FOR years scientists have tried to decide just what is whisky. It's a conundrum to us, too; so we'll give it up.

Time of Year When We All Need Tonic

Fifty Cents Worth of Acid Iron Mineral, Contrated, Cheapest and Best.

ALL DRUGGISTS HAVE IT.

Anemic, run down, nervous men and women, past twenty-five will find the most economical tonic and medicine for the blood to be just ordinary medicinal iron, highly concentrated. It is not only most economical but strong, a half teaspoonful in a glass of water being the usual dose.

Any druggist has Acid Iron Mineral and a fifty-cent or dollar bottle of Acid Iron Mineral will go from two to ten times as far as other weaker iron preparations do.

In buying Acid Iron Mineral concentrated, the user should remember that it is just a natural highly concentrated product and therefore contains no cathartics or laxatives to upset and stimulate the bowels as so many preparations do.

We all need more or less iron on time of year to enrich the blood. Another advantage of this natural product is that it helps digestion and appetite and the kidneys show its effects quickly.

If skin is pimply, sallow and pallid, and blood is full of uric acid and other poisons which cause so much pain, rheumatism, etc., the reader should mix a teaspoonful of Acid Iron Mineral in a glass of water after each meal for a short while.
