Then H. H. Watkins Esq., of Ander son, the specially invited orator of the day, was introduced. In anticipation of him our expectation had been raised and we were not disappointed. Space utterly forbids a proper notice of his effort. He was born and raised in this neighborhood and his reference in openmg to the scenes and memories and tombs of this his old home was full of eloquence and pathos. Then his handling of the times and story of the Confederacy was able and eloquent. His elaboration of the legal justifica

At the close of this speech a most bounteous dinner was served and everybody got plenty to eat.

In the afternoon, Miss Nance of the South Carolina Educational Department made an address upon rural schools that ought to be repeated to every man and woman in this country who feels the least bit of interest in the education of their own, or their neighbor's children or in the salvation of this country.

It is difficult to see how any man (a woman could'nt do it) could hear Miss Nance and go away, and drawing himself up in his shell, oppose a 2, 3 or 4 mill tax, and fail or refuse to then go down in his pocket to supplement that, to build up the country schools; to save us from the calamity of a poor teacher and to furnish some means to build some school houses in place of some of these unsightly old barns now in use.

The Spartanburg Herald of Puesday contained the two following items o interest to Laurens:

Mr. W. S. Gray, of Woodruff, will head a company to be organized this week and to be known as the "W. S. Gray Company." This company proposes to build a mill two miles below Van Patton Shoa's. Just how many looms and spindles will be run can not be said now. The mill building will be 75x325 feet; and three stories high.

CROSS HILL SCHOOL HOUSE. J. S. Reed, of Newberry, has the contract for building the proposed \$7,000 school house at Cross Hill Laurens county. The building will be sixty by eighty feet, three stories high, and D. D., F. Y. Dendy, D. D., and other tions to carry them to the better half. built of cement blocks. My. N. O. ### FINE CORN CROPS ABOUT PRINCETON.

Williamson Plan" Adopted by a Numbe of Progressive Farmers---Masonic Picnic --- Other Items.

Princeton, August 13-Reports go up from almost every section about the fine crop prospect. In this locality they probably present a better average than in a number of years at this season Both cotton and corn are about as good as the most fovorable conditions could make them. They have not suffered for rain and did not lack for the proper cultivation. It appears that every farmer has vied with his neighbor in making the best crop. Especially is this apparent in the present crop of corn. The oldest farmers around here will tell you they never saw the promise of larger yields of corn in this section be fore. A verification of this claim is to uest of Mrs. B. F. Posoy a few days be seen by looking over the crops of Capt. J. B. Humbert, Mr. M. B. Mc Cuen, Mr. F. L. Bramlett, Mr. J. W. Taylor, Mrs. J. K. McCuen, Mr. J. T. Machen and numerous others.

As stated, the season has been unus. ually good, but many will concede the present stimulous in corn growing to the "Williamson Plan." While a great number have adopted the new method in part, Capt. Humbert has given the Mr. J. M. Clardy of Greensboro, N. plan a very thorough test on eight acres in a fourteen acre field. The William plan a very thorough test on eight acres son idea was followed in the prepara-Miss May Smith of Union visted tion and fertilization of the entire field but on six acres the "Humbert plan" was observed in the cultivation. And when the report for THE ADVERTISER is made of the harvest, as now contemplated, the indications are that the larger yield will be made per acre on the six acre portion. However Capt. Humbert is satisfied with results so far and Rebecca Clarke leave to-day for a on the "Williamson" part of the experiment. The crop is practically made. All of it is of the Minter variety of

It is expected that the Masonic pienic at Mt. Bethel next Saturday, August 17, will attrict a tremendous crowd.
