## Business Notices.

1893 with its joys, trials and financial difficulties has passed away and we are now ushered into a new year, 1894. None of us know what is in store for us, yet we are hopeful for a better trade this year than we have had in the past. We are thankful to the trade this year than we have had in the past. We are thankful to the people of Laurens and county for their liberal patronage. In spite of hard times and scarcity of money our trade has been liberal and we are happy to know that the immense stock of cloth-ing, hats and shoes of 1893 has been moved at prices that please the people moved at prices that please the people and we are gratified to know that some of them are in every home in Laurens county. Asking you all to continue your trade with us and wishing you a happy New Year we are your friends, DAVIS, ROPER & Co.

Hudgens will regret to hear of his death at his home in Park County, Ark. Mr. Hudgens was a member of the Laurens family of the

Sitgreaves will have charge of the mercantile business here. Mr. Sitgreaves is quite popular in Laurens and very general regret is expressed this leaving.

#### Our Graded Schools.

Every progressive town and city in these days has a sys tem of graded schools, supported as a rule by a special tax. The taxpayeas of this city contribute six mills on the dollar for our schools, that is to say four mills in addition to the regular two mills State levy for school purposes. There is the poll tax which every man pays besides. Therefore the man who pays taxes on \$5000 worth of property pays about thirty-one dollars for the schools This burden falls on everybody who pays taxes and any person who will take the trouble to look around him for a moment will discover at a glance who pays the bulk of the public school

All this is exactly as it should be and we believe that it is directly to the advantage of the property owners of the town to cheerfully vote this tax in order to encourage a population of thrifty intelligent people to live in Laurens. Without graded schools a mechanic with four children to keep at school would be at a yearly expense of, say twenty dollars, in tuition fees.

Heretofore our schools have charged a fee of two dollars a year for each pure.

a fee of two dollars a year for each pu-pil, but it has been impossible to keep the schools open for nine months. At the beginning of the present session one dollar of this fee was collected as usual but the second dollar has not been collected and will not be. In order, however, to maintain the schools for nine months it has been found necessary to have a small months that the schools are sent to have a small months to the second services. sary to charge a small monthly tuition fee, twenty-five cents for the two lowest grades, fifty for the next three and seventy-five for the four highest, but these fees will be charged for only four months, possibly five, if we understand the arrangement. When it two dollars is not collected this year. it will be seen that the tuition is prac tically a very small amount. Just such a system of tuition fees has been

found necessary in nearly all the graded schools of the State and in most cases it is higher than in Laurens. If it can be found that one cent of the public school monies is expended unwisely, unnecessarily or extrava-gantly and that the schools can be run cheaper than they are being run, then there will be good reason to complain at the tuition fees. The facts are though that we have a board of trustees composed of sensible and compe tent business men who are managing the schools with the greatest economy consistent with efficiency and they rec-ognize the necessity of these monthy

THE ADVERTISER believes that our system of free schools is the most val-uable public possession of our town and that nine-tenths of the poorer class of our citizens as well as the large taxpayers on whom the load really falls

will agree with us in this view.

If there is any poor man in this town with children to educate who thinks it advisable to abolish the graded schools
THE ADVERTISER would like to hear from him. from him.

There are taxpayers in Laurens who pay perhaps a hundred dollars for the education of other people's children. They are not complaining.

n town. So no one can stir to create Rev. J. B. Parrott's eldest son, Ben, s critically ill with pneumonia. Efforts have been made to establish

a new post office at the new depot named, Jacks, but failed. Our very efficient postmaster, Mr. J. W. Shock-ley has had the office at Barksdale for twenty odd years, serving in the most acceptable manner, and it is but justice that he should still retain the office, as he lacks many years of being too old to faithfully fulfill his duties.

Mrs. Lucy Anderson, of Arkansas, after an absence of iourteen years, spent a part of Xmas with her brother, Mr. A. C. Watson.

The schools in this district opened the new year under the most favora-ble auspices. The one at "Yeargin's Academy" has thirty-two enrolled with more to come. We think we may safey boast of more schools than any district in the county. We have three with an enrollment of over thirty and under the guidance of efficient experienced teachers.

To-day Hood's Sarsaparilla stands at the head in the medicine world, admired in prosperity and envied in merit by thousands of would-be competitors.
