**WHAT PROHIBITION WILL DO.**

This is from the Spartanburg Herald:

"The figures that have been printed from time to time of the jug shipment to Spartanburg via the Express company, while it may signify that other things than water are imbibed here, should not be construed as meaning that blind tigers are flourishing. This is not the case. It is extremely doubtful if there is any city of the size of Spartanburg anywhere, which has prohibition or restrictive measure as to the sale of liquor, where the law is more rigidly enforced, or where there is a more salutary restraint on illicit traffic in 'booze' than here. The mayor and the city police co-operate heartily and vigorously with the local constabulary in repressing liquor selling, and not a guilty man escapes where the case is quickly made out. The rumor that there are a half dozen tigers in Spartanburg is an exaggeration. The police and the state constables are unable to locate one."

There are a few persons who imagine that prohibition in Spartanburg and in Laurens will cause the drinking of whiskey to cease but they are persons lacking in ordinary intelligence. So long as whiskey can be imported from Augusta and elsewhere some will be imported—in fact a good deal will be imported.

But does any man think it will be as easy to import whiskey as to send a negro across the street to the county dispensary and buy it?

Will the negro laborers generally import whiskey from Augusta in anything like the quantities that they buy it from the Dispensary?

Even though a few sneaking tigers manage to live, the amount of whiskey consumed will be vastly decreased.

But there must be no "tigers" when we have prohibition. Mayor Richey and Chief Bagwell and his assistants will keep them out of this town. They are kept out of Spartanburg and Gaffney.

**THE LATE MR. A. H. MARTIN.**

The late Mr. Ambrose H. Martin was a loyal friend and he was not to be shaken from his beliefs. He was a rarely shrewd man—a man of penetrating mind and one about as difficult to fool with any kind of sham as any likely to be encountered. He was blessed with a fund of dry humor and he was good company. He was modest and did not ask favors of the public but he contributed of his means to building mills and other establishments and so he assisted his fellow citizens. He brought up a large family well, he was devoted to his Church and he met his obligations promptly. There was no pretense in his composition. Moreover, he was a man of individuality; though he had not a college education he had a quaint way of saying things that made them stick. He will be long remembered and we wish that Laurens could have more like him. To the writer he was always an interesting man, he was one of our friends and we honor his memory and mourn that he has gone.

**THE PROPOSED NEW COUNTY.**

Commenting on remarks of THE ADVERTISER about the proposed new county The Columbia Record says:

"There possibly may be one or two counties in the State too large for the convenience of a large part of the population, but the general condition is otherwise. The desire for office is too often the motive back of the agitation for new counties."

In 1875 the distance from this town to the nearest railway station was 30 miles. In 1906 every section of this county is within fairly convenient distance of a railway except perhaps Sullivan township. That section is not very far from the Columbia and Greenville Road but the Saluda is a barrier. A new county would not help it.

In the winter of 1881 a Laurens jurymen dwelling within a mile of Fountain Inn required from four to six hours to come to the court house. In 1906 that jurymen makes the trip in thirty minutes. In 1881 no telephone lines made quick communication to most of this county possible. Mail was carried twice or three times the week to farmers instead of daily. In 1881 there were no free rural delivery routes.

In other words, in the old days when travel and communication were arduous and slow the arguments for small counties, all points of which would be close to the court house or near the center, were strong. Improvements in these matters have removed about ninety per cent and left about ten per cent of the force of the new county argument. The Fountain Inn man lives closer to Laurens now than the Thomas's Cross Roads man used to live—much closer. Both are in talking distance now. Thomas's Cross Roads had better claims to be the center of a county in 1880 than Fountain Inn has now.

