Spring Medicine
Hood's Sarsaparilla is Just Right
 I am happy to state that I am convinced Hood's Sarsaparilla is the best medicine that I have ever taken. Last spring I was completely worn out, I could not do anything. The least work I did fatigued me very much. I also came very near losing the sight of my eyes. I began taking Hood's Sarsaparilla, and health, strength, appetite and clear eyesight were restored to me. I have taken other medicine but found no relief until I gave Hood's Sarsaparilla a fair trial. I am convinced it is superior to all others. The good that it has done for me is beyond expression.
H. T. AVERY, Lovejoy, Georgia.

Harris Lithia Water.
 The most remarkable Water on the Market to-day which is Shown by its Analysis and Testimonials of the Most Noted Physicians of the Country.

Read what a prominent merchant of Columbia, S. C., has to say for Harris Lithia Water.
 "I had long been afflicted with kidney troubles. I had tried all the Western waters and all others that I could hear of, and I have no hesitancy in saying that none have benefited me even approximately as much as the Harris Lithia Water. I was using the Buffalo Lithia Water when I heard of this. I do not expect to use the Buffalo Water again in my chair. After remaining two weeks I could get about as good as anybody. It acted on me like a charm—quickly and effectively. This water is now being largely sold in Columbia, and I think every person who has tried it will agree with me in the belief that it is the most remarkable water in the country. From a simple interest in suffering humanity, I would like very much to see it given a trial."

The Turkey and the Buzzard.
 The Governor of the State, all the House officers, two U. S. Senators, seven places as representatives Congress, one hundred and forty places as members of the legislature, a hundred postmasters positions, one hundred other offices of smaller and temporary character, but paying a million dollars into the pockets of the dominant populist party. In this state, have been secured.

The white man and the Indian made a buzzard. They captured a turkey a buzzard. White man to Indian: "You take the buzzard, and I'll take the turkey or I'll take the turkey and you'll take the buzzard."
 The turkey has been paroled a long ago and the Charleston News and Courier & Co., have gone in with Tillman to dispose of the other fruits of the hunt! Charleston will make a battle for the bird held sacred on Market Street in that city.

The Head of the "Headlight."
 Congressman elect Wilson rushes to the arms of an Atlanta Constitution Interviwer and, aims his volubility.

Digested, what he says, means: We are Democrats in South Carolina; the party is split into factions; this is a happy and lovable condition; the restoration of peace is to be deplored; the other States are similarly situated, and should not excel them in love; Tillman know his love feast with the Barnwell-Humphill aggregation was a sound and nothing more; nothing will come of it; nine days of talk; let the Democratic party stand statu quo in the State, with a big faction and a little faction; the big faction to suggest office holders and the little faction help elect them. Strip of verbiage to his honest expression in this little unpretending talk. Business is business.

The Fifty-third Congress expired at noon yesterday by limitation. The funeral of a butcher is thus painted: There were but two mourners attending the hearse—his assistant, who got the heads and livers of the victims and his faithful bull dog who gloated in their blood. The ox, the grunter, the he goat, and the lamb swelled the funeral procession with music, and frisking and dancing, making a joyful wake of the event. Chanticleer, perched high upon the inkly vehicle crowed long, clear and lustily.

The Fifty-third Congress, assisted by financial cranks, and Southern and Western Populists bloodily butchered the Democratic party last November.

Byron as a boyish folly inflicted his "Hours of Idleness" upon the public—A swarm of critics, like bees, peeped him from all corners of Britain. In inspired rage he "vollied and thundered" back with "English Bards and Scotch Reviewers"—"go little book"—and avowed to find his name immortal. According to Tom Watson Judge Cobb was in an advanced convivial state when he addressed his now famous inquiry to the speaker, but conditions have contributed to make his innocent phrase the most popular of the time. "Where are we at?"

There are eight hundred men in Laurens County who are as refined gold without flaw or blemish, as steadfast and fast to honest democracy as the needle to the pole. They have been kicked out of the councils of the so-called democratic organization for more than four years. When they find that they can unite with their fellow citizens on fair and equal terms, they will join hands and purposes: until they so find, they will reserve their strength, pigmy or giant, and place their votes where honesty dictates.—They will no longer pull hot chestnuts—be monkeyed with, don't you see.

"The poor white men" in this State need no guardians. They had better manage their own political estates through their ballots. Better have no trustees. Remember the case of the old man who had proposed to will his estate to John and Bill, his sons, and to make John Executor.
 "Bill": "Well, father, why not will the whole estate to John and make him the Executor."

In the hands of the present State Printers, favorites and favored of the Powers, the Acts of the last session of the General Assembly are slow to appear. The people ought to know what the laws are. The State ought to be more generous towards those to whom jobs are given and thus ensure promptness.

It is narrowing down to these points: **Mr. Tillman, make Irbly or Irbly Tillman, unmake Irbly or Irbly Tillman.**

Hissell resigns as Postmaster General and Wilson, author of the Tariff Law, takes his place in the Cabinet. Cleveland has judgment as well as luck.

And now they are "suggesting" Governor Tillman, "been named,"

AYER'S Cherry Pectoral
 SAVED HIS LIFE

My dear Mr. T. M. Reed, a highly respected Merchant of Middletown, Ill., of a Young Man who was supposed to be in Consumption.

"One of my customers, some years ago, had a son who had all the symptoms of consumption. The usual medicines afforded him no relief, and he steadily failed until he was unable to leave his bed. His mother applied to me for a remedy and I recommended Ayer's Cherry Pectoral. The young man took it according to directions, and soon began to improve until he became well again."—T. M. REED, Middletown, Ill.

"Some time ago, I caught a severe cold, my throat and lungs were badly inflamed, and I had a terrible cough. It was supposed that I was a victim of consumption, and my friends had little hope of recovery. But I bought a bottle of Ayer's Cherry Pectoral, took it, and was entirely cured. No doubt, it saved my life."—L. JONES, Emerts Cove, Tenn.
