

Gasoline Saver

MOTORLIFE

Carbon Remover

Motorlife has come to serve and to save money for the users of gasoline. Its use in any gasoline motor saves from 25 to 50 per cent of gasoline, removes and prevents a re-deposit of carbon.

Motorlife contains a carbon solvent and high grade heat resisting lubricants, which entering the cylinders with the fuel, thoroughly lubricates the upper cylinder chamber and other parts of the motor not reached by the usual lubricating system.

Motorlife, prolongs the life of your motor, increases power and mileage, keeps the spark plugs and valves free from carbon, insures perfect ignition, easy starting, and the highest motor efficiency.

Motorlife is essentially a high grade lubricant and carbon remover. It does not contain acid or other chemicals which can in any way injure the most delicate motor. Chemist's certificate showing the harmlessness of Motorlife and manufacturer's guarantee on every can. A free demonstration to all car owners at any place designated and before anybody.

Motorlife is just as efficient for tractors and kerosene motors as it is for gasoline motors and motor boats.

A trial of Motorlife is all we ask. Price \$2.00 a quart, which is enough to treat 160 gallons of gasoline. By mail \$2.10.

We can save the people of North Carolina, South Carolina and Georgia Ten Million Gallons of Gasoline per year, which means an annual saving of Two Million Five Hundred Thousand Dollars.

You will find it for sale at the following places in South Carolina:

J. J. ADAMS, Laurens, S. C.

Wholesale distributor for the following Piedmont counties: Oconee, Pickens, Anderson, Greenville, Abbe- Laurens, Greenwood, Newberry, Union, Cherokee, York and Spartanburg.

Laurens Motor Car Co., Laurens, S. C.

D. H. Swings, Ehrhardt, S. C.

Thomas P. Felder, 131 Wheeler Street, Spartanburg, S. C.

WANTED: Exclusive wholesale distributors and live dealers in all cities and towns in Virginia, North and South Carolina, Georgia and District of Columbia. Address all communications to

Indorsed by Government

Motorlife has been thoroughly tested by U. S. War Department and is now being used by the government.

MEAT PRODUCERS DID FULL DUTY

Increase in American Hogs Will Help to Meet World Fat Shortage.

FARMERS SAVE SITUATION.

Government Justified in Stimulation of Pork Production—Sevenfold Increase Over Pre-War Exports.

Through increased production and conservation we will be able this year to export seven times our pre-war average exports of pork products. With the heavy demands added in caring for the millions who have been freed from German oppression, the Department of Agriculture and the Food Administration are justified today in our every action of stimulation of hog production. In the coming year the greatest world shortage will be in fats, and pork will help to save this situation. The efficacy of the policy of stimulated production has built up in this country supplies which will enable us to supply a very large part of the fat deficiency of the world. In beef there must be a shortage in Europe, due largely to limited refrigerator ship capacity. All freezer ships available, however, will be filled by America, Argentina and Australia.

The contribution made by the producers of this country to the war program as applying particularly to animal food products is illustrated by the following:

Reports compiled by the U. S. Department of Agriculture indicate an increase in cattle of 10,238,000 head and 12,441,000 hogs. These figures were compiled to January 1 last.

In this period there was a decrease in sheep of \$19,000 head. The indications are that this decrease will show an increase, according to recent reports.

Since January 1 unofficial information indicates an increase in hogs of not less than 8 per cent, and not more than 15 per cent, as compared with one year ago, with an increase in the average weight.

Following the request of the U. S. Food Administration for an increase in hog production for marketing in the fall of 1918 and the spring of 1919 the increase may yield not less than 1,000,000,000 pounds more of pork products than were available last year. Without this increase the shipping program arranged by Mr. Hoover regarding animal food products would have been impossible.

The dressed hog products during the three months ending September 30, 1917, amounted to 903,172,000 pounds, while for the corresponding months of 1918 the dressed hog products totaled 1,277,589,000, an increase of over 374,000,000 pounds for the quarter.

During the same period for 1917 the records of inspected slaughter of dressed beef showed 1,263,000,000 pounds as against 1,454,000,000 pounds for the three month period ending September 1, this year.

America's Pledge of Food Gave Heart to the Allies In Their Darkest Hour

Whatever is necessary America will send. That was America's pledge to the interrelated food council. And because the American food army had hitherto made good they took heart and went forward.

Farm enterprise and much soft corn increased pork supplies, food conservation increased exports—total shipments doubled.

FAITH JUSTIFIED BY EVENTS.

I do not believe that drastic force need be applied to maintain economic distribution and sane use of supplies by the great majority of American people, and I have learned a deep and abiding faith in the intelligence of the average American business man, whose aid we anticipate and depend on to remedy the evils developed by the war.—Herbert Hoover, August 10, 1917.

