We call special attention this week to the page ad of the Hobbs-Henderson Co. at Central. These gentlemen have a full stock of merchandise and are well prepared to take care of the needs of the country around about them. Ida Gowan, colored, was arrested Saturday afternoon on a charge of grand larceny, she having stolen \$33.00 from the daughter of Mr. Dock Reese. Miss Reese was in Folger, Thornley and Co. and had the money in her purse in her coat pocket. She took off the coat to try on another garment, and laid it on the counter and the Gowan's woman was standing near and when their backs were turned she slipped the purse out of the coat and disappeared. She was later arrested by rural policeman La-Boon and upon close questioning admitted her guilt and returned the money. She will be confined in jail until Squire Porter's condition will permit her trial.

There are events occurring in every community which, if reported in a local paper, would create a commotion little dreamed of. What to report and what not to report often perplexes the editor. He is often accused of cowardice and favoritism, when all the time he is looking toward the good reputation of the town where his lot is cast. The local editor from necessity almost constantly finds himself between two fires, which ever way he turns he is sure to be unjustly treated. This is one of the pleasures of the newspaper business.

Protect your own town and thereby show that you are in favor of protection. If protection is good for the nation it is good for the town. As townspeople we should favor our town above every other as the growth and development of it is what will enhance the value of all property both in and about it. Then buy your drygoods, groceries, hardware, furniture, drugs, etc., at home; have printing, your blacksmithing, your shoe repairing done at home; patronize home in every instance that you can. The success of our merchants and mechanics means new business houses and residences, additional demands for labor of various kinds. To the farmer a first class town affords a better market for his grain, a better trading point, and such a town is bound to increase the value of his land. Unquestionably "in union there is strength." Let us protect our town.

All the money you lend Uncle Sam when you buy W. S. S. is spent on things for our soldiers.

A McDougall is a central station of efficiency in the kitchen. And it saves steps, time, energy food and money.

If for no other reason than to see its famous Auto-Front, you should by all means call and examine this famous kitchen cabinet.

Come, see this king of kitchen cabinets. Buying a McDougall involves no hardship. It will be a pleasure to show you.

A limited number—get yours before they are all gone.
