booking Backward we were beaten on Tuesday ast depends upon who "we" are. Unstionably what our distinguished te Chairman rolls upon his tongue, the "organized democracy" in these nited States was knocked completely out. As far as the East is from the West, and in the intervening and surrounding territory the democrats and all its counterfeits were cycloned and buried out of sight. The only consolation left lies in the reflection that the nocracy beaten was what a woolhat anti in this county describes very grapically as a bastard democracy. Let us recur. Four years ago we had a solld South and that meant an unbroken phalanx of white men standing shoulder to shoulder. In 1890 the lliad of isms. began to creep in and disintegrate, but still in 1892 there was enough solidity in the South to keep up an unbroken front and along with the Northern wing to break the rerephlican lines and put Cleveland in with a rush and fill the House and the Senate with a working majority of socalled democrats. But it proved a sad aggregation; the so-called democratic Congress, Senate and House, was a fraud, a menagerie of strange animals, wearing, as the ass who clothed him-celf in the lion's skin, stolen pelts. They were only known in their true haracter, when they advertised themelves by their brayings. To illustrate,

a this State, Brawley (succeeded by

glar) was the only democrat not

sinted with some one or other

the dozen isms of the tainted

a In Georgia, only two of their egation were simon pure democrats. t was throughout the South and t. This itself gh to stare nation out of its propriety. The "le of a great section's represenves, populists, republicans, centelists and socialists, posing and paraing as democrats, sickened, disrated and frightened the great body potic. On the hustings, at the North an West the lion's skin was irreveronly torn from the backs of the populiss and bogus Jeffersonians, their tru characters exposed and advertised to he world. In the meanwhile the South was shivered into atoms. Unnumbered isms took possession of the people under strange leaders and strange names. Hence we have Tillman, Watson, and Kolb at the South, with populism, third-party-ism, Tillmanism, Jeffersonianism, centralism, all mixed and adulterated with republicanism and a small fraction of simon-pure democrats, in this State, known as antis and conservatives. This Was the condition and has been the condition over the South and the West to which our Governor has been looking with anxious eyes. Now comes the tug of war. At the North are forty millions of people to twenty at the South and beyond the Mississippi. Forty millions can beat twenty millions at any game. These forty became alarmed at the Southern outlook and we see the result. But the funny all the revolution lies in the fact that even bleeding Kansas, to which Go" Tillman was looking for light, has gond wrong, revolutionized and populists . . into the blizzard,

horse foot and dragoons. We will hear

regalls again, the "statesman out of a job," The eptton states statesmen

have gone and done it and now will be lonesome in Congress. Brother Crisp

of Georgia, will be an ex-speaker and may now sit for his picture. Instead

of free silver and Gov. Tillman's flood

of greenbacks we will have clouds of

fraudulent pension bills and the Mc-

Kinley tariff once more upon the

country. Cleveland the much cursed

at the South and especially in this

State, alone stands between the South and destruction. The ruling ringst a clement must be amazed at what the have done. In three years Tillman will be alone in the great Senate without a companion to whom to tell his srrows-not one. Peffer and all the reit will be gonegone glimmering like a dream. But to him the situation will have its compensations. He will have the distinction of Marius among the ruins of Carthage, a solitary figure. He will have five thousand a year an perquisites. He will be the only Suator with a pitchfork. He can refer and console his disconsolate and long me moments with the remembrance of the millions in salaries he has given to is satellites in this State. He may als hope that his colleague, Irby, will succeed himself and feel that his little State will always have the pluck to folow him in a fight against the world an truth.

us goes in Tillman goes out, but

The trick on last Tuesday seems to have consisted in the managers chaining that the number of voters' certificates did not tally with the number or the registration books. This only lays fraud at the door of the supervisors of egistration. It was a trick, it would quarters and given out to be played all over the State. It never turned up be ore. We have not heard of a single registration certificate being declared purious by the managers in all the State. This is too weak for sucklings.

It is charged and believed that Evans, Tillman, Irby and Elliott's Beaufort friends had a deal. This deal ost the "No's" several thousand votes. Col. Elliott's claim to a seat in Congress will be contested and Murray, the negro will be seated. This Beaufort district, like Tammany, costs the democracy tens and hundreds of thousands of votes Wait and see, however, as Col. Elliott is all right, if he is kept out of bad company.

This joke has done service aforetime, but let it go.

Pope was probably tricked out of fifteen thousand votes and perhaps more in the State, but Evans takes the cake. Pope may appeal from the machine, but only to the machine; he may go to the courts, but the machine will welcome him; to the higher court, but there he will find his comrades of old in his ancient household; there he will get his death stroke from his former yoke fellows; and there will he be buried. "Be alsy, ye spalpeen," as an Irish Confed said to a Yank, kicking his last kick, Johnny tapping his noggin with the butt of his musket.

Who struck Billy Patterson? How many talks did Brother Talbert make in the House last session? The eloquence wasted about the "organized democracy"? Where are Jerry Simpson and Thomas Watson? What about Tillman's great speech on Staten Island? What has become of McCune? How about these million democrats driven into the republican fold? Cleveland did it, eh? How "he bestrides the lazy pacing clouds"! What a mighty man! What has become of our own great and mighty men that they fail to persuade and convert mankind and stop the mischief? Cleveland, eh? So says our young elect Governor

The democrats were so badly beaten in New York that there is not a sound democratic hide in the State. There has been nothing like it except the way in which the Japs are flxing Chinese skins for pepper-boxes. Hill's courage, power and his self-sacrifice are commendable and we admire his heroism in leading a forlorn hope. Cleveland was wise to keep out of harm's way. Atlas holds up our little globe, but he has gravitation to stand

We are probably on the eve of better es and a revival of prosperity all along the lines. If it comes now it will be attributed to republican triumph and the democracy won't see herself and turned the free silverites daylight in ten years. So much for populism, free silver and other financial fads

> The tricks of the trade in Stokes' and Elliott's districts may cost Wilson, Latimer and others clearly elected.

The next House will be organized by the republicans. J. Billy Stokes, populist, will hardly be seated.

Fraud is suspected at various preincts in this county on last Tuesday.

"Early in the Winter, I took a severe cold which developed into an obstinate, hacking cough, very painful to endure and troubling me day and night, for nine weeks, in spite of numerous remedies. Ayer's Cherry Pectoral being recommended me, I began to take it, and inside of 24 hours, I was relieved of the tickling in my throat. Before I of finished the bottle, my cough was nearly gone. I cannot speak too highly of its excellence."—
