

SERMON IN THE WEST.

TALMAGE DISCOURSES FROM A CHAIR IN RUTH.

Sorrow and Suffering Develops Character—Unflinching Friendship a Glorious Virtue—The Beauty of Female Industry.

GREEN MOUNTAIN FALLS, Col., Aug. 2.—Dr. Talmage preached here today to an immense audience. His West...

Again, I learn from my subject that even which seems to be most insignificant may be momentous.

Within a few weeks I have been in North Carolina, Virginia, Pennsylvania, New York, Ohio, Michigan, Canada, and Illinois, Kentucky, Missouri, and the great West.

The time that Ruth and Naomi arrive at Bethlehem is harvest time. It was the custom when a sheaf fell from a load in the harvest field...

Boaz owns a large farm, and he goes out to see the reapers gather in the grain. Coming there, right behind the woman, sun-browned reapers, he beholds a beautiful woman...

It was love at first sight. Boaz forms an attachment for the womanly gleaner at the church of his own age.

Ruth, with an ephah, or nearly a bushel of barley, goes home to Naomi to tell her the successes and adventures of the day.

It was love at first sight. Boaz forms an attachment for the womanly gleaner at the church of his own age.

Again, I learn from my subject that paths which open in hardship and darkness often come out in places of joy.

When Ruth started from Moab toward Jerusalem, to go along with her mother-in-law, she said to herself, "I will never see my father's house, or my father's land."

When you started out for heaven, oh, how dark was the hour of conviction—how Sinai thundered, and devils tormented, and darkness thickened!

So, very often in our worldly business or our career, we start off on a very dark path.

Greelan mythology said that the fountain of Hippocrene was struck out by the foot of the winged horse, Pegasus.

I have often noticed in life that the brightest and most beautiful fountains have been struck out by the iron-shod hoof of disaster and calamity.

It was very hard for Noah to endure the scoffing of the people in his day while he was trying to build the ark.

It took all our present national sorrows, to stir up our nation on that high crest where it will march along after the foreign despots...

A BLACK EYE FOR COOSA W.

CHIEF JUSTICE FULLER DECIDES IN FAVOR OF THE STATE.

The Motion Continuing the Preliminary Injunction and Appointing a Receiver Granted—Judge Simonton Concur—The Coosaw Octopus Knocked Out.

GREENVILLE, S. C., Aug. 3.—The decision of Chief Justice Fuller in the Coosaw case was received today, and Judge Simonton added his concurrence this afternoon.

It seemed to be of no importance that Jubal invented rude instruments of music, calling them harp and organ; but the introduction of all the world's melody...

Behold Ruth toiling in the harvest-field under the hot sun, or at noon taking plain bread with the reapers, or eating the parched corn which Boaz handed to her.

Behold Ruth toiling in the harvest-field under the hot sun, or at noon taking plain bread with the reapers, or eating the parched corn which Boaz handed to her.

DEMOCRACY DIVIDED.

Intense Bitterness Between the Factions in Charleston.

CHARLESTON, S. C., July 29.—The untried Democracy of Charleston went to pieces today without bloodshed, but with more bitterness than ever known even in the days of active Republicanism.

COLUMBIA, S. C., Aug. 4.—The quiet monotony of summer life in our city broken yesterday, but not unexpectedly, by an encounter between Mr. M. F. Tigue of the News and Courier.

The split in the party is now regarded as hopeless, and the feeling between the two wings is intense.

THE TRIANGULAR FIGHT IN OHIO.

A Third State Ticket to Enter the Field Today.

SPRINGFIELD, O., Aug. 5.—When the People's Party convention was called to order today by Hon. H. T. Barnes, at least 450 delegates occupied seats in the beautifully decorated hall.

Professor of History—W. S. Morrison, of Greenville.

Professor of Agriculture and Horticulture—J. S. Newman, one of the faculty of the Alabama Agricultural and Mechanical College.

Professor of Mathematics—President Strickland, of the University of Alabama.

Associate Professor of Mathematics—J. G. Clinkscales, one of the faculty of the Methodist Female College at Columbia.

Associate Professor of Mathematics—T. P. Perrin, of Abbeville.

Associate Professor of Chemistry—H. N. Brackett, of Charleston.

Associate Professor of Agriculture—W. S. Wellborn, of Columbia.

Associate Professor of Mathematics—J. G. Clinkscales, one of the faculty of the Methodist Female College at Columbia.

Associate Professor of Mathematics—T. P. Perrin, of Abbeville.

Associate Professor of Chemistry—H. N. Brackett, of Charleston.

Associate Professor of Mathematics—T. P. Perrin, of Abbeville.

FACULTY OF CLEMSON.

SOUTHERN INSTRUCTORS FOR THE CAROLINA YOUTH.

Theoretical as well as Practical Instruction Will be given; but all Theories will be Reduced to Practice—Work Done by the Board of Trustees.

PENDELTON, S. C., July 30.—The board of trustees of Clemson college held its final meeting this morning and today the various members left for their homes.

The long session of the board was caused by the difficulty of the selection of professors from the multitude of applicants, all of whom came with unexceptionable references and recommendations.

It took several ballots in each case to agree upon the men for the different chairs.

The board not only endeavored to secure the men best qualified for the positions, as far as possible, native South Carolinians, and men who have been active workers in the movement for the establishment of a state agricultural and mechanical college in South Carolina.

The following were the professors elected this morning: Professor of English—C. M. Furman, of Greenville.

Assistant Professor of English—T. P. Harrison, of Anderson.

Professor of Physics—C. W. Welch, of Newberry.

Professor of History—W. S. Morrison, of Greenville.

Professor of Agriculture and Horticulture—J. S. Newman, one of the faculty of the Alabama Agricultural and Mechanical College.

Professor of Mathematics—President Strickland, of the University of Alabama.

Associate Professor of Mathematics—J. G. Clinkscales, one of the faculty of the Methodist Female College at Columbia.

Associate Professor of Mathematics—T. P. Perrin, of Abbeville.

Associate Professor of Chemistry—H. N. Brackett, of Charleston.

Associate Professor of Mathematics—J. G. Clinkscales, one of the faculty of the Methodist Female College at Columbia.

Associate Professor of Mathematics—T. P. Perrin, of Abbeville.

Associate Professor of Chemistry—H. N. Brackett, of Charleston.

WHAT DOES THE PRESIDENT WANT?

FACOMA, Aug. 1.—George Hazard, Secretary of the Democratic Central Committee, has received from the government a ticket from Washington to Vancouver.

The brick residence of the professor of chemistry, another brick residence, the chemistry building, the barn and the completed work of the kitchen and the mechanical building is almost finished.

The trustees have not arranged the curriculum and will not do so for some time. Late in the summer a joint meeting of the trustees and the professors will be held, to concentrate the course of study and work will be mapped out.

If the buildings are completed in time and judging from the present rate of progress they will be, the college will commence work on February 1, 1892. The session will be nine months long.
