saving the cost and physical unfitness caused by a later trip to the Atlantic seaboard for embarkation.

SOUTH CAROLINA NEWS ITEMS.

Hebe Smith, a negro, was accidentally drowned in the Saluda river near Dreher's ferry while swimming with another negro. The body was recovered.

The Young Men's Christian Association has forwarded to Charleston and Port Royal army tents which have been in storage at the city association for some time.

A boll weevil discussion will be held in Sumter July 21.

Dr. J. R. Boling of Columbia and Dr. R. G. Hamilton of Bookman, lieutenants in the Columbia Red Cross ambulance corps No. 26 left Columbia they will join their company now in last week for Allentown, Pa., where training at Allentown. The Columbia ambulance company left Columbia several weeks ago to go in training. Drs. Boling and Hamilton have been waiting for their commissions which they received with orders to report immediately to the commanding officer, Capt. M. H. Wyman, also a Columbia physician, at Allentown.

FOR BETTER ROADS

HARD ROADS ARE NECESSARY

Big Essential in Using Trucks for Transportation of Farm Products to City Markets.

The farm truck is destined to play an important part in the marketing of farm produce, but in the meantime much attention must be paid to the roadways over which they are to be operated, in the opinion of W. H. Sanders, instructor in farm motors in the Kansas State Agricultural college.

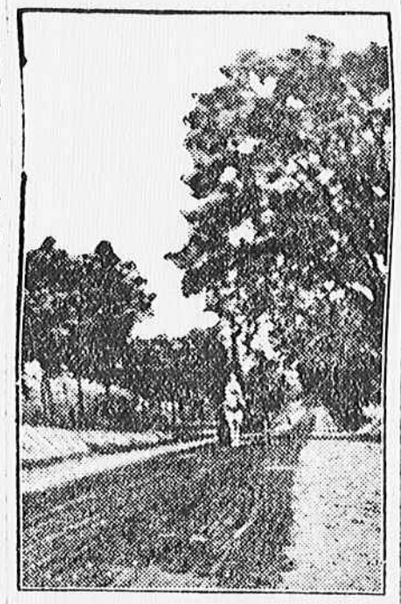
"To use a truck to advantage hard roads are necessary," said Mr. Sanders. "Trucks have been used with marked success for a number of years on paved streets. Although they were used to transport food and water to the United States troops during the recent occupation of Mexico, the war department soon decided that hard roads were a requirement in operating trucks to the best advantage.

"Use of a truck on the farm saves time and reduces the number of men required to do the farm hauling. When a truck is operated on the farm greater care will be used in laying out the fields so as to give a more efficient use of power expended. Time will be saved, because less time will be spent on the road between town and the farm. The number of farm hands will also be reduced."

PERMANENT ROADS IN FAVOR

Money Spent for Location, Grading and Drainage of Roads Is Useful Expenditure.

Investing money in the proper location, grading and drainage of roads is about the most permanently useful expenditure of public funds that can be made. Usually courthouses are considered typical of such an investment, but a well-located road is serviceable for a far longer period. The courthouse is outgrown at the end of a quarter century; if it continues in use longer it must be remodeled and the public officials in it clamor for better quarters. But a road laid out on proper lines and grades serves the public forever, and on that account its location should be made by a competent engineer. Furthermore, even the local roads should be laid out with the same care, so that as the country develops they will improve with it and not require expensive purchases for new rights-of-way. Foresight in such matters will have valuable results within a comparatively few years in a country growing as fast as the United States.



Road of Bituminous Macadam.

FIRST ROAD UNDER U. S. AID

Will Be Located in Apache National Forest, Arizona—Several Advantages of Highway.

The first national forest road to be constructed under the federal aid act will be located in the Apache National forest, Arizona, a survey for which has been authorized by Secretary Houston. The proposed road will be 71 miles in length and cost about $342,500, to be borne equally by the federal government and the local community. Among the advantages of the highway will be the opening up of enormous industrial resources and a magnificent recreation area for tourist travel.

Influence of Automobile.

The influence of the automobile upon road improvement is constant and omnipresent. It reaches the remotest rural regions and tends to convert bad roads into good and good roads into better.

Cost Is $800 a Mile.

The average cost for repair and maintenance of 7,300 miles of highway in Connecticut, Massachusetts, New York, New Jersey and Rhode Island for the year 1912 was about $800 a mile.

Just Talk.

"The Huns," said a government official at luncheon, "talk big about a war indemnity and annexation, but they don't mean what they say. They just hope by their big talk in the beginning to make a better bargain in the end.

"The Huns are like the chap who entered the banker's office and said:

"'Pardon me, but are you carrying sufficient life insurance to satisfy your conscience?'

"'I am,' said the banker, shortly.

"'Could I interest you, then, sir, in a player piano, with electrical attachments at a thousand dollars?'

"'You could not.'

"'What about a gold-mounted talking machine in satinwood case, reduced to seven hundred and fifty dollars?'

"'Nothing doing.'

"'I wonder, sir, if an unexpurgated set of E. P. Roe, full levant morocco, blind tooled, going at five hundred dollars, dirt cheap, would appeal to you?'

"'No, it wouldn't.'

"'Want to buy a filing cabinet, sir?'

"'No.'

"'Ahem. Then what would you say to this five-cent stick of shaving soap—a nickel stick of shaving soap, just to get rid of me? Anything doing, sir?'

"'My goodness, yes! Here! Take this.'

"'Thank you, sir, and good day.'"

Natural Fighter.

"Do you think your boy would be safer at home than in the army?"

"Not a bit. Every time there is a ball game in the neighborhood they make him the umpire."

The occasional use of Roman Eye Balsam at night upon retiring will prevent and relieve tired eyes, watery eyes, and eye strain. Adv.
