The election for Worthy Master to fill out the unexpired term of Col. James N. Lipscomb, resulted in the choice of Col. R. K. Thompson, of Kershaw.

The length of the unexpired term was one year. On motion the Secretary cast a vote for Colonel Thompson as the unanimous choice of the Grange for Inter-State Commissioner at the Grange Encampment in Spartanburg.

Col. J. W. Norris and Mr. W. P. Russell were elected members of the Executive Committee, to fill respectively the vacancies caused by the expiration of the term of Mr. W. J. Shelor and the election of Colonel Thompson to the office of Worthy Master.

Mr. John Shelor, from the Committee on Suggestions for the Good of the Order, reported that the ground under the dome of the past year. The suggestion was made that the first duty of the Grange was to inculcate more of the policy of educational and social intercourse between the members as a lever to build up and restore the lost condition, and the importance of

INDUSTRIAL TRAINING.

How Young Men May Learn Something Besides What is Taught in Schools.

Mr. Benjamin R. Stuart, of Charleston, a gentleman of long experience as a teacher, publishes a card in the News and Courier, in which he announces his "strong desire to be elected to the Legislature from Charleston, upon the next regular Democratic ticket."

Mr. Stuart disclaims any special desire for "the five dollars a day" or for the "reputation he will make as an intelligent and efficient member," though he has "no doubt of that."

The ground of his aspirations, he states in the proposition, "that South Carolina and the entire South needs several hundred industrial boarding schools for students from fifteen to eighteen years of age, in which the instruction shall be of the first order, and the labor of the students will be so managed and applied for several hours daily, as to secure them their entire maintenance, their food and clothing and books and furniture, while they are improving their health and pursuing their studies during the spring season of early youth."

These schools "should be feders to our universities," as Prof. R. Means Davis has so admirably suggested. They should yield "remunerative revenue, to be obtained by methods of labor already fully understood and proved efficient, should alone be aimed at, as the object of the law."

Mr. Stuart thinks that simple provision should be made for the industrial education of the negro, and says that "if the Legislature will pledge an appropriation conditioned upon \$50,000 being raised outside of the appropriation for such a school for negroes, he will undertake in person to obtain the money."

He concludes by promising that the citizens of Charleston will stand him on the distinct issue on which he desires to be a candidate, the attention of the entire State and of the managers of our educational system will be directed to this matter."

Without passing upon Mr. Stuart's particular claims to the place he seeks, and without undertaking to determine how far he may be justified in his claims, it is plain that the subject he mentions is one of great importance to the people of South Carolina. Nobody can question the need of industrial training in this State. The tendency of our youth has for the past twenty years been more and more away from the very departments of labor which would be fostered and trained in the schools which Mr. Stuart, in common with numerous other educators, desires to see established. There has been a constant reduction of the avenues through which a young man might seek competence and independence, if not wealth and ease. The workshop, in every department of labor, seems to have become so distasteful as to be thought well-nigh disreputable.
