

New Paris Modes

Dressmakers of France Concentrating on Novelties.

All Eyes Are Centered on Apparel for the Important Events Where Fashion Reigns.

Paris dressmakers for some time past have concentrated all their efforts on novelties for the season at Deauville, known to be the most chic resort in Europe, writes a Paris correspondent in the New York Tribune. Not one of them but is thinking of beautiful dresses for the seashore, smart restaurant gowns, startling toilettes for the races and casino dances, which will make the wearers a cynosure of all eyes. For all their beauty and novelty there is a refinement about these summer toilettes which cannot fail to win approval among women of taste. They are not so simple as last year's little black dresses, but they are discreetly ornate.

Callot is making many beautiful embroidered dresses. The intricate, interesting patterns of embroidery are done on a background of white satin. These highly ornate robes are built on the simplest possible lines.

The all-white dress is almost without rival as a summer dependence. Women do not hesitate to have from six to a dozen all-white dresses. An exquisite model in white satin shows lovely embroideries in crystal beads and silver thread. As an afternoon casino toilette this is worn with a little cloche of white horsehair braid draped with an ornamental masque veil.

With their simple cotton and crepe georgette dresses young women with a love for the picturesque are using

flower girdles and flower toques. One of Judith Barbler's latest sets of this kind consists of a plaited straw girdle, on which are mounted big red poppies, and a toque made of an open straw braid with a band of poppies.

HATS FOR MIDSUMMER WEAR

Contrast is the Watchword in Millinery That Makes Charming Frames for Pretty Faces.

For the moment, the hats of midsummer are making charming frames for charming faces, and they must give to a summer fete the birdseye view of a great flower garden of moving blossoms, with a play of delicate

color such as some giant kaleidoscope might give. It is the more delicate, flower-like shades which are chosen for these picturesque hats, the mauves, the roses, the eucalypt and fuchsia tones, the clear bright yellows, with almond green, pale beige and biscuit tints, or dainty gray, with plenty of white and here and there a note of black for contrast. There is even an occasional note of clear light blue, always a dangerous color for anyone over sixteen and even now, more often seen in the milliners' salons than on the heads of their clients. The whole range of golden browns is also seen, for these shades are irresistibly becoming.

In great vogue is the light hat made of horsehair, with the transparent brim which is so fragile that the trimming which is placed upon it can be plainly seen through it from the underside. This effect is particularly charming when the sunlight filters through.

JEWELRY STILL HAS CALL

Bracelets, Bangles, Earrings, Beaded Belts, Among Decorations Women Must Have.

Jewelry still is extensively worn, both during the day and with evening attire. Jeweled bracelets in color and in black-and-white effects are very fashionable, and are worn, six or more at a time.

Wide, jeweled bangles, half to three-quarters inch in width, again are in vogue, and heavy carved gold bangles, copies of the empire and the ancient Roman period, are shown.

Earrings in long pendant effects, of jewels, jet and cut steel, are fashionable, says Dry Goods Economist. Those in cut steel are frequently worn with steel-headed leather belts and purses to match.

Home spun and Silk.

Home spun dresses, notably white with brightly embroidered sleeves, are worn as well as white and colored striped summer silks.

THE CORSET IS BACK IN FAVOR

Adjunct to Milady's Wardrobe Returns After Several Years of Doubt and Hesitation.

It requires a careful analysis this season to reconcile several apparently diverse fashion tendencies in Paris, asserts a New York fashion authority. Athletes have become a routine part of the French woman's program. Much of this is due to the pure love of sports but when we reflect that those unable to compete in athletics nevertheless do physical exercises at home, we must seek a deeper reason.

Contrasted with the vogue for athletes, which makes for a complete freedom of motion, there has come a gradual but certain return of the corset. After several years of wavering hesitation, the balance has swung completely in its favor. It would be opening a time-worn subject to detail the many arguments in its favor, but not even its most enthusiastic adherent can claim that the corset is anything but superfluous as an athletic adjunct.