SUGAR SHOWED OUR BACKBONE

American Willingness to Give Up Luxury Demonstrated Nation's War Conscience.

STAND WITH THE ALLIES.

By Reducing Consumption People of the United States Averted a Famine at Home In Spite of Low Supplies.

The fact that the people of the United States were able to reduce by more than one-half million tons their July, August, September and October consumption of sugar proves conclusively that their war conscience was thoroughly awakened and that the country as a whole stood ready to follow the injunctions of the Government.

Our normal consumption of sugar in the four-month period beginning with July has been 400,000 tons per month, a total of 1,600,000 for the quarter year.

In July, when our sugar stringency began to reach its height, consumption was reduced to 260,000 tons. In August only 325,000 tons went into distribution and in September only 270,000 tons. In October the distribution fell to 230,000 tons.

If the general public had failed to observe the injunctions of the Food Administration this country would have been in the throes of a sugar famine before the end of August. Our visible supplies were so low as to bring great anxiety to those familiar with the sugar situation. They feared that it would be absolutely impossible to reduce consumption to a point where sugar would no longer be a mere luxury in the American diet.

Few accomplishments of the Food Administration will stand forth so predominantly as this reduced consumption of sugar. By it we have been able to bridge over the period of stringency until the new beet and Louisiana cane sugar crops were in sight.

Now the nation is in a position so that if we choose we may return to our normal home use of sugar, and Europe, with the release of ships to go far afield, can maintain its recent restricted rations. If, however, those nations are to increase their use of sugar very considerably it must be by our continued sharing with them through limiting our own consumption.

AMERICAN SPIRIT

RELIED ON TO WIN.

In the light of succeeding events it is interesting to recall the confidence with which the United States Food Administrator viewed the gloomy outlook in July of 1917, when this country had been in the war for less than four months and the Germans were steadily sending the western front nearer and nearer to Paris.

"Even though the situation in Europe may be gloomy today," he declared in a public statement, "no American who has knowledge of the results already obtained in every direction need have one atom of fear that democracy will not defend itself in these United States."

LOYALTY IN LITTLE THINGS LAST PROOF OF PATRIOTISM

Americans without murmuring cut their sugar allowance from four pounds a month to three and then as long as need be to two pounds for loyalty's sake.

DEMOCRACY VS. AUTOCRACY.

"There is no royal road to food conservation. We can only accomplish this by the voluntary action of our whole people, each element in proportion to its needs. It is a matter of equality of burden."

The truth of this statement, made by the United States Food Administrator soon after we entered the war, has been borne out by the history of our exports. Autocratic food control in the lands of our enemies has broken down, while democratic food sharing has maintained the health and strength of this country and of the Allies.

Catarhal Deafness
By local application of the diseased portion of the eye only one way to cure and that is by Catarrhal Deafness, the most common cause of the Eustachian tube, the inflammation can be restored to its normal condition. Deafness is restored to its normal condition. Deafness is restored to its normal condition. Deafness is restored to its normal condition. Deafness is restored to its normal condition.

Our exports since entered the war have statement made by the administration shortly after the inception, outlining the and policies that will the solution of the food problems.

"The whole foundation of democracy," declared the administration, "lies in the individual initiative of its people and their willingness to see interests of the nation with complete self effacement in the time of emergency. Democracy can yield to discipline, and we can solve this food problem for our own people and for the Allies in this way. To have done so will have been a greater service than our immediate objective, for we have demonstrated the righteousness of our faith and our ability to defend ourselves without being Prussianized."

Sending to Europe 141,000,000 bushels of wheat from a surplus of apparently nothing was the outstanding exploit of the American food army in the critical year of the war.

GREATEST OPPORTUNITY WOMEN EVER HAD.

It was given to the women of this country to perform the greatest service in the winning of the war vouchsafed to any woman in the history of the wars of the world—to feed the warriors and the war sufferers. By the arts of peace, the practice of simple, homely virtues the womanhood of a whole nation served humanity in its profoundest struggle for peace and freedom.

FIRST CALL TO FOOD ARMY.

This co-operation and service I ask of all in full confidence that America will render more for flag and freedom than king ridden people surrender at compulsion.—Herbert Hoover, August 10, 1917.

A year ago voluntary food control was a daring adventure in democracy; during the year an established proof of democratic efficiency.

Women!

Here is a message to suffering women, from Mrs. W. T. Price, of Pueblo, Ky.: "I suffered with painful... with a weakness in my back and limbs. I felt helpless and discouraged... I had about given up hopes of ever being well again, when a friend insisted I

Take CARDUI The Woman's Tonic

I began Cardui. In a short while I saw a marked difference... I grew stronger right along, and it cured me. I am stouter than I have been in years. If you suffer, you can appreciate what it means to be strong and well. Thousands of women give Cardui the credit for their good health. It should help you. Try Cardui. At all druggists. E-73
