

MOTHER!

Clean Child's Bowels with
"California Fig Syrup"

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

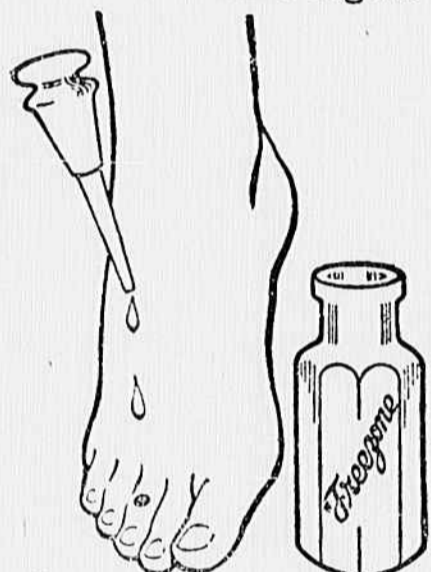

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup," which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.—Advertisement.

Surely Something Doing.

Mary Catherine takes a great interest in all our neighbors. Recently a newly married couple moved into a bungalow near us, and a few days later Mary Catherine came running into the house and said: "Oh mother, the Johnsons are either going to have chickens or children. Mr. Johnson is building a fence all around their new house."—Exchange.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an itching corn, instantly it stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Surely the man who deceives himself is an easy mark for other deceivers.

One trunk lasts a man a lifetime; and, at that, it never goes anywhere with him.

"Don't Take the Chance" Say People Who Know

Coughs and Colds Often Lead to Real Sickness—Bear's Emulsion Will Stop Them Quickly.

A slight cold—a cough that is merely uncomfortable—then a lingering, hacking cough followed by a weakening of the system—then some dread disease. That is the story of the neglected cold. The safe thing to do is to take Bear's Emulsion at once and end the chances of serious results.

Bear's Emulsion is an effective remedy that has been found of the greatest aid in relieving bronchitis, grippe, influenza and in breaking up the most stubborn coughs and colds. It has been found to give relief when other medicines fail. It is pleasant to take and will tone up the entire system. People who suffer from loss of appetite and weakness find it the best sort of tonic for building up the body and helping them to take on weight and strength.

Why take the risk of becoming seriously ill when you can get this remedy at your drug store? If your druggist cannot supply you, a bottle will be sent direct on receipt of \$1.25.

FURTHER APPEAL BY IRA HARRIS

ATTORNEY GIVES NOTICE OF APPEAL TO UNITED STATES SUPREME COURT.

ORDER BY JUSTICE COTHRAN

Remittur Stayed Upon the Petition of Attorney Evans; Will Seek Writ of Error.

Columbia.

Ira Harrison, one of the convicted murderers of John C. Arnette and whose appeal for a new trial to the supreme court was dismissed November 2, will appeal to the United States supreme court in an effort to prevent the carrying out of the death sentence imposed upon him in the general sessions court here last May, according to papers filed with Harry McCaw, clerk of the South Carolina supreme court, by B. B. Evans, attorney for Harrison.

Mr. Evans filed an order signed by Justice Cottrah of the supreme court staying the remittur in the case until further orders of the court. This order automatically prevents the re-sending of Harrison as the opinion refusing a new trial cannot be sent to Clerk of Court Hinant until the order is revoked. No time limit is set in the order, but it will be of sufficient duration to allow Mr. Evans to complete his application for a writ of error to the United States supreme court.

Mr. Evans did not disclose on what grounds he would carry the case to the highest tribunal, merely setting forth that he would apply for a writ of error to appeal upon. Justice Cottrah thought the petition meritorious enough to grant the stay order. It is not known whether or not Chief Justice Gary will grant the writ of error, but it was indicated that in most cases the writ was granted as a matter of course procedure. In case the writ is granted several months will elapse before the appeal will ever reach the United States court.

Harrison continues in his seeming stupor at the penitentiary although it was said by prison officials that he appeared to be "some better." He did not talk and was again fed as if he were a baby. Muscles of his body responded readily to human touches, it was said, but he remained speechless throughout the day. He has been in this alleged stupor since he learned that his appeal to the supreme court had been dismissed.

