PICKENS, S. C.

PUBLISHED EVERY THURSDAY.

\$1.50 a Year Invariably in Advance.

Entered at Pickens, S. C. Postoffice as Second Class Mail Matter.

GARY HIOTT, Editor and Mgr.

We make our most beautiful bow and doff our chapeau in our most courteous and Chesterfieldian manner to the Pickens county correspondent of the Greenville News. We wish to say, however, that at the present writing we are of the opinion that it will be quite some time before we put out another snake story.

Evidently some of our subscribers have been saying good words to their neighbors about The Sentinel. Since October 1 we have added fifteen new names to our subscription list without personal solicitation. It is very pleasant to know that our friends can speak a good word for us with a clear conscience.

The time of The Sentinel's special subscription offer is nearly half gone and results have been very satisfactory to us. We have advertised the offer so that all may have the same opportunity to take advantage of it. If you want to take advantage of the special offer, do it this month. Don't wait until after the offer expires and then expect to get the advantage of it. The Sentinel will be put back on the cash-in-advance system before this year is out, and we hope all our present subscribers will remain with us.

BACK'S UP SENTINEL'S SNAKE STORY

The Pickens county correspondent of the Greenville News has contributed the following to the horn snake controversy:

Pickens, Oct. 4.—(Special).—Warrior McJunkin, a farmer in the upper section of the county, last week killed a large snake. The snake is thought to be one of the much-discussed horned variety. The horn on the tip of the tail measured a little more than one inch and looked like ivory. The reptile measured a little more than three feet.

Pickens county folk took a pardonable satisfaction in the proof of the story of the horned snake, as told by Gary Hiott in the Pickens Sentinel some few weeks ago. Pickens county folk have lots of confidence in the old gentleman Hiott and in all of his sons, particularly in Gary, the county editor. It is hoped that hereafter newspaperdom will sit up and take notice when he puts out another snake story, for who would have the audacity to doubt his veracity or insinuate or promulgate that he would prevaricate?

A POUNDING

The married ladies class of the Union church at Catechee gave the Methodist pastor and his wife a "pounding" last Monday night. The pounding was held at Mrs. Gariand Leopard's, next door to the parsonage. The pastor's wife happened to be there just before the ladies came in, each one bringing a package and laying it on the dining table. Of course she wondered what they were up to, thinking it was for an unfortunate brother who had lost his home and furniture a few days before; but she was too occupied with a colicky baby to pay much attention to them, so let it pass as none of her business until Mrs. Leopard enlightened her. Then they sent to call the pastor, Rev. Jackson, but came back with the report that he was not at home. But at his wife's suggestion they returned and found him ill in bed, and she had to hurry home without thanking those kind friends for their loving thoughtfulness. And it is for this purpose that I now write these few lines, because I want you all, dear friends, to know that out of the love and gratitude of my heart that night I sent up an earnest prayer to God to bless each heart for their kindness to me, and being unable to thank each one personally I take this means of letting them know that their kindness is greatly appreciated. In all my life wherever I have been I have never found better neighbors than at Catechee. These women believe in practical christianity and follow the Master's example who "went about doing good." This is by no means the first instance of their kindness. We have received many benefits from them in the past and I know the Lord will bless them for their kindness, for verily, "It is more blessed to give than to receive."

Rev. A. F. Jackson and Wife, Oct. 3, 1921.

Sow Wheat this Fall and Prepare for the Boll Weevil

This pest is almost certain to do a great amount of damage in this county next year. We will sell the best seed wheat for this climate to farmers at cost, which will be about two dollars per bushel. Give us or T. A. Bowen your order.

Below you will find what we consider appropriate words concerning the South of today, written by the well known Southerner, Henry W. Grady:

THE FULLNESS OF OUR DAY

"When every farmer in the South shall eat bread from his own fields and meat from his own pastures and disturbed by no creditor, and enslaved by no debt, shall sit amid his teeming gardens, and orchards, and vineyards, and dairies, and barnyards, pitching his crops to his own wisdom and growing them in independence, making cotton his clean surplus, and selling it in his own time, and in his chosen market, and not at a master's bidding—getting his pay in cash and not in a receipted mortgage that discharges his debt, but does not restore his freedom—then shall be breaking the fullness of our day."
