CARPET BAG DORSEY Jemands at investigation from Postmaster James Ho should have it, for if he is not recking in crime he is the worst slandered man in the United States,

## In Memoriam.

In the past few days the State has ed citizons, Goneral John S, Preston lina, that it is necdless to give more than a brief sketch of their lives, in order to direct the attention of the rising generation to the examples they afforded of true nobility.

Gen. Preston's ancestor came over from Ireland in the last century, and founded a family, the branches of which have been eminent in American polities. The Prestons, the Blairs, the Breckenridges, the Floyds, the Hamptons are all connected, and they have illed almost every office of honor from VicerPresident down. Many have been famed for their eloquence, and Seneral Preston possessed this gift in cheminent degree. His commanding " once and courtly manners added ... Preston was born in Abing-Varginia, in 1809, and removed ate when a lad. In 1831, he Miss Caroline Hampton, an eat of the present Senator and they fixed to celebrate their gotien wedding. Before the war he possessed armense estates in Louisiana, the procreds of which were mostly lost by the insues of the war. He was an aide-de-camp to Beauregard at Manassas, and subsequently became the head of the Conscript Bureau in Richmond. At the close of the war he passed several years in Paris, but subsequently returned to his old home, Colambia, where he died. General Preston was never reconciled to the result of the war, and for him life could have no real happiness under the new order of things. While his death should be mourned for the loss it entails upon others, for himself there can be no regrets. He had made his peace with his Maker, and is now at rest.

State. In 1845 he become a licensed adopted State. After conducting a school for a number of years, he was, in 1859, unanimously elected President of the Due West Female College. How long course of twenty-one years, the characters of the noble Christian wocharacters of the noble Christian women who have left their alma mater, to undertake the duties and responsibilities of life, sufficiently attest. In addition to his college duties, Dr.

Because ably conducted the paper of Prof. Burney, with uncommon zeal in the prosecution of chemical researchmany of them. In education the aphorism of "Too much of a good thing" does not hold. Who would oppose sors, and has been (in itself a high testimonial) a Fellow of the Johns his religious denomination for thirty light in his church, and took a prominent part in all its deliberations.

We cannot do better than to add to our feeble tribute the following preamble and resolutions adopted by the faculty and students of Erskine Col-large on heaving the sad news that Dr. and testimonials from many of our in the way of education as may enable Bonner was no more:

In view of the recent death of the Rev. J. I. Bonner, D. D., President of the Due West Female College, the moulty and students of Erskine Collowing resolutions:

That we express our appreciation es in the cause of education.

That we cherish his memory, and he has left us. har we tender to our sister In-

The climate of Columbia is unsurpassed for healthfulness and immunity from epidemic diseases.

Of Mr. Miles we will say what he could not say of himself, that he is a gentleman of ability and far more than ordinary culture. Before the war he made one of the best mayors the city of Charleston ever had, and he represented with honor the Charleston District in the Federal and Confederate Congresses. He is fully master of his lepartment, and his executive ability has already been proven.

He thus speaks of the qualifications of his associates:

Of Prof. Woodrow it would Of Prof. Woodrow it would be great duties of life. The proportion of enough that Prof. Joseph LeConte them who go to colleges at all is very pronounced him "quite as competent small. I repeat, there is room for all to fill his chair as he (Prof. LeConte) was." (This was when Prof. L., after holding the matter under advise-ment for some time, declined to leave his high and liberally remunerated po-The Rev. Instruction is given in the Ancient and Modern Languages by licensed instructors.

Ancient Languages—Professor Von Fingerlin. Modern Languages—Prof.

J. C. Faber, M. D., (Tubingen.)

Practical instruction will be given in the Departments of Agriculture and Mechanics under the supervision of the Foremen of the Farm and Shops.

Thition free, except in the Department of Languages, where students pay such fees as may be agreed on with the instructors.

Each student is required to pay an annual fee to the college of \$10, to be excepted to the papers in the Department of the college of \$10, to be expended on repairs. Good, cheerful the college of \$10, to be expended on repairs. larging the scope of instruction in our walls, and making the College of South Carolina an institution of high and grateful. Perhaps I ought not to condude this communication without some allusion to what, I am told, is an obstacle in our way. I refer to what is considered the hostility, or at least opposition, to "a State College," on the part of the local colleges of our State. I trust that this is, if not altogether an erroneous, at any rate an exaggerated view. Why should any institution of sound learning