Frank M. Jeffords, the second of the convicted murderers, has not as yet filed any papers indicating further appeal, although some action is expected.

American Legion Names Committees.
The various county committees, who are to supervise the statewide celebration of "National Education Week," were practically completed with the naming of the majority of the American Legion representatives.

Each county committee, charged with making all arrangements for the observation of "Educational Week" in the county, comprises a chairman, selected by the organization committee of the educational conference, a representative of the American Legion, a representative of the women's clubs, the county superintendent of education and the superintendent of the city schools in the county seat. The personnel of the various county committees, minus the legion representatives, was announced.

There are as yet few vacancies in the list of legion representatives, but these will be filled in the next few days. "National Education Week" is being observed throughout the county under the joint auspices of the American Legion and the American Educational association and the South Carolina department is therefore giving its whole-hearted support to the Citizens' Educational Association of South Carolina in its endeavor to secure the general observance of "Education Week" in South Carolina.

Governors to Meet.

Governor Harvey was advised by M. C. Riley, secretary of the governors' conference, that the annual conference would be held this year at White Sulphur Springs, W. Va., December 14-16, inclusive. The dates and place were announced by the executive committee.

The governor and Mrs. Harvey will attend the conference and the chief executive will read a paper. He was asked to prepare a paper on any subject and will likely use law and order as his theme.

New Charters Issued.

The Holley Realty company of Columbia was chartered by the secretary of state with a capital stock of \$15,000.

The Columbia Children's Clinic association, an eleemosynary institution, was chartered. Officers are, Mrs. R. Beverly Sloan, president; Walter P. Going, vice-president; Mrs. Jean Swygert, secretary.

J. W. Tompkins & Co., of Columbia, a wholesale mercantile business, was chartered with a capital stock of \$50,000.

Two Carolinas Agree on Debate.

For the first time in the history of the two institutions, the University of South Carolina will meet the University of North Carolina in an inter-collegiate debate some time early in January. The query agreed upon by the debating council of the respective schools is: "Resolved, That the allied nations release each other from indebtedness incurred for the purpose of carrying on the World War." The University of South Carolina will uphold the affirmative side of the question, while North Carolina has chosen to defend the negative.

According to R. R. Williams, student, secretary of the debating council of the University of South Carolina, a two-year agreement has been entered into between the institutions. North Carolina will send her debaters to Columbia this year, and next year the debate will be held in Chapel Hill, N. C. Each team will consist of three speakers. Secretary Williams also pronounced that the preliminaries for the debate for the University of South Carolina would be held the later part of December.

It is indeed interesting to note that this is the first time that these two state institutions have ever met in an intercollegiate debate. Both have had strong and successful teams in the past, and the debate in January promises to be an interesting one.

Sale of Licenses Brings in Money.

Total fees collected by the state highway department from the sale of motor vehicle licenses to date, including figures for October, have reached \$731,378.01, according to a tabulation made by L. H. Thomas, secretary of the highway commission. Of this total \$585,102.41 has accrued to the counties under the 80 per cent clause, Mr. Thomas announced.

So far \$6,861 automobiles have been registered as compared with \$3,349 for the full year of 1921. The number of trucks registered is 7,472 as compared with 7,179 for 1921.

Twenty-nine counties have registered more automobiles for the 10 months of this year than for the entire year of 1921. Greenville county leads the state with 7,691 automobiles and Spartanburg is second with 6,500, while Richland is third with 6,340.

Greenville county has also received the largest return with \$54,287.72 and Richland comes second with \$48,425.76. Spartanburg is third with \$43,921.21.

Applications to Aid Auto Owners.

More than 100,000 applications for motor vehicle licenses are being prepared by the state highway department to be mailed about the first of next month to every owner of an automobile, truck, trailer, motorcycle or dealer in South Carolina. These applications will contain all the necessary information for a 1923 license, they having been made up from the records of the office, and all an owner will have to do is place the proper amount of money, check or money order in an envelope and return it to the highway department.

This plan was followed last year, and although requiring a lot of extra work, proved to be so popular that it is being followed again this year. Motor vehicle owners were pleased with the plan last year and it is believed they will appreciate the efforts of the department again this year.