It is apparent that the new corsets tend to give an insinuating slenderness to a figure clothed even in the

most bouffant dress. It is equally clear that that exercise, be it competitive, as in tennis or golf, or merely healthful, as when done at home, also tends to the acquisition and retention of the slim-line silhouette. So East meets West, and the apparent caprices of fashion are merely surface mirages of an underlying consistency.

CIRCULAR SKIRTS FOR FALL

New Feature for Later Apparel Now Attracting Attention—Straight Silhouette Holds.

The circular skirt is unquestionably destined to make a strong bid for favor for fall and winter, appearing in both day and evening frocks. The circular skirt is the most noticeable new feature of fall apparel so far displayed, the general trend otherwise being in close keeping with styles featured and approved during the last several seasons. The straight silhouette continues to be the dominant one, regardless of the circular skirt vogue, and the straight silhouette is emphasized by the greatly increased skirt length.

Buttons Are Liked.

Buttons are again gaining favor as dress trimmings. Ball buttons are used on crepe de chine, and tiny gilt and fabric ones are used on heavier materials.

Designs in Cotton.

Cotton dresses have metrical or conventional floral designs.

LESSON FOR OCTOBER 1

BIRTH OF JOHN THE BAPTIST

LESSON TEXT—Luke 1:5-23, 57-63. GOLDEN TEXT—He shall be great in the sight of the Lord, and he shall drink no wine nor strong drink.—Luke 1:15. REFERENCE MATERIAL—Isa. 49:3-5; Mal. 4:1-6.

PRIMARY TOPIC—An Angel Brings Good News. JUNIOR TOPIC—The Birth of John the Baptist.

INTERMEDIATE AND SENIOR TOPIC—Preparation for the Coming of Christ. YOUNG PEOPLE AND ADULT TOPIC—The Place and Work of John the Baptist.

We are today entering upon a six months' course of study in the Gospel of Luke, whose general subject is "Jesus the World's Savior." Today's lesson concerns the birth of John the Baptist, the forerunner of Christ.

1. The Parents of John the Baptist (vv. 5-7).
1. When They Lived (v. 5). "In the days of Herod the King." They lived in a day when ungodliness was rife. The priesthood was very corrupt and the ruling classes were wicked. Zacharias and his wife lived in a time when it was not so easy to be godly.
2. Their Character (v. 6). They were righteous before God. To be righteous before God is a high tribute. Many appear to be righteous before men who are not righteous before God. Their lives were so marred that they walked in the commandments of the Lord blameless. How beautiful it is when husband and wife are united in the Lord and walk together in fellowship with God.

3. They Were Childless (v. 7). Though this godly couple were well mated and they possessed the joy of the Lord in their souls, there was a real lack in that home.

11. The Birth of John Promised (vv. 8-17).
1. By Whom (v. 11; cf. v. 19). The angel Gabriel appeared and made known the good news to Zacharias. This exalted being, the special messenger of God, was sent to make this disclosure.

2. When (vv. 8-14). While officiating as priest this good news came to him. Zacharias must have been definitely praying about this very matter (v. 13). As he burned incense, which typified prayer, the multitude without were praying.

3. Characteristics of the Child (vv. 15-17). (1) Shall be great in the sight of the Lord (v. 15). Though the people did not greatly esteem him he was highly esteemed by the Lord. This is infinitely better than if he had been greatly esteemed in the eyes of men or in his own eyes. This is the esteem for which we all should long and pray.
(2) Shall drink neither wine nor strong drink (v. 15). The child shall become a Nazarite, separating himself from the sensual things and dedicating himself to the service of the Lord. (3) Be filled with the Holy Spirit (v. 15). The energy of the divine Spirit would enable him to lead the people to repentance (v. 16).
(4) Shall go in the spirit and power of Elijah (v. 17). In this power he was to prepare the people for the coming of the Savior and the salvation which He was to bring.

