LAURENS, S. C., July 9, 1895. An election takes place all over the State on the third Tuesday in August does not take on an organized form, for delegates to a Constitutional Con- they the antis, conservatives, or opposvention. It so happens that a feeling | ition faction are logically in what may prevailed for some time that it would be best that the white people of the In fact, there is no conservative party, State should cast a united ballot for and therefore it cannot take action or delegates to that convention. The reasons for this wish were and are patent; notably that the white people in all political matters for thirty five years | SER is frequently quoted as advising had shown a solid compact front. It was this or that in the emergency of putso in 1860 and it was so in 1876, and un- ting candidates in the field to repretil the advent of Tillman. With Till- sent this county in the approaching man came, it seems, irreconcilable di- constitutional convention. The ADvision into factions. This factional di- VERTISER desires to be perfectly unvision is a fact and must be so regarded and as a fact it cannot be avoided. As we have before urged the moderate men in every county in the State have deprecated the conditions existing, and have made patriotic appeals that the factional warfare should cease. It was considered that if the division al! the people and for all time presuwalls were broken down in the emergency of choosing delegates to the to work. Naturally, the machinery of constitutional convention, there would probably follow an era of a united white people s before the assault of Tillman colleagues, upon their own hou. gold. For a time appearances indicated that the desired restoration of harmony and union would be accomplished. It would now seem that the hope of the moderate men in the State and the States best well-wishers of peace is not to be desired. We are not surprised. Peace would imperil the chances of many bosses for the spoils of office and they therefore de-

is by no means to be realized. The majority faction pronounce unmistakably, by the action of a number of counties in the last two weeks that a restoration the war perpetual. The majority are in a position to name terms -whether it shall be peace or whether it shall be war. In the meanwhite a curtous state of things exists. The minority are excluded from the councils of the majority and denied participation in the honors and offices in the gift of the organization. But this is not the eccentric point. They are told that they must go no where else; form no other association; remain hewers of wood and slaves to the dominant element, or be denounced as independents, traitors and enemies of the white man. Like dogs they are to be beaten and lashed and as dogs lick their masters. They are not even as Lazarus to have the crumbs from the rich man's table .-Since I890 this has been the condition. And we urge as a matter of history and undeniable fact that, there has been no choice with those who opposed the nomination of Tillman in 1890. Those who supported Earle, Bratton, Sheppard and Haskell have been classed and excluded from all share or participation in the control of the socalled democratic organization. They are not wanted; and they are wanted. They are told that they must march up to polls and vote like little men for the nominees selected by the bosses of those who declare themselves as the organized democracy. This is a fair statement of the case, as we hold in South Carolina. In Laurens County there has been less pretence of recognition of the anti element than in any county in the State, Now then what under these circumstances, are the Anservatives to do in reference to the

the Constitutional Convention? To be more accurate, the choice of andidates by a primary which is in fact the election, we answer; hands off, and for these reasons:

approaching election of delegates to

First: A partizan or boss vote will pertainly be cast; the majority vote will be cast by dictation; qualification, moral or intellectual will not be considered; men will be set up as straw candidates to be voted for whose views on the provisions of the proposed constitution are not known, or who have no views other than the boss' ideas, and this will be as clear as the noonday sun by only four candidates offering. these candidates selected by bosses whereas; in an open primary it is fair to presume that a number of party men would aspire to represent the party. Second: The anti faction has no ma-

chinery by which to select a share of the managers as provided, and it is not likely to have; there is no leader or leaders, of the socalled antis, there is no organization and there does not appear any probability of any. Third: If under these circumstances

you vote in the primary you truly join the dominant faction, adopt all its policles, past, present and future and are bound by, its action. You thereby pledge youself to stand by whatever constitution is framed although you are blind as a bat as to what is proposed, (you not being in the secrets of the dominant leaders) whether your State is to be ruined or not.

Fourth: If there were hope of your vote amounting to anything-that is, if there were a dozen candidates and not a packed ticket, then you might rote; but as it is 99-98-100 to nothing that you have to vote a prescribed ticket your vote is a sham. Even if your man is chosen, it is a choice of

your master prescribed to you.

Wifth: This election is not a party ction; the democratic party has Latest Decision hing to do with it as such, if you be ueamish or tenderfooted, about

our party connection. Sixth: The test of a man's party legiance is tried only when he votes gainst his party. In the primary othing but socalled democrats can ote and if you don't vote, you have aly helped a good set of democrats to

me the candidates. Seventh: When the election comes August you still have your chance f you have a registration ticket) and n vote for any ticket you please.

While as a matter of fact the opposition to the Tillman Faction or socalled democratic organization in this State, be the Democratic party in this State. be held responsible for anything, as it cannot be found. This much we say, as we have heard that THE ADVERTIderstood. The Irby committee had no jurisdiction to handle the matter. It had under the rules of the party no jurisdiction except to manage and direct the party machinery in elections when as a party it should be antagonized. In making a constitution for mably, we do not put party machinery the party being at hand, it would be available for convenience, and we do not quarrel with it. It is as it is. But no democrat is bound by it. Act as he pleases, vote or not vote in the primaries, run for the Convention or vote as you please, your party allegiance is not involved and cannot be questioned.

#### Hard Lines in Newberry.

Thieves raided the potato patch of Brother Aull, editor of the Newberry Herald and News. It is getting tight times in Newberry. Brother Aull is on the war path and threatens the "Mississippi plan" along with Senator Tillman. There is little choice between a \$3.00 poll tax and a shot-gun.

Laurens has challenged our base ball boys for a game in the near future. They are to play home talent. We are glad of this, for we don't want to see any more importations along this line. We hope to report a victory for our boys.—Press and Reporter (Prosperity)

At some sort of a mongrel how-dy-do at Edgefield, Senator Tillman and ex-Governor Sheppard were present .-Gov. Tillman acknowledged, with a dodge, that it was he who proposed a three dollar poll tax for the coming convention. That will disfranchise twenty thousand poor white men in this State.

That weaklings should be found in Spartanburg County in such flocks is a fair commentary on the times.

That the Jury of inquest in the Constabulary slaughter of citizens did not bring out the facts and find a verdict cus surfaces of the system. Send for is discreditable.