The 1923 plates are expected to be on hand by December 1 and the department will begin filling applications about the middle of the month.

Governor to be Guest of Honor.

Richland county alumni of Wofford college, at a meeting held recently at the Jefferson hotel, decided to give a dinner in honor of Governor Thomas G. McLeod the night after his inauguration and to invite to it every alumnus and former student of the institution in the state. Mr. McLeod is himself an alumnus of Wofford and his son, Thomas G. McLeod, Jr., is a member of the freshman class of the institution now. It is the plan of the local chapter of the alumni association to make the affair in January one of the largest of its kind ever held.

Co-operative Body Grows.

The continued onward sweep of co-operative marketing in the state is indicated, officials of the South Carolina Cotton Growers' Co-operative association assert, by the number of new contracts coming in daily. Over 100 new contracts have been received in the past week and the number of new members is being swelled every day.

There is no membership campaign on at the present time and practically all of the contracts that are coming in are voluntary and officials say are the result of the satisfaction felt by the members with the manner in which the association is functioning. Credit is being given the association generally for the strength of the cotton market and the present prices of cotton.

One of the largest contracts to come in during the past week was from J. P. Williams, of McConnellsville, York county.

Two Lieutenants May Be Promoted.

Lieuts. Edward P. Hodges and John B. Stevenson, of the coast artillery reserve, have been requested to appear for their promotion examination in the officers' reserve corps of the United States army. Lieutenant Hodges is well known as arising young lawyer of Columbia. He is connected with the firm of Nettles & Tobias. Lieutenant Stevenson is a member of the Penny-Mann Electrical company. Several promotions and appointments have been made in the past few weeks.

WEEKLY REVIEW SHOWS ACTIVITY

THE PRICE OF FARM PRODUCTS INDICATE CONSIDERABLE FIRMNESS.

WHEAT OFFERINGS ARE LIGHT

Cotton Market Continues to Fluctuate in Neighborhood of Twenty-six Cents Per Pound.

New York.—Continuation of a high rate of industrial activity and satisfactory progress of fall trade are indicated by the business of the past week. Steel production, if anything, improved and is now stated to be between 75 and 80 per cent of the country's capacity. Cotton consumption returns show that the textile mills used 534,000 bales in October, this figure being 39,000 larger than for September and setting a new high record for any month since June, 1920. Soft coal production has continued at a rate of about 10,700,000 a week, or at about the best attained since the end of the strike.

Perhaps the first sign of a seasonal slackening, which must be expected, is furnished in the statistics of car loadings. Total loadings for the week ended November amounted to 944,000 cars, which is some 20,000 cars below the total for the week before, which was the largest for the year. Such a decline is quite the natural thing, the peak of the traffic movement generally being reached in October and having come this year, in fact, slightly later than is usually the case.

Prices of farm products meanwhile have shown a considerable degree of firmness. December wheat rallied to slightly above \$1.20 which reports again of over 20 cents from the recent low. A strong recovery of the foreign exchange market after pronounced weakness in the early week probably was a factor, as were reports of large German needs for commodity. At the same time offerings of wheat have been light and sentiment in the trade has distinctly become more bullish. Corn also moved into high ground for the year. The December future getting above 72 cents as compared with a price of 52 cents in August. This improvement, even more than that in wheat emphasized the gain which has been achieved in the farmer's income.

In cotton the market has continued to fluctuate in the neighborhood of 25 and 26 cents despite heavy profit-taking. Opinion continues to differ as to the ultimate size of the crop, but something nearer ten million than nine million bales was talked of during the past week. In any event it is clear that the crop is proving a much greater financial success than the South anticipated and that business prospects in that district are correspondingly improved.

Senator Newberry Submits Resignation

Washington.—Senator Truman H. Newberry, of Michigan, whose right place in the senate has been a subject of long and bitter controversy, has submitted his resignation with a request that it become effective immediately.

In a letter to Governor Groesbeck, recently made public, Mr. Newberry said he had been impelled to retire voluntarily because of the defeat of his republican colleague, Senator Townsend, in the election of November 7. The turn of events, he said, would make it "futile" for him to attempt to continue his public service since he continually would be "hampered by partisan political persecution."