III. Zacharias Asking for a Sign (vv. 18-23).

Although the aged priest was earnestly praying for the salvation of Israel the gracious promise of the angel, which was the beginning of that salvation, staggered his faith. He was unable to believe that for which he fondly hoped and prayed would be realized. The angel gave Zacharias a sign. He was smitten with dumbness which was to continue until the fulfillment of the promise. Because he refused to praise God in faith for this gracious promise God caused his tongue to be silent until the promise was fulfilled and his lips could open in thanksgiving and praise. Though he was thus rebuked, at the same time his faith was strengthened by the manifestation of the supernatural. God wants us to trust Him, to believe his promises, no matter how contrary to reason they may seem.

IV. The Promise Fulfilled (vv. 57-63).

When the time came for the birth of John, Elizabeth brought forth a son and the neighbors rejoiced with her. On the eighth day they circumcized the child and gave him a name according to the instruction of the angel (v. 13). The name John was contrary to the family custom. By means of writing Zacharias made known the name which he would have by divine instruction. At this time God opened the mouth of Zacharias and he offered up praise.

Youth and Age.

Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

Children Cry For

Are You Prepared?

A doctor in the house all the time would be a good idea. Yet you can't afford to keep a doctor in the family to keep baby well or prevent sickness. But you can do almost the same thing by having at hand a bottle of Fletcher's Castoria, because it is a wonderful remedy for indigestion, colic, feverishness, fretfulness and all the other disorders that result from common ailments that babies have.

Fletcher's Castoria is perfectly safe to use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Children cry for Fletcher's Castoria, and mothers recommend it because they have found it a comfort to children and a mother's friend.

If you love your baby, you know how sweet it is to be able to help baby when trouble comes. You cannot always call upon a doctor. But doctors have nothing but good to say of Fletcher's Castoria, because they know that it can only do good—that it can't do any harm—and they wouldn't want you to use for baby a remedy that you would use for yourself.

REALLY VERY LITTLE CHANGE

Passing Years Merely Create Slight Riffle on the Outer Skin of Earth's Surface.

Long ago, in the Little Church Around the Corner, a minister did all the talking, the deacons did the planning and the work, the men with the collection plates gathered up the pennies, and the choir headed the war department.

The world turned around and around, the city moved a few blocks, and times changed.

A motion-picture place bought the church property. The stars were of the same type as the minister, the producers took care of the business end, the window cashiers gathered in the pennies, and the authors of the plays objected to the changes made in their manuscripts.

The city kept moving away, prices soared and times changed even more. Now, a garage is on the site. The landlord gets more press notices than any star, and he gets them free; the manager takes care of the details, the mechanics take in the small change, and the customers conduct a silent and invisible war on the prices charged.

So the scenery is merely changed, and the same types are doing just about the same things.—Katherine Negley, in Judge.

Why the Umbrellas?

A rather amusing sight was that at York beach one rainy day recently, when a party of bathers all ready for the morning dip came from their cottages on their way to the beach all carrying open umbrellas. Vacationists, witnessing the procession of bathers approaching the water all set for the plunge, wondered at the theory of carrying "bumbershoots" to protect themselves from the rain when they would shortly be drenched while taking their morning bath.—New York Sun.

Melodious Irony.

"Why did the tears come into your eyes when the band played 'Hail, the Gang's All Here?'"

"In view of the factional fights we've been having," replied Senator Sorghum, "the tune sounded downright ironical."

Parasols Used as Pets.

Among the latest fashion novelties for women are parasol handles specially carved in wood and then enameled in the shapes of portraits of pet dogs and birds.

Height of Meteors.

During the display of the Perseid meteors one August in France simultaneous observations were made in that country from points about six miles apart. From the parallaxes thus obtained the elevation of several conspicuous meteors above the earth was calculated. The height at the beginning of the flight varied from 66 to 175 miles, and at the end from 22 to 41 miles. The longest distance traversed in the atmosphere was about 152 miles, and the shortest 35 miles.

He Knew.

"Ah!" rhapsodically asked the presiding elder, "who really knows what a little boy like this one is thinking?" "I do," replied Gap Johnson of Rumpus Lodge. "And after you're gone I'm going to lick the thunder out of him for it."—Kansas City Star.
