IN LOOKING over a review of the war for the past few weeks we notice that the Americans began winning soon after a day of prayer and fasting was observed in the United States.

AFTER reading reports in both reform and anti-reform, as well as so-called neutral papers, it appears that in the campaign for governor Messrs. Cooper, McLaurin and Richards are the leading candidates. In the race for United States senator, Tillman and Blease are, of course, the leading candidates, the Mr. Ding seems to be developing more strength than it was thought he would.

Andrew J. Bethea,
 He Made a trip across the sea At Henry Ford's expense.
 He went for To stop the war,
 But it's been going on ever since,
 But Andrew J. Bethea,
 He Knows naught of matrimonial sea;
 Poor Andy never has been wed;
 He knows no joys Like boys and toys,
 And sleeps in a single bed.
 Andrew J. Bethea,
 He Is Lieut.-Gov. of old S. C.
 And now he's in the governor's race;
 But late in life Without a wife
 He has no business in that place.

LEND, NOT GIVE

In asking people to invest in War Savings Stamps, the Government is not asking them to contribute money. It is merely asking for the use of money, and willing to pay liberally for it. The Government simply wishes to employ your money and pay for its services just as it would employ you and pay you for your services. You will get your money back with interest—compound interest at the rate of 4 per cent per annum. The stamps mature in five years, but you can cash them any time you wish before the date of maturity and still get interest—at three per cent. If you need the services of your money before five years, the savings stamp handed to the postmaster will be the letter of resignation, and you'll get your money back with additional payment for the time the Government has used it. There is no red tape, no bother, no uncertainty, no worry. It is the simplest, safest, and most satisfactory investment you can make.

You can get The Sentinel 8 months for \$1.00.

My Trip to Winthrop College

We reached the dormitory about ten o'clock Thursday night. The rising bell rang next morning at half past six. I think many of the girls were up and ready for breakfast at that time. We had breakfast at seven-thirty. The girls were divided into class sections, several counties in each section. There were four classes each day and while section A was in the Food Production class section B would have a class in Food Conservation, section C in Handwork, and section D in Food Preparation. I was in Section D and my first class every morning was Food Preparation; second, Handwork, and first after dinner Food Conservation and second Food Production. All classes were interesting. Some girls liked one better than another. I liked them all so well that it was hard to tell which I preferred. Devotional exercises were held in the chapel from twelve to one o'clock each day. There were also lectures and music at this period. After supper Friday evening we were entertained at a delightful campus party; Saturday night a lecture and moving pictures; Sunday night a Vespers service; Monday a lecture; Tuesday after supper the girls visited the college farms and the women had swimming and games; Wednesday a Conservation program held in the chapel; Thursday swimming and games for the girls, and a trip to the college farm for the ladies; Friday, June the fourteenth, a musical and farewell party. I became acquainted with a number of nice girls from other parts of the state. About two hundred and twenty-five girls and as many women were there to take the Short Course. I learned more about food production, preparation and conservation in those ten days at Winthrop than in twice that time before this war began. We all want to show our appreciation by producing and saving more food and preparing all food so well that it will be more appetizing, more easily digested and assimilated, and, therefore, less liable to waste. I had a very good time the whole of ten days. We are very grateful to Dr. Johnson, Miss Parrott and their corps of assistants for making our first visit to Winthrop College so pleasant and profitable. Vera Chapman. Calhoun.

CARD OF THANKS

Cards of thanks published for one-half cent a word.

We desire to publicly thank our good friends and neighbors for their help and sympathy during the sickness and death of our dear husband and father. Their loving kindness will never be forgotten by us and we pray God's richest blessings upon each one. Mrs. C. G. Lewis and Children.

On the 18th day of June, 1918, the heavenly angels visited our home and called from us the brightest jewel—our dear mother. It was His will who doeth all things well. It is sad to part with dear mother, but we soon must follow. She called her six children to her bedside, bidding them to only trust Jesus and all would be well, and asked them to meet her in heaven where sad parting would come no more. We thank our neighbors and Drs. Kirksey and Cannon for their assistance and medical aid during the sickness and death of our dear mother. May God's richest blessings rest upon us all in our prayer. E. C. Edens and Family.

Millers' Certificates

The Sentinel office has a small supply of Millers' Certificates in stock which are being sold at 40c per hundred.

LUZIANNE coffee and Good Cheer go together like Possum and Sweet Potatoes

BECAUSE Luzianne makes the best-tasting cup of coffee you ever drank. It's roasted just right. The fragrance—you can't forget it. And the flavor is delicious. Coffee-lovers know that Luzianne just hits the spot, for it's full of punch and pep. If you don't think that this good old Luzianne is worth what you paid, then tell your grocer and he'll give you back every cent.

A Car Load of Mitchell Automobiles JUST RECEIVED

Mitchell Cars are designed just as you would design a car for your own use—to be thoroughly comfortable even on the longest and ordinarily fatiguing rides. The thickly-cushioned, form-fitting upholstery is built up on deep coiled springs. The specially designed Cantilever rear springs absorb all jolts—the wheels roll rather than bounce over bumps. The restful comfort of the upholstery and Cantilever springs is accentuated by the road-smoothing effect of the unusually long wheel base.

Mitchell cars are thoroughly simple in operation. The switchboard control, for starting and lighting—the primer pump, to facilitate starting in cold weather, and the horn button, are all within easy reach. Then there are the reversible headlights, and the motor-driven tire pump, found in few, if any, cars at the same price.

Buy Them And Help Win The War FOR SALE EVERYWHERE

The cars we have are six-cylinder, five-passenger, 120-inch wheel base, 40 horse power, and the price is \$1350.00 f. o. b. the factory.

Compare them with any other six-cylinder on the market at \$1500.00 and we believe you will own a Mitchell.

Yours truly,
