HOW MUCH IS PLANTING

SEED WORTH NEXT APRIL?

This question is not answered by too many farmers. How important is it to save good seed at gathering time? To get good seed these are the

following important points: FIRST-To have seed from cotton producing the desired length of staple, percentage of lint and

other important characteristics. SECOND-Save them pure by having the gin cleaned before gin-

THIRD—To care for the seed after ginning so that they will not heat or become damaged from water, etc.

Farmers are cautioned against cotton heating before ginning and the seed afterwards. A very good plan is to put seed nto burlap bags store these sacks apart until seed are thoroughly dry.

Be sure not to use air-tight paper lined sacks as one farmer did the faculty of the 1937-'38 term, every bag of this kind had caused

Finally farmers are urged to save PURE a generous supply of seed that will come up good when ton, county agent.

Swing Days Big Events

to Children of Koreans Korean children have many games that are different from ours but little girls in Korea enjoy Swing day best of all special things to do. Swing day comes every year and is a holiday for children, notes a writer in the Washington Star.

Swing day originated from a Korean legend that has been handed down from long ago generations. In the olden times there was a charming young princess who loved a prince of her own country. But her father, the emperor, married her off to a wealthier suitor from a far land who took her away to live

there with him. Her husband knew

she was homesick for her native

land, and on a high hill outside the

palace he put up a swing for her. Once a year the princess was allowed to swing there all day. She would swing as high as possible and just catch a glimpse of her native land from the air. All year she would wait for this one day to think

of her own country. Korean girls honor the memory of the Swing Princess one day a year. Swings are erected on very long ropes that will fly quite high, on the hilltops. The girls line up and take turns at swinging. Swing day is celebrated this way all over Korea and the homesick little princess is the adopted patron of all Korean girls on that day.

"Switzerland of America"

The sobriquet, "Switzerland of America," is applied to several of the states, Colorado, for one, because of its magnificent natural beauty. Maine is another state called the Switzerland of America. Its mountainous scenery and abundant snowfalls doubtless gave rise to this nickname. It is also applied to New Hampshire, New Jersey and West Virginia. It is applied to New Hampshire in recognition of that part of the state, occasioned by the Kittatinny range of mountains and by the ranges of the Watchung, Sourland and the Pickle mountains of the southeast; and to West Virginia from the picturesqueness of
