WATERLOO, May 2 .- Having been over portions of Cross Hill and Waterloo Townships during the past few days, we send you the substance of

what we have seen and heard. We came down here for the purpose of, as our old friend Adams used to say, "haul out the strouts"-but navy

The old slave-time darkies down here seem well posted on Senator Hanna's bill to pens!on them. One old fellow asked me to look after his pension when I went back to town.

We were in the town of Cross Hill a day or two since, for the first time in several years, and were forcibly impressed by the strides of progress since our last visit. This town is bound to be heard from in the future. Its merchants, (thirteen of them), are wide-awake, progressive men. They have a beautiful new Church, which is an ornament to the town. We had the pleasure of shaking hands with our old friend Rev. Jodie Martin, and a chat with ex-Mayor David Burnside, and many other old friends.

Farmers are needing a little rain. Most of them are badly behind in cot ton planting, owing to the wet weather of the past month or two, and for the past week the sun has formed a hard crust on a good deal of the land.

### THE LAST ROLL CALL.

[BY A VETERAN.]

To My Old Comrades of the Confederacy:

Again we come together to answer to the roll call. Many a time that roll of honor has been called, on fields of earthly glory. Hundreds of thousands of the names of heroic men have been transferred from earth to a fairer country. They fell by our side in the thick of the fight, or expired in prisons, camps and hospitals. It is well to honor their memory and celebrate their heroic deeds for the Lost

But the ranks grow thinner still, as time sweeps down those whom God's mercy spared the death of the battlefield.

And those which yet remain to answer to the roll-call of veterans carry with them the marks of their glorious achievements. These badges of earthly honor and glory are also evidences of the

Divine mercy which has spared and preserved. Let us reflect upon the goodness of God, which has spared us for other service and let us sanctify our remaining days to the service of the Lord of all, that when the roll is called in heaven, we shall no longer stand in decimated and ever diminishing ranks; but shall enter a joyful reunion and delight in an eternal comradeship with those who fought a good fight and kept the faith.

## When the Roll is Call Up Yonder.

When the trumpet of the Lord shall sound, and time shall be no

And the morning breaks eternal, bright and fair; When the saved of earth shall gather over on the other shore, And the roll is called up yonder, I'll be there,

CHORUS.-When the roll is called up yonder, When the roll is called up yonder, When the roll is called up yonder, When the roll is called up youder, I'll be there.

2 On that bright and cloudless morning, when the dead in Christ shall rise, And the glory of his resurrection share; When his chosen ones shall gather to their home beyond the skies, And the roll is called up yonder, I'll be there.

Let us labor for the Master from the dawn till setting sun, Let us talk of all his wondrous love and care. Then, when all of life is over, and our work on earth is done, And the roll is called up yonder, I'll be there.

# WHITE STONE LITHIA WATER

Is the lightest water on the market. We realize that this is claiming reat deal, and we could not afford to make this assertion unless we knew that its merits and to let your boy follow ve could prove it to be true. But it does not take an expert to test the softness of a Mineral Water. When carbonating a mineral water, if it is a hard water the gases will not be absorbed in the water, and when the bottle is opened, the gases escape, and the water is left flat and hard, while if it is a soft water, like WHITE STONE LITHIA, it will retain its gases for hours after being un-

Read what some prominent persons you know have to say of the merits of the WHITE STONE LITHIA WATER:

Laurens, S. C., Sept. 10th, 1902. . T. Harris, Esq ,

White Stone Spring, S. C. Dear Sir:-- I am using White Stone Lithia Spring's Water and am very much pleased with results. I think it the best I have used. Yours very respectfully,

O. B. Simmons.

White Stone Springs, S. C.

Dear Sir:-I take pleasure in saying that my family received great benefit from the use of White Stone Lithia Water. I can heartly recommend it to any one in need of a heathful Mineral Water.

White Stone Spring, S. C.

