TO SUBSCRIBERS A great many of THE ADVERTISERS subscribers are in arrears...

During the year we have endeavored to give you the worth of your money. Your county paper publishes news that you can get in no other paper.

We have been indulgent—too much so, in our opinion. On the first day of March we expect to stop sending the paper to those who have shown no disposition to pay anything this fall.

SHALL WE HAVE BASEBALL.

Now that the baseball season is drawing near, the question is being asked if it would not be much better to go down to the ball ground and sit in the shade and look at a good game of ball than to try and kill time on the square during the hot summer afternoons.

There is more Catarrh in this section of the country than all diseases put together, and until the last years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable.

Special attention is directed to the call of M. A. Sumner, President of the County Alliance.

Candidates are a little slow to show their heads. Only one fellow citizen has told us he would be in the field and only one that he would not.

Miss Mary Butts, a daughter of Rev. Butts, died on the 21st at her home, Fountain Inn. She was an accomplished and lovable young lady, endeared to all who knew her.

The order of United A. Mechanics celebrated their anniversary on Saturday evening last with a beautiful banquet and delightful assembly. We regret a previous engagement forestalled our attendance in obedience to a kind invitation.

"Am I my brother's keeper." This was the subject of a beautiful sermon preached on Sunday last at the Methodist Church by the Odd Fellows by Rev. R. H. Jones the pastor. The unity of the human race, the fatherhood of God, and the brotherhood of man were leading thoughts of the able discourse. The leading scientists are coming back to the Genesis of the bible.

Miss Jackson, of the Cotton Mill Store, arrived from the North yesterday. For several weeks past she has been in New York and Baltimore and comes thoroughly up in all the latest devices in the construction of admirably hats and bonnets. BREWERTON.

We were somewhat disappointed when we received our ADVERTISER this week and found no news from any of its correspondents. Let us divide up and write alternately and not all write the same week. We are as busy as any man, but we will send in the news every two weeks.

A good many of our people went over to Due West on the 11th inst., to hear Hon. W. J. Bryan. Among the number was old father, Louis Martin, who is in his 77th year.—They were well pleased with the appearance of the man and his speech. We learned however, that there were some who were not so well pleased, as they did not get to hear him for the lack of 50 cents, or the disposition to give—one or the other.

Mr. W. D. Washington and family of Owensville, were the guests of W. S. Knight on Saturday and Sunday last.

Dr. Ball of your city, was in our neighborhood last week on professional business. And by the way, there was a certain widower who lives not far from your city, around in this community Sunday. I guess he was an important business from the distance he came.

Dr. J. O. Martin preached two very interesting sermons at Mt. Gallager church on last Saturday and Sunday to a large and orderly congregation. Before preaching on Sunday the door of the church was opened for the reception of members and two were received by letter.

The farmers are hurrying to be ready to plant, and some have planted corn and others are ready to plant when the land gets dry enough.

If Uncle Sam gets into a fuss with Spain we had better plant our cotton land mostly in corn.

Wheat and oats on a boom now—growing since the late rains. ON DIT.

REEDY GROVE DOTS.

On the night of the 5th inst., the closing exhibition of the Reedy Grove public school was held. Quite a large crowd was present, the children did themselves credit by acting their parts well, and the audience showed their appreciation by their exceptionally good behavior. Upon the whole we had a very enjoyable occasion.

Mr. W. A. Anderson has been very sick, but we are glad to say, he is now a great deal better.

G. W. Hughes, who has been lying very low with pneumonia, seems to be slowly recovering.

Johny R. Crawford, son of Mr. J. A. Crawford had the misfortune to get his right eye severely hurt on the 18th inst. while playing ball.

We are sorry to report the death of Mr. and Mrs. John Davenport's baby. They have the sincere sympathy of their many friends and relatives in their bereavement.

Mr. Oxner and family have moved into a house located near where Mr. G. W. Hughes lives.

Mr. John Davenport and family have moved into the house formerly occupied by Mr. Walter Madden and family.

A subscription school taught by P. J. M. Osborne will begin at Reedy Grove school house on or about the 21st inst.

Miss Davenport, daughter of Rev. Pinkney Davenport, of Mountville, was visiting relatives in this neighborhood recently.

The farmers are getting their land nicely prepared for another crop of cotton. You Know.

RAPLEY'S DOTS.

I was glad to see that my last little contribution did not find its way to the waste basket. It is a great pleasure to write and then read the news from the different parts of our county and State. But an old farmer don't find much time for the real enjoyment of life—that is to feel himself a gentleman of leisure for there is always something on the farm to keep a fellow hustling. Of course there are some pleasures with the toil—sometimes just enough to enliven life and encourage us just a little—or in other words enough to encourage us to raise a little cotton. But I do not believe that we ought to grumble, because all of us have something to be thankful for and our condition could be much worse. Life is short, so we must go along doing our duty, and making the best of it. But I dare say that the farmers, merchants and all classes will gradually enliven as the approaching campaign draws near. The by-ways and high-ways will doubtless be filled to overflowing with candidates for the many offices, and the same old song that has been echoed and re-echoed throughout the past ages—"Howdy, howdy do, how's your wife and how are you?" will be heard at the many gatherings. The candidates! God bless them! They are a good set of fellows generally and we earnestly wish that all could be elected, but it is mighty hard to tell who the lucky man will be in politics. We know that patriot's burns in many noble hearts of Laurens county and many of them would make splendid officers, but salary helps them or rather encourages them to make good officers. If it were not for the money in these offices there would indeed be few candidates. So we see that it is the salary and the patriotism mixed that makes us such good men. But our county, yes, dear old Laurens is the banner county of the State.

Everything around our little village is calm and quiet. People busy hauling fertilizers and heels-over head in work.

Our friend and neighbor, Mr. Jasper DuPre was married a few days since. Mr. DuPre has won a most excellent lady and we heartily congratulate him and gladly welcome Mrs. DuPre to our little village. Mr. DuPre is a most estimable gentleman and we are glad that he has taken this step. God has said, "it is not good for man to live alone." Some of the bachelors around town will doubtless follow this example.

We are very much pained to learn of the serious illness of Miss Mary Butts, daughter of Rev. J. W. Butts, formerly of our town, now of Fountain Inn. We sincerely hope that she may soon recover.

Rev. D. P. Boyd preached a splendid sermon on last Sabbath to a large and appreciative audience. The Lord's Supper was also administered.

Good luck to THE ADVERTISER.

A GREAT INDUSTRIAL CONFLICT. The coming year is to be remarkable for an intense industrial conflict between the most advanced nations. It has already begun between Germany and England, and the obvious gains of the former are ascribed chiefly to her system of industrial education. The government has established, and it maintains trade schools in every section for the special training of future workmen. Reports on the work of these schools and reports from British consuls as to the enterprise of German manufacturing agents seeking new markets have raised almost a passion for industrial training in England. It is urged that in the matter of machinery, no nation can have any permanent advantage; and that while English workmen are superior to the German for the moment, it is because they have been better paid, a condition that cannot continue when the rivalry for cheapness of production becomes sharper. Therefore, the tide of battle will turn in favor of the nation whose workmen have had the best special training.—Washington Post.
