Yesterday morning was icy and cold, but the sun came out and up and the day was beautiful. A very large crowd attended yesterday, though there were no public sales. Farmers were very careful, making arrangements for the year and hopeful of a fair outcome. Little has been accomplished in the way of preparation, but there is ample time yet, should the seasons prove propitious. A union steaks in the mud called upon dupiter for help and was told to put his own shoulder to the wheel. A hopeful spirit will move the wheels.

The Sea Board Air Line.

Parties going East or West will do well to write or see

J. N. WRIGHT, Laurens, S. C.

Soliciting Freight and Passenger Agent of Sea Board Air Line.

To the Merchants and Farmers along the Line of the P. R. & W. C. R. R.

It gives me pleasure to notify you that on the 1st of February, 1894, a marked reduction will be made in rates from all Western points to Port Royal & Western Carolina Railway local stations. This reduction in freight rates places your station on a parity with other points in upper Carolina, and you will now have as low rates from the West as any point on any of the Railroads in your section of the State.

It should enable you to largely extend your trade. This can now be done with confidence, knowing that no other town enjoys better freight rates than yours. You have always possessed equal rates from Charleston, Savannah and Eastern cities, with adjacent stations on other roads, and this reduction in the Western rates puts you on a perfect equality.

On the same date a reduction in rates from Virginia cities will also occur.

There is therefore no reason why you should not largely increase the trade in your section and I trust that you will mutually aid us in building up this line and the country adjacent to it. W. J. CRAIG, G. F. A.

School is the order of the day in town.

Mr. B. C. Burns had a new addition put to his store, making a large commodious building for his fine variety of goods.

Our good ladies are indebted to our thoughtful Congressman, G. W. Shell, for garden seeds. We see many now preparing to do their best.

Mr. and Mrs. A. A. Baldwin, of Abbeville, are visiting relatives and friends in town.

Mr. E. R. Power, who spent the past month clerking in your city, has returned home. He evidently believes that "distance does not lend enchantment to the view," when his best girl is considered. We can but congratulate him on his good taste.

To the sorrow of the trustees and patrons, Mrs. Bryson has resigned the school at this place. She moves to Ora where she will have the advantages of her church, and can train her little daughter in her own faith. While the trustees regret to lose so valuable a teacher they favorably accepted her resignation, and employed Mr. R. Hunter Bryson, of Ora, to fill her position. We wish her success in her work.

There will be a hot supper at the residence of Mrs. M. B. Mitchell Friday night, the 9th inst., for the benefit of the Warrier Creek Church. Everybody is invited.

Burassville Notes.

On last Friday evening, the 25th ult., about dusk, a heavy, beautiful snow crystal fell here. It was the first snow of the season.

There has been so much unfavorable weather, the farmers haven't turned under but very little of the soil.

Mr. Myers' quartette, of your city, came up on the night of the 25th ult., to the residence of Mr. T. R. Simpson, and entertained the crowd with some nice songs. It was a jolly occasion, which all present did enjoy. Mr. Simpson gave the quartette and some special friends a big supper. But, oh! what a delicious supper building.

Arthur Cox visited in this section a few days ago.

Mr. Conway Garrett has made a new garden leaving the corner door for the gate. When finished his wife asked him to plow it up and his reply was, "How in the d— will I get my horse in there?"

We learn with much sorrow of the death of Mr. R. H. Yeargin. He was a resident of our community before moving to your city and was a faithful and pious friend to all who knew him.

The bereaved family has our sympathy in their sore affliction. BUM BLINKER.

No Danger of a Salt Famine.

The amount of salt in the sea waters of the globe, if extracted, would be greater in mass than the land, so far as it appears above the surface. The seas cover 73 per cent of the earth's surface, estimated at 9,250,000 (German) square miles. The percentage of chlorinatum in the sea is the same at all depths. Assuming that the average depth of the sea is a half (German) mile, there are then 3,400,000 cubic miles of sea water. A cubic mile of sea water contains on the average about 45 kilograms of salt. The 3,400,000 cubic miles of sea water would therefore contain 85,000 cubic miles of distilled pure salt.—From the German.

LOVE'S REMINDERS.

Shy blushed on you maple spray, My coming rained you surprise, You cry aloud and fly away.

On wings that glitter as they rise; She blue as they, they shyly cling, Unequaled bliss their beaming brings; For now I think of one most dear, Whose eyes are bright as bluebird's wings.

From covert groves glides forth a trill Of wild birds singing lustily, Yet while I list my thoughts will still Seek her who is most dear to me, For oh, her soft and soothing voice Sounds merrier than the leaping throng Of waters when spring rains rejoice— Its music makes the linnet's song.

Upon a lone-petted white birch bough A squirrel gambols with delight, Until, by my rude hand I am vexed, She higher mounts on lanky feet; And she her bonds and soothing voice From lower limbs to limbs above Her agile motions will reveal The flash-light gleams of her love. —Maurice W.
