### A Gluttonous Fagle.

Eagles frequent the forests of the higher S'erra. When the winter storms andtossed driver and a lady passenger of Darling's mail sleigh out of the road into the snow. For this she was killed, and having magnificent wings.

A Wonderful Mesmerizer. platform it was writhing and hissing florcely. Buni bent over the cage and fixed his eyes upon its occupant, gently waving his hand over the serpent's restless head. In less than a minute the snake stretched itself out, stiffened and "nigger." lay apparently dead. Buni took it up body, but it gave no sign of life. A few passes then restored it to its former angry activity. Subsequently asavage dog, held in a leash by its owner, was brought in, and, at Bunl's command, let loose upon him. As it was rushing towards him, bristling with fury, he raised his hand, and in a second the fierce brute dropped upon its belly as though stricken by lightning. It seems to, bihous companies, remained absolutely paralyzed by some unknown agency, was unable, to move a muscle until released from the mesmerisor's spell by a majestic wave of his hand.

Masma Rendered Powerless.

Missma Rendered Powerless.

The most certain way to render powerless, the missmatic vapers which pro use childs and other malarious disorder, is to fortify the system a sinet them with that matching to render for its offer result in a chronic trouble of the Threat.

Common sense and the science of themistry when applied to butter making, reduce the time of churning one-half, increase the product 20 per cent., the quality of the product 20 per cent., and general debility, likewise, rapidly yied to this regulat ve and tonic influence. They are an uncalculable blessing to the wisk and nervous of both sexes, an excellent family medicated power and stream them with him matching to the product 20 per cent., and they may be rolled to butter making, reduce the time of churning one-half, increase the product 20 per cent., the quality of the product 20 per cent., and general debility, likewise, rapidly yied to the remaining transfer.

Common sense allayed by the use of "Brouch's Bronchial Troches," which if reglected often result in a chronic trouble of the Threat.

Common sense and the science of chemistry when applied to butter making, reduce the time of churning one-half, increase the product 20 per cent., and give a rich golden color to the butse in order with many others, result from the use of Gilt-Edge Butter Maker. Sold by druggists, grocers and general ctorekeepers and thrust several needles into its

### AGRICULTURE.

Using UP OLD TIN CANS .-- Collect all

en stove, and have the cans close at hand. Have a cloth in each hand; place a can on the stove lld, and when the solder which holds the top or bottom to the body begins to melt, place as salt, letting it remain in a far twelve can on the other lid and remove the hours; take it out, squeeze it, and each first one, and with an old knife, old it fine with two onions; put it on the file, stove-lifter, or anything at hand, knock off whichever end you may have placed next the fire. In most cases it will drop off. With the cloth in the left hand hold a can, and with the right hand wipe the melted solder from the inside and outside of the edge quickly before it sets. Remove the next can is done, the leader takes his men to the and replace it with another, and repeat leeward of a herd, and distributes them the operation until both ends of the 100 cans are freed from their tops and bottoms. You now have 100 tubes, 434 inches long by 4 faches in diameter order to avoid si a to 18 much as post- Phese 100 tubes can, with but little stble ingathering up the meat. They skill, be converted into 35 feet 5 inches sometimes place buffalo 'chips' in such a of 4-inch drain-pipe, which, to a farmer or house owner, would be worth more than the original cost of 100 cans filled with tomatoes. In order to prepare these, it breaks away from them, and them so that the end of one tube will enter one-fourth of an inch inside of the other, take a tube in the left hand, place one edge over the corner of pine table, if nothing more convenient is at hand, and with a mailet, hammer, or a piece of stick, hammer the edge downward, turning the tube regularly every stroke. Place the other edge of the tube on the edge of the table and strike it from the juside, turning regularly. By this operation one end will be crimped, and the other enlarged. trim off the superfluous tat, and see It requires but little enlargement to that the butcher joints the meats promake one end enter and adm't of being perly, as thereby much annoyance is driven rightly into the other. They saved to the carver when it comes to should be put together in lengths of six | the table. Have ready a nice clear fire tubes. The scams should not come on (it need not be a very wide large one), a line with each other. To insure put down the meat, dredge with flour, with a soldering iron, but if they are the gravy as for roast leg of mutton, torced tightly together they will be and servo very het. to fairly tremble beneath its weight, or tar, inside and outside, would make and the noise of its movements may be this pape last for years underground, heard a long distance off, as it is not and it properly packed in the earth it will have ample strength to resist external pressure. Enough the solder can be sayed from what is wiped off the alongside the crowding multitude they joints to mend all the household tinware for a lifetime.

