## THE CHEERFUL CHERUB

The moon alone is a poem to me  
From its tender youthful hope  
To the time when it thinly fades away  
Like a used up piece of soap.

Could Be Worse.

Newberry Observer. Prof. Gilstrap of Pickens comes along and knocks President Wilson and congress out of the way and settles the whole war business out of hand; but, alas, Editor Gary Hiott comes along and settles Prof. Gilstrap, and the whole thing is in statu quo ante.

12 Nice Farms to Select From!**

These farms are located on the edge of the thriving town of Westminster, on the main line of Southern Railway and range from three to five miles from the center of the town. Westminster is a live, hustling town with a cotton mill, oil mill, lumber plants, one of the finest schools in South Carolina, and being on the main line of the Southern Railway between Greenville and Atlanta, makes it an ideal place to live. Several of these farms have some of the best river bottoms and are now producing fine crops, while others are covered with timber and at the present price of wood and the big demand created by the government we believe that the wood on any tract would almost pay for it, or enough timber could be cut on either tract to build a nice house, barns and outbuildings. It doesn't require much money to own one of these farms, and with the high price of cotton and corn, you could soon pay for it, and we will give you long terms.
