The LAURENS ADVERTISER is again agitating the question of a better schedule on the Laurens road—and the Laurens people should have it.—New-

'Under the title of "Issues of the Coming Elections," the October number of the North American Review contains two important anticles written respectively by the Hon. William L. Wilson and Ex-Speaker Reed, in which the principles on which both the great parties will go before the nation in the approaching campaign are tion in the approaching campaign are outlined with precision and authority.

Charleston has a new daily paper, "The Evening Post." Its editor is Hartwell M. Ayer, late of Florence, a very bright and spirited young writer, who has had experience on the press. He will make the paper a welcome visitor everywhere and we trust a business success.

In Aiken a policeman has been convicted of manslaughter and sentenced to the penitentiary. In Marlboro a prominent citizen has been convicted of manslaughter for killing his brotherin-law. It will get to be dangerous after a while to kill a man in South

Good folks who are genuine Democrats are funny people.— They wish to down Tillman in this State and to elect Hill in New York. That is, these here are vexed here because those there don't favor a bolt here, and those there are vexed because these here don't favor a bolt there. A bolt against Hill is made by the same kind of people there that a bolt here would be made by against Tillman.—From the Sumter Freeman.

Before setting out on his long journey to the seat of war in Asia, Julian Ralph evidently received a pleasant impression of the Japanese in New York City. Harper's Weekly for October 6th contains a description of the Japanese club-house in West Twentyfifth Street; and the appreciative tone in which this is written augurs well for the success of Mr. Ralph's undertaking in the far East, where one must have done with narrow prejudices in order to draw near to the native life, as Mr. Ralph purposes, with comfort, or even with safety.

In Richland a jury staying out some time and failing to return a verdict, Judge Benet had them brought into Court. His Honor elicited the fact that they stood eleven to one, whereupon he withdrew the case and ordered the minority juror discharged and sent to his home And now people will be after likening the Judge to the son-in-law one of the Astor family was afflicted with

Confusion as to the choice of a bloodpurifier is unnecessary. There is but one best Sarsaparilla, and that is Ayer's. This important fact was recognized at the World's Fair, Chicago, 1893, being the only blood-purifier admitted to be placed on exhibition.

Comment is made upon the suspension of the Dispensary business during three months of this year. If the was of force then its suspension was illegal and an abuse of power. Taking the facts into view the following seems to be a reasonable solution. On the promulgation of the opinion of the Supreme Court, Gov. Tillman and his Attorney-General determined to wind up the business and stand by the decision that the law was unconstitu-tional. It was subsequently ascer-tained that the newly elected judge would sustain the law and therefore the business was re-opened. So let there be no doubting Thomas as to the outcome of the decision.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is infamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be de-

stroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars: free.
