

ANOTHER STATEMENT

My hat is off and I make my best bow to Mr. Gary Hott for his very flattering compliments to me in the last issue of the Pickens Sentinel, also for the consolation that so many of the Pickens people are to be in Heaven. I wonder though, if Gary is going to Greenville because he has lost his hope of heaven.

If Mr. Hott's statement last week as his "Valedictory," I suppose this will have to be in keeping with his remarks. Hence my "Salutatory."

I am glad for this opportunity to be in position to serve the people of my county in another capacity. It will be my constant aim to give the readers of the Pickens Sentinel one of the best papers they have ever read. I will strive to keep before them the news of the county in an interesting and exact way. It will be my policy to promote the best interests of our County along the lines of education, economy and morality. I realize that the better the education our people have, the more economy that is used, and the higher the plane of our morals, the better able we will be to grasp the problems that daily confront us, resulting in a broader and higher plane of civilization.

To be able to give the readers of this paper my very best calls for work on their part, as well as mine. It is imperative that I have the whole hearted support of every reader of the paper, and the feeling on their part that this is "Our" paper, and not F. V. Clayton's. With this kind of support and co-operation, the success of the paper will be assured.

I will appreciate not only your interest in the paper from the standpoint of good reading matter, but your business, such as job work of all kinds will be appreciated. Quality of work, and efficient service, will be our slogan. Reasonable charges will be made which will be in keeping with the best publishing companies of the State. I will strive constantly to give you quick and up-to-date service.

Let me again express my pleasure of being in this position to serve you, and ask that you co-operate with me in striving to make our County better (if possible) in which to live.

F. V. CLAYTON.

The person I consider thoughtful as well as thankful, is the high school boy who responded to roll call the day before Thanksgiving with the remark that he was thankful that William Shakespeare died when he did.

The U. S. Government last week sold ships built during the war at cost of \$300,000,000 for \$750,000. If Henry Ford had wanted to buy them, the Government would have wanted him to pay at least \$450,000,000.

BALDHEAD PHILOSOPHY

If The Sentinel has a subscriber who thinks this paper is not worth \$1.50 a year, or that he cannot afford to pay that price with cotton selling at 23c a pound, let him come in, pay up and let us take his name from the list. If there is such a person he doesn't need a newspaper.

WHAT DOES WINTER SUGGEST

A fellow doesn't wear an overcoat in August. As breezy days becomes cold days, an overcoat is the most important thing on the calendar.

Which is one of the reasons why Griffon Overcoats are styled with such absolute attention to detail.

Good, warm woolens are fashioned ingeniously into handsome cold-defying overcoats. You'll like the price side too. \$25.00, \$30.00, or \$35.00, is all you pay for a fine Griffon Overcoat.

Cheaper Overcoats for men at \$15.00 to \$20.00. A full stock of boys Overcoats, ages 5 year to 18 year at \$5.00 to \$16.50.

The largest stock of Boys, Young Mens, and Mens clothing in the county with prices and quality absolutely right. The high Tariff that has been placed on woolens will mean an about \$4.00 advance in a suit of cloths, and \$6.00 advance in an all wool Overcoat next year. It will not affect our present stock.

IT MIGHT PAY YOU TO BUY YOUR CLOTHING NOW.

Reduce Your Production Costs

Farming, like every other business, must cut down the overhead.

It is not a question of being able to afford a Fordson; it is a question of being able to continue farming on the old too-costly basis.

The farmer's problem is not all a sales problem; it is also a production problem. He must cut down the cost of production.

The Fordson does more work at a lower cost and in less time than the old hand methods.

Let us give you the proof. Write, phone or call today.