Very truly, J. O. C. Fleming. After a service of one season at White Stone Lithia Springs, as resident physician I do not hesitate to say that the effect of the water upon those who drink it for any length of time, has been perfectly marvelous. Invariably an increase both in flesh and apposite was percentible in one weak ably an increase both in flesh and appetite was perceptible in one week, proving it to be a mineral water of undoubted powerful tonic property. Its peculiar adaptability to diseases originating from disorders of the kidney, bladder and liver, such as Dropsy, Bright's disease, Diabetes and uric acid calculi, and all forms of Dyspepsia, Rheumatism and Gout, is to be expected from the splendid analysis. It has been noted frequently that visitors before coming here had to follow every meal with some form of corrective, or confine themselves entirely to predigested foods; soon discard these entirely, being delighted to find that the water alone—nature's own remedy sufficed. Of the many who drank this water this season for ten day consecutively, not one but experienced decided benefit and a perceptible gain in weight, varying from two to five pounds.

That's What "Old Gorgon Graham" Calls Speculation

From "Letters From a Self Made Mer-chant to His Son," by George Horace Lorimer

TRADING ON

NOTHING

Now, I want to give you that tip or the market. There are several reasons 'change just now, but the particular if you do. Trading on margin is a good deal like paddling around the edge of the old swimming hole—it seems safe and easy at first, but before a fellow knows it he has stepped off the edge into deep water. The wheat pit is only thirty feet across, but it reaches clear down to hell. And trading on margins means trading on the ragged edge of nothing. When a man buys, he's buying something that he hasn't got. And

it's been my experience that the net

profit on nothing is nit. When a specu-

lator wins, he don't stop till he loses and when he loses he can't stop till he You have been in the packing business long enough now to know that it takes a bull thirty seconds to lose his hide; and if you'll believe me when l tell you that they can skin a bear just as quick on 'change, you won't have a board of trade Indian using your pelf for a rug during the long winter

months Because you are the son of a pork packer you may think that you know a little more than the next fellow about paper pork. There's nothing in it. The poorest men on earth are the relations of millionaires. When I sell futures on change they're against hogs that are traveling into dry salt at the rate of one a second, and if the market goes up on me I've got the solid meat to de liver. But, if you lose, the only part of the hog which you can deliver is the squeal.

I wouldn't bear down so hard on this

matter if money was the only thing that a fellow could lose on 'change. But if a clerk sells pork and the market goes down he's mighty apt to get a lot of ideas with holes in them and bad habits as the small change of his profits. And if the market goes up he's likely to go short his self respect to win back his money. I dwell a little on this matter of speculation because you've got to live next door to the board of trade all your life, and it's a safe thing to know something

Tips and Dead Cinches will come running out to meet you, wagging their tails and looking as innocent as if they hadn't just killed a lamb, but they'll bite. The only safe road to follow in speculation leads straight away from the board of trade on the dead run. Of course the board of trade and every other commercial exchange have heir legitimate uses, but all you need to know just now is that speculation

by a fellow who never owns more pork

at a time than he sees on his breakfast

about a neighbor's dogs before you try

to pat them. Sure Things, Straight

plate isn't one of them. When you become a packer you may go on 'change as a trader; until then you can go there only as a sucker.

**BOYS AND PUPS** 

Sometimes the Likely Ones Turn Out

Boys are a good deal like the pups they don't always turn out as repre sented. You buy a likely setter pup and raise a spotted coach dog from it and the promising son of an honest butcher is just as like as not to turn out a poet or a professor. I want to say in passing that I have no real prejudice against poets, but I believe that if you're going to be a Milton there's nothing like being a mute, inglorious one, as some fellow who was a little sore on the poetry business once put it. Of course a packer who understands something about the versatility of cottonseed oil need never turn down orders for lard because the run of hogs is light, and a father who understands human nature can turn out an imitation parson from a boy whom the Lord intended to go on th board of trade. But on general principles it's best to give your cottonseed oil a Latin name and to market it on his bent, even if it leads him into the wheat pit.—From "Letters From a Self Made Merchant to His Son," by

George Horace Lorimer. PLAIN PROOF. What This Gentleman Says is a Mere Statement of Facts.