If Fountain Inn should become a court house town it and the country surrounding would be one of the richest of the counties in South Carolina.—Therefore it should be respectable from the start. The county should have a court house and jail equal at best to those of Spartanburg and Greenville. Therefore Fountain Inn should be willing to invest at least \$75,000 to \$100,000 in these buildings and other county institutions. A \$25,000 court house would be unworthy of such a county. To build it would be a waste, for after a few years the people, ashamed of it, would tear it down and build another. Modern public buildings cost money. The new court house in Sumter is to cost about \$75,000, including the lot, we believe, and the Camden court house is to cost \$40,000. Times have changed in these matters since Greenwood and

**Gaffney became court house towns.** If Fountain Inn aspires to be a county seat all right, but Fountain Inn should not make a cheap bid. Let the town and the people do the thing right, taxes or no taxes, from the beginning.

Seventy-five thousand dollars will macadamize three highways for a distance of eight miles from Fountain Inn. The extra expense of running a new county would perhaps build five miles of permanent road each year. If Fountain Inn people and the people in the proposed new county territory must have it. We would regret this step because we think that at this time and in that locality a new county would be a waste of money—but we would not interfere if we could. Nevertheless, we are sure that the shrewd, level-headed men of the best rural communities in Laurens, Greenville and Spartanburg Counties will consider well and not be led into hasty action.

A new county will cost money—not one year but forever and all through the years.

In this instance, is it worth the money?

One other point: a court house and a jail do not constitute a city. The court house town is not the leading town even in all the counties of this State. In such counties as Dorchester, Chesterfield and York the court house towns are smaller than Cheraw, Summerville and Rock Hill. In Oconee, Pickens, Lexington, Beaufort, Williamsburg, Barnwell, Edgefield and Marion the court house towns have little advantage over other towns within their borders. A few years ago Clinton wished to have a court house but was too close to Laurens for a constitutional county to be carved out. Meanwhile Clinton's population has come to be nearly as large as that of Laurens.

Fountain Inn town might pay dearly for a whistle or buy a gold brick.

A hundred years ago a court house was a good stake to build a town around. In these days a mill or college is better and pays larger dividends.

**AS TO JUDGE THOMPSON.**

The Herald of last week contains this card from "Non-Factional":

"Now that the candidates have begun to announce for the different offices would it not be well to suggest that Judge O. G. Thompson, who has been a faithful public servant, in decided as well as in name, be allowed to succeed himself as, in all probability, because of declining health, he will not be a candidate again. This is said in no disparagement of others, but in recognition of the public. But few men in public life have had so little friction in the administration of law. In view of his age and the chances of physical decline, many people, without regard to faction, would like to see this faithful public servant given another term without office. It would be a compliment well deserved, and a graceful act to an efficient officer and a battle-scarred veteran to let him go over without opposition."

I wish I could have signed my name to the card under "Non-Factional." I am writing as a former Laurens man, not as a newspaper man. I do not know who, if any one, will offer against Judge Thompson and I have always been opposed to him in politics but for the reasons given by "Non-Factional" and because he was a brave soldier I guess I would vote for him this year if I could have the opportunity.

The former factional differences ought not to have cut any figure in the election of county officers except legislators. What matters it whether a "Tillmanite" or an "Anti" or "Prohibitionist" or "Dispensary" man be the officer to pass on the validity of wills? A high license man may be as good a clerk of court as a Dispensary man or a "Haskellite" might be as good a sheriff as a "Conservative" or a "Tillmanite" might or might not have proved better than either. The truth is that the less active in politics an administrative or judicial officer is, the more efficient he is likely to be. Judge Thompson has proved his efficiency and we hope that Laurens county will always choose good men regardless of their factional or former factional alignments.

**To the Trustees of First Baptist Church.**  
 Gentlemen: We want to donate some L. & M. Paint to your church whenever they paint.

The largest Methodist church in Georgia expected to use 100 gallons of the usual kind of paint, they only used 32 gallons L. & M. mixed with 24 gallons Linsed Oil.

It costs less to paint a house with L. & M. than with other paint, because painter mixes Linsed Oil fresh from the barrel at 60 cents a gallon with L. & M., and doesn't pay \$1.50 per gallon for Linsed Oil as does if ready-for-use paint is used. Also because the L. & M. Zinc hardens the L. & M. White Lead and makes the paint wear like iron.