CULTIVATE MORE TURNIPS .- We all know the value of the turnip crop to England. It has been asserted that the interest of their immense debt is ananalty paid by the product of this crop. As to the United States, we do not make oalt the use of the turnip we might do. by mereasing the consumption of the root and improve ent in the manner or its cultivation. The great want of our winter-feed for cattle in succulence, We somewhat obviate this want by wish, dissolved in luke warm water. using cut-feed moistened, but as a genoral thing hay and oats and corn and water form the bulk of cattle-food Carrots, potatoes, rutabages and turlimited extent to what they might be One reason for this limited use may be in our old enemy, dear labor. In the the greater portion of that is, in a few culture of the carrot, for instance, there is a great amount of hand-work. As soon as the seeds are up, the plants it remain till quite cold, and then add must be thinned, and after every hoeharrowing between the rows, hands must go over again to keep the rank which sometimes lasts for weeks, its weeds from smothering out the carrot members have meat enough to feed plants. Carrots are excellent horsefeed; but few of us have this hand labor to spare. It is so much easier to hoe buffalo robe with which to provide corn in the hills both ways; though we clothing and luxuries for their families. know how nice it is to have carrots quarter of a pound of suct, an egg and work. There is the same trouble with the turnip, though in a less degree to be sure. Every single turnip has to be handled in pulling, every one has to be prevail, they must have a serious time gone over again and handled to take raised dough, and work into it with the in getting food. It is searcely to be the top off. If we could manage to do hand half a teacup of melted butter, wondered at, therefore, that one was found recently feeding upon the body of a cow that was killed on the Slerra Valley road. This cow, became crazed by the sterm of the ster this by machinery, as we do many three eggs, and milk to render it a became crazed by the storm, more than is now dreamed of. This hour. the horses, sleigh may come in time, for Yankee genius is equal to any advar cement in this direction.

FISTULA IN A HORSE - To cure a fisthe eagle was found by her partly con. tula in a horse first let it break. Then sumed careass. Mr. Illnes of the Bun- is the time to cure. Get a goose-quili nor mill, and another passenger were the place where the matter is running coming in from the valley on the mail out, and find the depth. Now take ten for a probe and introduce the quill into coming in from the valley on the mail out, and find the depth. Now take ten sleigh, and noticing that the eagle did not fly away, attempted to frighten it. They then discovered that the bird had actually glutted itself until it was not actually glutted itself until itself unt actually glutted itself until it was unable to fly. Mr. Hines tried to catch Force it well to the bottom of the sore. It, in order to bring it alive to Truckee. Let it remain until the matter or pus crambs, and fry them quickly in toll-Sinking waist deep in the loose snow at every step, Mr. Hines could make but a sorry pursuit, and the eagle, by flauping its great wings and vigorous. flapping its great wings and vigorous- use the feather end of the quill; diply using its beak and talons, managed ping it in fish oil and insert it full of ly using its beak and talons, managed to keep out of his reach. He followed it for some time, and once or twice came near overtaking it. There was a revolver in the sleigh, but the men very humanely forebore to use it against the poor bird. They describe the eagle as pus that runs out, or it will take the being very large and powerful, and as hair off the side of the horse. Keep the sore well cleansed. I have cured number of cases of fistula with the above; also, poll evil. In fact, poll-evil and fisfula are the same disease.

the feats performed by a native mesblesome in the garden fill small bottles to decomposed tissues in the blood. ANTS .- When these insects are troumerizer named Bunt, whose magnetic two-thirds with water, and then add Combustion take place in the capillapower would appear to be found quite plunge these into the ground near the influence plunge these into the ground near the interestible by the lower animals, upon mets or hills, to within half an inch of for a longer time in the capillaries of which the exclusively exerts it. He the rim, and the insects coming for a the tissue than in any other organ.

The blood acts as a reservoir not only sip will get into the cil and perish, as the tissue than in any other organ. invited to bring all manner of ferceisus and untamable wiid beasts, and holds them with his glittering eye. In a few them with his glittering eye and his seconds they subside into a condition accidentially been left in their track. of cataleptic stiffness from which they Another means of entrapping them, from the su ply of food—so can only be revived by certain passes soggested to me by Professor Glover, wasted to dry is carried by the b which he solemnly executes with his into a dampened sponge near their right hand. A snake in a state of vio- haunts to attract the insects. When lent irritation was brought to Buni by they have swarmed through the sponge a menagerie proprietor, inclosed in a it is squeezed in hot water, and the trap wooden cage. When deposited on the is reset until the majority of the insects platform it was writing and blaster are killed.

