## Tax Notice, 1917

Office of County Treasurer, Pickens County.

Pickens, S. C., October 1, 1917. The books for the collection of State and County taxes will be open from October 15, 1917, to December 31, 1917.

Those who prefer to do so can pay in January, 1918, with 1 per cent additional. Those who prefer paying in February, 1918, can do so with 2 per cent additional. Those who prefer paying in March, 1918, to the 15th of said month can do so by paying an additional 7 per cent. After said date the books will close.

N. B. Taxpayers owning property or paying taxes for others will please ask for tax receipt in each township or special school district in which he or they may own property. This is very important, as there are so many school districts. Those who do not wish to come to the office can write me, not later than the 20th of December, and I will furnish them with the amount due and they can pay me by check, money order or registered mail. If stamps are sent do not send above 2 cent denomination, as I cannot use them. Please do not send me cash without registering same, as it is liable to get lost. If sent otherwise it must be sent sender's risk.

## Help to Win the War

We can all help a little by raising our supplies at home. Pickens county helped last year and the results are here to show Pickens never had more of the necessities than now.

Our advice would be to try again for a bumper crop of supplies.

May we figure with you on your fertilizers?

# Fertilize NOW MANURE

## The Cheapest Fertilizer

THE WORLD SHORTAGE of farm products means continued high prices for everything your land can produce. Plant more acreage this year and make each acre produce more.

Now is the time to use Manure—the cheapest fertilizer.

The following comparison of the plant food value in commercial fertilizer and Manure bears evidence that it is to your interest from a cost standpoint to use Manure on your land.

## A Comparison of the Costs of Plant Food in Commercial Fertilizers and Manure

Basic Price Per Unit	
Acid	\$1.25
Ammonia	7.00
Potash	6.00

  

Commercial Fertilizer	Manure From Camp Jackson
Analysis—	Analysis—
8-3-0 cost per ton	Acid, 0.45 at \$1.25
8-3-3 cost per ton	Ammonia, 0.68 at \$7.00
10-2-0 cost per ton	Potash, 0.58 at \$6.00
	\$8.80

## Actual Worth of Manure Based on Commercial Fertilizer \$8.80

Furthermore the decaying organic matter in the Manure is constantly adding available plant food to the soil, is valuable both from a humus standpoint as well as a land builder. Manure will show results for three years, and its cost divided through this period will show a much lower cost per unit of plant food than any other fertilizer on the market.

# Car Lots a Specialty Cars Average 33 Tons

WE ARE DAILY making shipments of this product into all sections of the country, and it is being received with entire satisfaction on account of its excellent quality and condition on arrival at destination.

It contains no objectionable matter such as trash, dirt, obnoxious grass seeds, etc.; oat straw is the only bedding used, and the Manure naturally contains a small quantity, but not sufficient to make it objectionable. As a matter of fact it is worth more than its weight, on account of its high value of potash, which makes it more valuable as a fertilizer.
