CLEMSON COLLEGE ITEMS.

The athletic triangle was not completed on last Saturday on account of the rain. There was only one set played in the tennis tournament. Clemson won that set. On account of rain the tournament was called off. The track meet with Georgia was the only game that was played to a finish. Clemson defeated University of Georgia by a score of 77 to 45. John Pepper and George Bryan, both from Clemson, won the pole vault. John is an old Easley student. The base ball game was called off on account of the rain.

The Senior-Block "C" dance was held on last Friday evening. The hall was adorned with the most beautiful flowers in South Carolina. The couples and the queens enjoyed themselves from nine o'clock until the strain of "Home Sweet Home" ended the dance at two o'clock.

The Virginia Sextette rendered an excellent musical program. The number was a mixed program of songs and music.

Cadet Walker, Jones and Ellison enjoyed a very delightful week-end visit with relatives and friends in Easley last week-end.
New Williams was in Easley Monday on business.

TELEPHONE RATES BRING ON FIGHT.

Call Goes Out for State-Wide MEETING.

WIGGINS DIRECTING.

Big Meeting Will be Held in Columbia One Week From Next Tuesday.

Florence, April 16.—A call to every town and city in South Carolina that is served by the Southern Bell Telephone & Telegraph Co., to hold conference in Columbia Tuesday, April 26, was issued today by the state committee which was organized in a meeting last week in Columbia with the railroad commission. The meeting has been set for 10 o'clock in the morning at the Jefferson hotel.

Members of the state committee met today in Hartsville, every one being present. The situation was complicated from practically every angle. The railroad commission will be asked to reopen the case and practically every phase of the service will be considered. A. J. M. Wiggins, chairman, stated after the meeting, setting out best of apprehension that there will not be a stiff fight over the increased rates on telephones in this state. This will cover abrogation of contracts between the company and cities, cutting out inter-city service, and the general increase in rates.

Notice of the state-wide meeting in Columbia for April 26 is being sent to every village, hamlet, town, or city, where the Southern Bell has a station, with urgent request that it elect a delegate to the meeting. Delegates will be limited to two members for the purpose of convenience and effective work.

The Object Sought.

The present state committee will recommend to the general meeting the creation of a central organization which will be instructed to undertake two important pieces of work; first, reopening and contesting the telephone rate decision; second, organizing a South Carolina association of telephone subscribers. The central organization will be empowered virtually to handle all matters pertaining to setting aside the telephone rate decisions. One of the chief purposes of the subscribers association is to centralize in one executive body authority and power to order out 20,000 to 25,000 telephones if resort to this method becomes necessary to handle the Southern Bell company and its officials.

Between now and the date of the Columbia conference the committee will draft in detail definite objectives and ways and means to effectively present them to the conferees. This will include retention of export commercial telephone engineers, who will be competent to survey the situation in the state, procure the necessary evidence to combat the company and compile it in effective shape, first class accountants who are able to analyze the books of the company and detect manipulation of figures should there be any, and the best possible procurable legal counsel to present the case before the railroad commission in behalf of the public.

"We are going into this fight on a soundly organized basis," said Mr. Wiggins. "Success hangs only on the arousing of every place with Southern Bell service, and getting the individual support of that town or city."