An old lady, whose son was a'out to proceed to the Black Sea, among her parting admonitions gave him strict injunctions not to bathe in that sea, for she did not want him to come home a 25 cents. she did not want him to come home a

### DOMESTIC.

SWEET AND SOUR CABBAGE .- My the cans you may require, say 100 quart cans; prepare a bright fire in the kitchen stove, and have the cans close at Dutch, for an old woman gave it to me in Albany just forty years ago: Take a cabbage-head and cut it down into eight pieces and cover it with coarse salt, letting it remain in a jar twelve fire in a china-lined vessel, covering it with vinegar, and boil for a full hour; add to It then one ounce of tumeric, teaspoonful of curry will do instead of tumeric), one tenspoonful of ground pepper, a teaspoonful of celerysced, a tablespoonful of allspice, two table-spoonfuls of ground mustard, and half ounce of white mace, with one and a-half pounds of brown sugar; cook one hour more.

BEEF COLL PS .- Two pounds of rump for this), salt and pepper to taste, one shalot, finely minced, one pickled walnut, one teaspoonful of capers. Have the steak out thin, and divide It in pieces about three inches long; beat hese with the batter, and let them fry or about three minutes; then lay them in a small stewpan, and pour over them the gravy. Add a piece of butter kneaded with a little flour, put in the seasoning and all the ingredients, and let the whole simmer, but not boil, for ten minutes. Serve in a hot covered

Roast Loin of Murron, - Cut and trength the joints might be tacked and baste well until it is done. Make

> CHICKEN, MADRAS STYLE .- Cut all the white meat from a cold fowl, either roast or boiled; chop it as fine as possible and then pound it in a mortar; season it with popper and sait, mix with about half a pint of white sauce, or sufficient to make it into rather a thick purce, stir over the fire till very hot, put it into a stewpan, and serve up with poached eggs round it, or with eggs grilled and placed on the purce.

> TO CLEAN WHITE KNITTED GAR-MENTS. - Take these not needing wasteing, being only slightly soiled, place them in a pillow-case one at a time, sprinkle flour through it, and abake well, until it looks as bright as new. Borax is excellent to wash flannels

> A CREAM TO EAT WITH FRUIT .- Boil half a pint of cream and half a pint of milk with a bit of lemon peel; add a few almonds beaten to a paste with drop of water and a little sugar. Take a teaspoonful of dried flour, rub li smoothly down with a little cold milk and a few drops of orange-flower water; mix all together and let it boil; let a little lemon juice.

FIG PUDDING .- Chop half a pound of flys very buely; mix them with oncfourth pound of coarse sugar, a tablespoonful of molasses, four tablespeonfuls of mitk, haif a pound of flour, a with corn, corn alone has to do the a pinch of grated nutmer; put the pud-

CRUMPETS .- Take three teacups of

CELERY SUUCE .- Cet a clean bunch of co ery into itt e bits, and boil it sortly until it is tender. Add half a pint of cream, two or three blades of mace, a little grated nutneg, and a small piece of butter rolled in flour; then partridges.

To FRY OYSTERS .- Choose fine ovsters, lay them on a clean cloth to dry perfectly, sprinkle with salt and pep-per, then roll them in graved bread-

SHAPE CAKES .- Beat the yolks of four eggs and the whites to a froth. Then add a quart of flour and a quart of To be baked in small snape tins previously greased.

Relation of the Liver to the General System .- Professor LeConte expresses his believe that the waste tissue is carried by the blood to the liver, and is there separated into liver-sugar and urea, or some substance which rapidly changes into orea. Experiments made b. Schiff support this theory by proving that venous blood is soon fatal to animals if the liver is tied, but is not so if the liver blood forms tissue and regenerates itelf wasted to-day is carried by the blood to the liver, there decomposed into sugar and urea, and so climina of perhaps the day after, or even longer.

### WIT AND HUMOR.

ERASMUS relates that a certain traveler in Holland lay so near the fire that his cloak was scorched. This being observed by a guest, he said to the sleeper: "Here! wake up! I want to tell you something." To which the traveler replied: "If it is bad news, put it off, for I don't wish to hear any in company when all should be jolly. Save up the sorrows till after supper. When supper was merrily over, he sa'd to the other, "Now, I am ready to hear He was then showed an immense hole burned in his cloak, and began to rage that he had not been aroused in

Some gentlemen dining at a table d'hote, the conversation turned upon oysters, which several of the company contended showed a sagacity that argued they must have brains. A young man who had taken an unduly prominsterk, quarter of a pound of butter, one ent part in the conversation, to the anpint of gravy (water may be substituted | novance of an elderly gentleman, his neighbor, turned to the latter and sald, "Do you believe that oysters have brains?" "Certainly I do, sir," was the prompt and pointed reply "since they know when to shut up."

> Two gushing Boston girls were walking one day in the suburbs of the ilub, when they stumbled on a little old-fashioned milestone, forgotten in the march of Improvement. One of them stopped, and parting the grass, discovered the half-efficed inscription, I. M. from Boston," upon which she ex-e'a'med, coststically, "Here is a grave, perhaps of some young girl, who wished it written on her tomb-tone, "I'm from Bo ton." How tone ring I new sincpie, and now sufficient!

