Nervous hot flashes

"SOME time ago when in a very nervous, run-down condition," says Mrs. Martha F. Marlow, of Broken Bow, Okla., "I tried numerous remedies to try at least to keep going, but I could not. I was weak and tired—just no good at all. My back ached and I had hot flashes until I was so very nervous I smothered. I couldn't sleep and I was never hungry, and I kept getting weaker. I couldn't stand on my feet. This was an unusual condition for me as I had been pretty strong all along. I knew that I would have to do something, and that pretty soon."

"Some friend suggested that I take Cardui, and it certainly was a good suggestion, for after taking one bottle I could tell I was stronger and better. I didn't quit. I kept it up all through the change and did fine. I felt like a different person after I began taking Cardui."

Cardui has helped thousands of suffering women. Sold by all druggists.

Overdoing?

Hurry, Worry and Overwork Bring Heavy Strain.

MODERN life throws a heavy burden on our bodily machinery. The eliminative organs, especially the kidneys, are apt to become sluggish. Retention of excess uric acid and other poisonous waste often gives rise to a dull, languid feeling and, sometimes, toxic backaches and headaches. That the kidneys are not functioning perfectly is often shown by burning or scanty passage of secretions. More and more people are learning to assist their kidneys by the occasional use of **Doan's Pills**—a stimulant diuretic. Ask your neighbor!

Lots of our boys are "marching back" to the old job to replenish the losses they incurred by betting that the Yanks would win the world's Series from the Cardinals. Babe Ruth smashed half a dozen World's Series records thereby keeping his picture on the front page.

We're not particular about getting on the **FRONT PAGE**, but we do want to call your attention to the fact that **MILLER TIRE** popularity has smashed dozens of world's sales records. Unmatched vitality and excellency of stand up have won it innumerable followers.