LOOK WITH JEALOUSY upon any new sister coming to her side as a coadjutor in the great task of popular enlightenment? Is there not room enough for us all to work in our appropriate spheres? Indeed, I think there is room enough and to spare. Our young men are growing up in a sadly deficient state of intellectual development and mental training for the our colleges. Let there be only a ger-erous rivalry among us to see how much each of us can do towards stimu-lating the youth of ur State to the desire for, and the pursuit of, that "higher education," without which a people must inevitably retrograde, not only in intellectual but material progress. For if there be one thing in the present another, it is that mind rules not only the forces of the social and political world, but, to an even greater extent, the forces of Nature. Show me the nation where the intelligence of the mass of the people is most developed by training, i. e., where thorough edu-cation is most diffused, and I will show you a nation most advanced in even material wealth and prosperity.

already"? Is the plea any stronger in favorably is he known as an admirable and successful teacher—particularly of in common schools, in private schools. in high schools, in normal schools, in colleges, in universities—everywhere educate! SPECIAL NOTICES.

Macon, Ga.

I had been troubled for a long time before using your Consumptive preparation, with something like Asthma, and after using only two bottles of your Brewor's Lung Restorer I breathed perfectly free, and have felt no symptom of the lisease since. I am confident your medicine mured me, and I cheerfully recommend it to all who are suffering from Asthma.

Yours truly,

THOUSANDS USE IT, WHY HESITATE? THOUSANDS USE IT, WHY HESITATE?

JOY TO THE WORLD! WOMAN IS FREE!—
Among the many discoveries looking to the happiness and amelioration of the human race, name is entitled to higher consideration than Dr. J. Bradfield's Fownele Regulator, "Woman's Best Friend." By it woman is emancipated from numberless IIIs peculiar to her sex. Before its magic power all irregularities of the womb vanish. It cures "whites," suppression of the "menses," and removes uterine obstructions. It cures constitution and strengthens the system, braces the norves and purifies the blood. It never fails, as thousands of women will testify.

Prepared by Dr. J. Bradfield, Atanta, Ga., price \$1 50 per bottle. Sold by all druggists.

price \$1 50 per bottle. Sold by all druggists.

Thomasville, Ga., June 28, 1878.

I have been selling Bradfield's Formalo Regulator for years, and it still continues popularan evidence of its being all claimed for it. I can recall instances in which it afforded relief after all the usual remedies had failed.

S. J. CASSELS, Druggist.

MACON. GA., Nov. 1, 1879.

Dr. C. J. Moffett—Dear Sir—We have been handling Teethina for several years. and the demand increases as the article becomes introduced and is known. Our sales avorage from two to three gross per month. We believe that your Teethina (Teething Powders) will eventually become a standard and indispensible article, for in no single instance has it failed to give satisfaction. No complaint has ever been made to us, hence we conclude that it does all you claim for it. Meril is bound to succeed.

HUNT, RANKIN & LAMAR, Druggists.

I have watched the use of the medicine now known as 'Swif's Syphilitic Specific' since the year 1827—over 50 years—and have never heard of a failure to cure when properly taken. I commenced the use of it on my slaves, between 1850 and 1855, and also did a number of my neighbors and in every case that came within my knowledge it effected a cure. In 1835 my brother-in-law, George Walker, bought at auction a slave not varranted. After the purchase it was unscrived that he had had Syphilis for twelve years. His head who wishows a hair on it. He treated him with this remedy, and in short time had as fine a head of heir as was ever owned by a negro. He owned this slave many, years, and he never had sup; return of the disease, not lost a day's work. This is only one among hundreds of instances of remarkable cures made by this medicine. In all my past life I have never known a remedy that would so fully accomplish what it is recommended to do. THE SWIFT SPECIFIC COMPANY, Proprie

MAKING WATCHES.

Defective Watch Cases are one of the chief auses of so many watches not being good time pieces. The cases being thin and not fitting well, admit dust and dirt to the movement, which soon interferes with the running parts of the watch necessitating cleaning, repairing, &c., and the amount thus paid out if applied toward buying a good case in the beginning, would have saved all this trouble and expense. We have recently seen a case that meets all these requirements, it having been carried for over twenty years and still remains perfect. We refer to the JAS. BOSS' Patent Stiffened Gold Case, which has become one of the staple articles of the Jewelry trade, sessing as it does so many advantages ove all other watch cases, being made of two heavy plates of solid gold over a plate of composition. And we advise all our readers to ask their Jeweler for a card or catalogue that will explain the manner in which they are made. It is the only Stiffened Case made with two plates of gold, seamless pendants, and centre,

solid joints, crown pieces, &c., all of which are covered by letters patent. Therefore buy no case before consulting a Jeweler who keeps the JAS. BOSS' Patent Stiffened Gold Case, that you may learn the difference between it and all imitations that claim to be equally good. For sale by all responsible Jewelers. Ask to see the warrant that accompanies each case, and don't be persuaded that any other make of LEMONADES, case is as good,