> A CERTAIN painter was bragging of his wonderful command of color to a friend one day. His friend did not seem to take it quite all in. "Why," exclaimed the painter, "to you know that there are but three painters in in world, sr, who undestend color?" "And who are the,?" at last asked the triend. "Why, sir, I am one, andand-and-1 forget the names of the other two!"

> "Isu dere some ledder here for me?" inquired a German at the general de-livery window of the post offle, the other day, "No, none here," was the reply. "Vhell, dot is queer," he con-tinued, getting his head into the winlow; "my neighbor gets some-dimes dree letters in one day, und I gets none. I bays more taxes as he does, and I have never got one ledder yet. . How come loes dings?"

PRECISELY .- "Pa, dear," asked his con and heir, "teil me what is the difference between an accident and a mistortune?" "Pa, dear," gave it up. "Well," said his son and heir, "If my pressing tailor, Mr. Snippson, were to fail into a deep pond it would be an aceldent; but it any one were to pull him out it would be a misfortune.

An Irishman was accused of stealing a handkerchief from a fellow traveler. but the owner, on finding it, apologized to Pat, and said it was a mistake. "Arrah, my jewel," retorted Pat, "It was a two-sided mistake-you took me for a thaif, and I took you for a gentle-

A MEDICAL stude t j ined, without invitation, a party dining at an inn After dinner, he boasted so much of his abilities, that one of the party said. You have told as enough of what you can do; tell us something you cannot do." "Faith," said he, "I cannot pay my share of the reckoning.'

POLLY: Well, Pat, what is it now? Would you rather look a bigger fool than yeare, or be a bigger fool than ye

PLEASURE and business. Lady-"A pretty sight, isn't it, doctor? I don't see any of your little ones here! Thope you don't disapprove of javenile parties?" Dr. Littletums (famous for his diagnosis of infantile disease)-'1, my dear madam! On the contray-1 live by them!"

At the matinee. (The curtain ha-just fallen on the last act of the "Grand Pantomime.") Mamma: "Now, darling, it's all over, and we must be going." Effle (with lingering impresing." Effle (with lingering impressions of church); "Oh, no, ma dear, not yet. Can't we stay for evening service?"

The Laird (to his gardener, who had eaught somebody trespassing)
—"Hum! And you say, Saunders, that the fellow was impudent?" Gardener - "Impident!" Deed, sir, if he had been the Lard himself he could na hae been mair ill-bred!"

That was a triumphal appeal of the over of antiquity, who, in arguing the superiority of old architecture over the new, said: "Where will you find any modern building that has lasted so long as the ancient?"

MR. JUSTICE PAGE was renowned for his ferocity upon the bench. While going on a circuit, a factious lawyer named Crowle was asked if "the judge was not just behind." "I don't know," said Crowle, "but if he is, I am sure he was never just before."

E A CARD -To all who are suffering from the errors and Indiscretions of courts, nervous we kneed, e-ric dees) to so of manhood, etc., I will soud a Regipto that will core con, to Ee OF Ut ARGE. This groat remedy was discovered by a mil st nary in South Mustrea. Soid a self-addressed event potents nev. JOSEPH T. INMAN, Ention D. New York City.

WHEN you see a baby, which you kn ov to have suffered for a long time with Summer Complaint or Dysentery suddenly improve and grow fat and healthy, you can rest assured that Dr. Bull's Baby Syrup has been used.

Solid men admire the beautiful, and this accounts in some measure for the thousands upon thousands of bottles of Carboline, the doodorized petroleum hair renewer and dressing, which have been sold yearly since its invention by Messrs. Kennedy & Co., of Pittsburgh, Pa.,

HARASSING DREAMS -An unnatural excitement of the brain and nervous system is the direct cause of sleeplessness, as also of harassing nocturnal dreams. VEGETINE has a peculiarly seeching effect in all such cases, when taken just before going to bed.

WHY should any one buy a soap half rosin or clay, when Dobbins' Elect .c Soap, (made by Cragin & Co., ....ia-delphia,) is for sale? It cost but a tride more, and will go five times as

AS THE LIVER IS EASILY DISORDERLD, and a g oat a at of Billiou. The researt to preval during the Spring, Dr. Joine's anative Pills are of Scaconable emery, as they testore the Liver to healthy action, and remove all Billiousness.

An old physician, retired from prachaving had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent curo for Consumption, Bronchitis, Catarria, Asthma and all Throat and Lung Affections, also a positive and radical cure for Neryous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it knew to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge to all who desire it, this recipe, in German, French, or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. W. SHERAR, 149 Powers' Block, Rochester,
