LAURENS, S. C., July 21st, 1891. Chorus-"I am a democrat." Georgia is certainly in a Weav-

ering way just at this juncture. "Man wents but little here below" was scarcely written of money.

The Alliance is the most important factor in European politics,the Triple Alliance.

Marching Through Georgia. Our caption indicates what is going on across the Savannah. Fifteen thousand of Georgia's gallant sons with the old rebel yell shouted themselves hoarse at Athens on Wednesday last, glorifying Gen. Weaver, the Greenbacker, and sockless Jerry Simpson, apostle of the "people's party," both of the "wild and wooly" west. The crusade is preached through all the wide border of Georgia. Gen. Weaver calls himself a Jef-

fersonian Democrat-and the Georgia crackers make the welkin ring. The whole thing is exquisitely interesting. Right down the

throats of Joe Brown and Jno. B. Gordon they proclaim that they and their constituency have been frauds, and actors in a thicivng game of politics, time whereof the memory of man runneth not to the

enough. We have been mistaken, misled, deceived, debauched. We beg a thousand pardons. Kansas and Iowa are the home of true democracy and we are to get it unadulterated, pure and undefiled from the throats of these intensified Westerners as echoed over the yellow Savannah. They call for, ask for, shout for, and howl for a new party! Calhoun, Benton, Toombs and Hayne were fakes and robber barons. Tom Watson and Sam Small is the ticket. Third, -next.

Will None of Our Daniels Come to Judgment?

The Alliance excitement has brought some very brainy me. into prominence. Senator Pfeffer and Congressman Simpson, of Kansas, Congressmen Livingstone and Watson, of Georgia, and many others suddenly raised to the National Legislature, have at least convinced the public since their election that they are men of more than odinary intellectua! calibre.

However impractical their ideas on the Sub-treasury and other extreme demands of the Alliance, they present them with such brilliancy as to coerce the interest of readers and thinkers.

Here by South Carelina Cheme of Calhoun and McDuffie") Stackhouse alone of the new found geniuses has attempted to throw light on the great issues and the seed, which he sowed in Texas, doesn't seem to have taken root.

Some of our most distinguished fellow citizens have recently avowed their affection for the Subtreasury and given their hearts to it, yet not one word of argument do we see in the public prints or hear from the stump.

While the combat thickens in Georgia, Talbert, lecturer, and Stokes, editor, bear the whole bur-

den on this side the river. It is an easier matter to get the floor now than it will be in the halls of Congress and all our heroes are popularly supposed to possess a bushel of brains.

Of course, the motives of the reformers in clamoring for smaller salaries were honest and self-sacrificing and now that they have found that they were vastly mistaken, the people will commend the candor with which they acknowledge it by their actions. Had pay been cut down there is no telling to what severe temptations they might have been exposed, and had they been so quixotically consist-

The people will not be surprised if the Legislature, in view of the hardships attendant upon office holding, decrees a general doubling of salaries at its next session.

Last night at a meeting of the common council the company was granted a franchise to build mains and works to carry out the proposed enterprise, the first of the kind ever attempted in this country. The projectors of the scheme are confident of success and will sell fresh air to any party and will remove impure air at a very low cost per square foot. The work of laying mains will begin at once and very probably by next sum-mer the company will be ready to supply fresh air in cool blasts. In winter hot air will be sent through the pipes.

l'ast Time in Michigan. "The people in Grand Rapids, Kala-mazoo, Niles, Ann Arbor, Wayne, Ypsilanti and other Michigan towns are twenty-seven minutes more rapid than the rest of the world, and at the same time are 'way behind the times," remarked George Westlake, a drummer for a Cincinnati paper company. Mr. Westlake talked as if he were not at all pleased with the indication of rapid progress in the Wolverine state, and declared it was the occasion of his losing valuable time. "When I say the peo ple are rapid there," continued the traveler, "I mean that they keep their clocks twenty-seven minutes ahead of standard time. When the scientific men discovered that the world was twenty-seven minutes too rapid the edict went forth that the hands of the clocks and watches should be turned "Nearly everybody recognized that

the earth could not keep pace with the sun, but the Michigan people would not acknowledge this, and positively refused to adopt standard time. All the clocks in the hotels, stores, residences and boarding houses in the Michigan towns are run on what is called 'city time,' which is the old time. The railroad trains, however, run on standard time, and as travelers are compelled to eat on 'city time,' etc., and are not notified of this out of date state of affairs, the stranger gets to the depot just in time to learn that his train has been gone a half hour."-Chicago

Lady Macdonald as an Author. Just before her bereavement,

Lady Macdonald, widow of the late Sir John Macdonald, completed her first ambitious literary effort in series of articles for The Ladies' Home Journal, the first one of which will appear in the August number of that periodical. Last summer Lady Macdonald, with a party of triends, traveled in her private car through the most pic-turesque parts of Canada, and in a delightfully fresh manner slie describes her experience on this trip, in these articles to which she has given the title of "An Unconven-tional Holiday." A series of beautiful illustrations, furnished by Lady Macdonald, will accompany the articles.

HARRIS LITHIA SPRINGS.

Testimonials. WATERLOO, S. C. Apr. 10, '91 MR. J. T. HARRIS,

DEAR SIR:—My engagements are such that I have not time to call the attention of medical profession to the cases that might be collected from the mass that have accumulated during the thirty-eight (38) years of constant use of the waters of your lithin Spring The maters of your

Lithia Spring are odorless and colorless, free from salinary taste, rather palatable. When taken in a considerable quantity they do not nauseate, purge or produce any feeling of discomfort. I find from an analysis of the waters they contain cloride sodium, carbonate potash, carbonate soda, carbonate lithia, carbonate iron and sulphate magnesia. The waters act directly upon the mucous coates of the stomach and alimentary canals they are powerfully alterative and tonic. They are soothing to inflamed or irritated surfaces. They react upon the blood, changingm it from acid to alkaline,

In indigestion, catarrh of stomach and gastralgia, suppplemented with a proper diet they are a cer-tain cure. The action upon the kidneys is marked. The sodium, potash, soda and lithia are the best solvents of uric acid, all calculi of an acid character, whether bileary or ciptic are steadily dissolved, I am confident that the profession will find it very useful in cases where this class of water is required. Respectfully,

LAURENS, S. C., April 20, '91

MR. J. T. HARRIS,

DEAR SIR:-I have been a sufferer for some time from an affection of the kidneys. I tried a number of remedies without any relief. Some times the pain in my back was so severe that I had to down. Some of my friends asked me to try your mineral water, I did so, and the result was most gratifying. I felt relief after the first day. After using it a week I was entirely well. It has been some six weeks since I first used it, and my general health is greatly improved. Too much cannot be said

in its praise. It is undoubtedly the best water that I know of,
Yours Respectfully,

MR. J. T. HARRIS, DEAR SIR:-For several years my wife has suffered from erysipelas, every two weeks she was confined to her bed and tried many remedies, but nothing prevented the erruption. She was discouraged and finally stopped all medicines and began drinking your Lithia Water. In two weeks the disease was milder than it had been for years. She continued to use and since that time she has not been troubled at all.

Very Respectfully, JOHN W. TURNER.
