

The People.

John W. Holmes, Editor and Proprietor. LARGEST COUNTY CIRCULATION THURSDAY, JUNE 19, 1884.

Make a Clear Issue. Those Republicans who are determined to reject the nomination of Mr. Blaine...

It is very desirable that these issues which are substantially one, shall be clearly defined in the coming canvass...

They can best conquer this distrust as far as now appears, by the nomination of the man who has shown in high position and exposed to the severe pressure of his party in the state...

We fully appreciate the earnest zeal which the advocates of revenue reform feel for the presentation of that issue...

Our Nation can stand the abuses of the revenue system for a time yet, as it has sustained them in the past. But the election of a man of known uncleanliness...

Some ARCHAIC MATRIMONIAL AFFAIRS. An ancient fragment, which will be of interest to ladies, has been recently unearthed and published in France.

Common cotton flannel, cut in proper lengths, say half a yard, and a long tube catch all the mites about the cage.

The latest thing in begging in New York is known as the confederate soldier's racket. A haggard and unkempt man attired in a linen duster buttoned up to the chin will walk up to a group of gentlemen and introduce himself as a confederate colonel, shot through the lungs, and in a straggling condition.

BAMBERG, S. C., May 9, 1884. The committee from the Organ League A. F. M., to whom it was referred to draft suitable resolutions upon the death of Dr. C. I. Faust...

Whereas, It has pleased Almighty God to remove from our midst our much-loved brother C. I. Faust, therefore be it Resolved, 1st. That in the death of our brother we recognize the fact that the community has lost an eminent and useful man, the country a zealous and faithful citizen and our order a devoted and worthy member.

2. That a page in our minutes be devoted to his memory with this inscription: "Sacred to the memory of our beloved brother, C. I. Faust. Well done thou good and faithful servant." 3. Common cotton flannel, cut in proper lengths, say half a yard, and a long tube catch all the mites about the cage. Dip the flannel in boiling water once a day to kill what it gathers. You can do the same with your setting hairs. Try it.

Wouldn't Give Him a Chance. Old Simson had been employed to work in Colonel Hatcher's garden. The Colonel noticed that the old man about the man of his time at the kitchen window, talking to the colored lady who descended to the meat office of cook.

At a wedding the bride was a young lady who had been a great flirt. When the clergyman asked the question: 'Who gives this woman away?' a young man present replied: 'I can but I won't.' An Irishman was once brought before a magistrate charged with marrying six wives. The magistrate asked him how he could be so hardened a villain. 'Please your worship,' says Paddy, 'I was trying to get a good one.'

Ex Governor D. E. Chamberlain has come out squarely against Blaine. He is sorry to do it, he says, but the nominations and the platform are an insult to every decent man. Therefore, he says: 'I will not support Blaine under any possible inducement.' On the contrary, it is the clear duty of every patriot to make the defeat of the Chicago ticket the supreme aim of all his political activity. I have no hesitation.

Fred Douglass, who recently married a white woman, was greatly elated by the selection of the negro Lynch as Temporary Chairman of the Chicago Convention. In a speech in Chicago on Tuesday night he said: 'The action of the Convention proves its greatness and did away with a prejudice of ages. The colored race was originally equal to the white race, and we are prospectively but not retroactively the equals of the white man. The white man was once lower down than the negro is to day. I hear the colored boys are marching, and I don't have to put my ear to the ground to hear them, either.'

The danger of the quinine habit has been alluded to more than once in these columns, but is growing into such a menacing evil that it deserves more than passing notice. A distinguished New York physician says that quinine is frequently resorted to by men and women whose nerves are overtaxed, and they feel so much brighter and better that before they are aware of it they get into the habit of taking the drug in daily doses. In three months the habit becomes firmly fixed, and in all probability the victim cannot then count upon more than five years of life. Morphine has no such effect. It will in two or three years transform the most truthful man or woman into an inevitable liar, but it is nearly always possible for the morphia consumer to recover. Quinine, on the other hand, so shatters the system that suicide is frequently the result. Quinine in very small doses is a tonic and nerve; in moderate doses a stimulant, and in large quantities intoxicating, producing a drunkenness similar to masked epilepsy, in which while performing customary actions and talking with perfect coherence the victim is really unconscious of what he is doing and totally irresponsible. Experienced medical practitioners are beginning to be as cautious with quinine as they are with morphine.

Our delegates to Chicago ought to be carefully selected and sent unattached. This is not a good time for the intrusion of local desires and prejudices. We want nominees who can carry New York, New Jersey, Connecticut, Indiana, California and Nevada, and should send delegates who are identified with nobody, bound to nobody and prepared to be guided by the best judges of popular feeling at the North and West. It would be well for the delegation to be composed of business men and men who have made politics a study in equal proportions so that the feelings of delegates of the corresponding classes from other sections may be fully imbibed. Andrew Simons and Edward McCarty; R. E. Bowen and R. L. McCaughrin; Johnson Huggins and George D. Tillman; Hamlin Battle and H. A. Galliard; James Irwin and General John Bratton; John S. Richardson and Wm. Elliott; W. O. Coker of Darlington and Dr. John S. Ingram of Charleston.

For Delegates at Large—Tom Hamilton of Beaufort and D. F. Bradley of Pickens. Senators Hampton and Butler are left off this list because they are prominently identified with the cause of Mr. Bayard and pledged to him so distinctly that their action in the Convention would be necessarily hampered. Almost all of our Congressmen are in the same condition and none of them would go free from the people. They have been in Washington and far from their constituencies for months.

Tom Hamilton is suggested as a delegate at large despite a vague impression we have that he is dead. We hope he isn't however, and would like to see him sent to Chicago as a specimen of a South Carolina Democrat who is as black as the ace of spades but has brains and courage enough to take care of himself anywhere. The black district ought to be represented in part, at least, by a black man—Greenville News. The Aldrich family, whose forefathers emigrated from England in the latter part of the seventeenth century, are to hold a reunion in Baratoza this summer. Among those expected to be present are Senator Aldrich, of Rhode Island; Congressman Aldrich, of Illinois; Judge Aldrich, of the Massachusetts Supreme Court; Judge Aldrich, of the Supreme Court of California; and Judge Aldrich, of Barnwell. Thomas Bayly Aldrich is expected to be in Baratoza at the time.

'What comes after?' asked a teacher of a small boy who was learning the alphabet. 'You do, sir, to see later. L young men don't ever choose a profession prefer the military to the law, because it is easier to preach than practice.
