

# See Us For Printing

**WE** are now better prepared than ever before to execute your orders for all kinds of printed matter. We have just put in a lot of new type. Our presses are now run by electricity, making it possible for us to complete an order in the least possible time

We carry an up-to-date and complete line of the different grades of stationery, from the cheapest to the highest grade manufactured, and we can surely give you a paper that will please you. Our prices are right, if they were not we could not be securing orders from all the surrounding towns, as we are now doing. These out of town customers, too, are duplicating their order--this shows they are pleased with the quality we give and the price we charge.

We can sell you engraved cards, wedding invitations, and embossed stationery cheaper than you can order them yourself.
