EDITOR ADVERTISER.—In your issue of the 22d inst. in speaking of the South Carolina College, you say one hundred and sixty-two is the largest attendance for years. By referring to the catalogue for 1895-'96 I find the attendance for that session was one hundred and eighty-four. But there should be at least five hundred students in this college. Let its friends exert themselves. While its opponents are active and vociferous in their denunciation of it its friends are passively silent. If this grand old institution is to remain the people must be acquainted with its advantages and workings, and you, Mr. Editor, are the man to let the people of Laurens county know what this college is, and what it is doing. Examination for admission to this college will be held at every county seat in the State August 13th. Let the Alumni and friends of the college see to it that the attendance for 1897-'98 from Laurens county is larger than ever before. Respectfully, B. J. WELLS, Cross Hill, S. C., June 26, 1897.