Reviewing the outstanding features of the controversy which grew out of his election four years ago over Henry Ford, his democratic opponent, he declared his right to a seat in the senate had been "fully confirmed." He added that if, in the future, there seemed to be opportunities for public service, he would not hesitate to offer himself to his state and country.

The resignation brings to an end a fight which already has made political history and which it appears would be resumed early in the session of congress, now beginning. Convicted in Michigan of a conspiracy to violate the election laws, Senator Newberry appealed to the supreme court, which declared unconstitutional the statute under which he was accused. The senate itself, after a long investigation, finally confirmed his title to a seat by a margin of five votes. In the campaign just closed, the case was an issue in many states.

A copy of the letter of resignation sent to Governor Groesbeck was delivered to Vice-President Coolidge by Walter R. Dorsey, Mr. Newberry's secretary.

Receives Coal Mining Machine.

Southern Pines, N. C.—The Carolina Coal company has received at their mines at Coal Glen on the Deep river the first coal mining machine to be brought to North Carolina. It is a Goodman shortwall, of the most modern type, electrically driven, capable of cutting down three or four carloads of coal a day. A big 11-ton hoisting engine has been added to the lifting outfit, and an additional rotary, electric-driven pump for underground work.

Help You Run the Ball

—bring home the bacon, collar the blue vase, carry the message to Garcia, etc.

LITTLE Raisins, full of energy and iron, will put the pep into you that makes winning plays. Use vim like it in your business, too.

One hundred and forty-five calories of energizing nutriment in every little five-cent red box that you see.

Comes from fruit sugar in practically predigested form—levulose, the scientists call it—so it goes to work almost immediately. Rich in food-iron also.

Try these little raisins when you're hungry, lazy, tired or faint. See how they pick you up and set you on your toes.

Had Your Iron Today?

Few Women Inventors.
Only 297 of the 35,132 inventors who last year applied to the patent office for protection are women. The year before the proportion was much the same. Officials do not remember a single instance of a striking invention by a woman.

Baby Relieved of Cold While Mother Sleeps

"When my babies have a cold I just give them Teethina at bed time and they are bright and playful next morning. Teethina relieves their cold while we all sleep," declares Mrs. Ira W. Redfearn, of Mt. Pleasant, Texas. Babies' colds are generally easily broken up if Teethina is given at the first sign of trouble. Let the cold run on and you are apt to have a mighty sick baby.

Teethina is perfectly harmless. It is the prescription of an able physician and has been universally used for fifty years. Teethina is for babies and little children to clean out their bowels and make them well and happy. It contains no narcotics whatsoever.

All good druggists keep it, or send 30c to Dr. Moffett Laboratories, Columbus, Ga., and get a package of Teethina and the valuable Baby booklet.—Advertisement.

Changed Victims.
"You're writing poetry, doctor?"
"Yes; to kill time."
"Haven't you any patients any more?"

SHE DYED A SWEATER, SKIRT AND CHILD'S COAT WITH "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—Advertisement.

Prudent Pause.
"When you paused before the beginning of your speech, were you trying to think of something to say?"
"No," answered Senator Sorghum. "I was recalling the subjects that I must be careful not to mention."

Cuticura Soothes Baby Rashes.
That Itch and burn, by hot baths of Cuticura Soap followed by gentle anointments of Cuticura Ointment. Nothing better, purer, sweeter, especially if a little of the fragrant Cuticura Talcum is dusted on at the finish. 25c each.—Advertisement.

The easiest way to get away from yourself is to have a good laugh with your friends.

His Familiarity.
"A father should, as far as possible, associate and mingle with his children," solemnly said the prosiding elder. "Make himself one of them, as it were, and—"
"I shore do that, parson," replied Gap Johnson of Rumpus Ridge. "Why, I'm so familiar with the little cusses that generally I can tell the names of the most of 'em right off the handle, without asking their maw."—Kansas City Star.

She Wants to Know.
"Do you know that man's wife so well?"
"Never met her."
"Then why do you always say to him, 'Glow's Teks?'"
