Mr. Featherstone Interviewed

Greenwood, March 25.—Hon. C. C. Featherstone, of Laurens S. C., passed through yesterday, and while here was questioned as to his attitude on the matter of prohibition in the coming campaign. Mr. Featherstone stated that he was for prohibition without any provisos or conditions to it. In connection, he stated that he had made his position clear about a month ago, when he stated that he was for straight-out prohibition.

Mr. Featherstone stated that four or five months ago he gave an interview on the subject, advocating for the present the enactment of a law making the entire State dry, but permitting counties where prohibition sentiment was weak to vote on the sale of whisky. Continuing, he said: "A great majority of my prohibition friends in the State endorsed my views."

"I stated in that interview that, of course, what we ultimately sought was ironclad, State-wide prohibition; and, further, that in my judgment the time was not far off when the State would be ready for it; and, further, that when there was sufficient public sentiment behind it, I would then be in favor of State-wide prohibition."

"Since giving out that interview I have been in close touch with prohibitionists throughout the State, endeavoring to ascertain the present strength of the sentiment and making diligent inquiry as to the enforcement of the law in dry counties. I have also been studying the reports of the dispensary auditor, and to my amazement I find that the county dispensary is selling almost as much liquor as did the old State dispensary when it was in full blast. They sold in the last year three million dollars' worth of liquor. In addition to this, I find that the dispensary counties are selling tremendous quantities of whisky to contiguous dry territory."

"In this state of affairs I have determined to stump the State this year, advocating straight-out prohibition. The only way to find out the strength of the prohibition sentiment is to submit the question squarely to the people. If a majority of the people are in favor of State prohibition then we will give it an honest, fair trial."

"The prohibitionists of the State are not fanatics; but, on the contrary, are sensible, practical men. If the practical workings of a State prohibition law should demonstrate that it was impossible to enforce it in certain counties where the sentiment is weak, then it will be a very easy matter to tack on a local option feature permitting those counties, under the most rigid restrictions, to vote in the sale of whisky. Sufficient unto the day is the evil thereof."

"What we want," continued Mr. Featherstone, "is to give a general prohibition law an honest, fair trial. Mr. Featherstone said in regard to the present law: 'We have a substitute for the old dispensary law that is nothing but a reproduction of the old system on a smaller scale.' In time he thinks this substitute will develop all the bad features of the old law. He also said that so far as he was personally concerned he would prefer not to run this year; but his prohibition friends insist that the time is ripe, that he agrees with them as to conditions, and that he feels he must respond to what he regards as a great moral obligation."

He stated that he hoped the question of prohibition or no prohibition would be submitted to the people in the primary, and he hoped the State Democratic Executive Committee would have this done. "The people," he said, "have a right to vote upon this question and settle it at the ballot box, and there is no other practical way of presenting the cause to the people other than from the stump during the campaign."

"I am for straight-out prohibition," said Mr. Featherstone, in conclusion. "There are many tonics in the land, as by the papers you can see. Hollister's Rocky Mountain Tea, Palmetto Drug Co."

There are sufficient non-resident licenses to support a vigorous enforcement of the game laws if these licenses are collected. In the present instance the weakness of the Society has been presumed on and its confidence has been generally abused.

The natural and inevitable presumption for the future will be that the man who hunts without license is trying to evade the payment.

JAS. HENRY RICE, JR., Sec. "One Touch of Nature Makes the Whole World Kin."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good; he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for publication—that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm-hearted wish of the writer to be of use to someone else. This remedy is for sale by Laurens Drug Co.

Our National Danger. Time to Cry a Halt Before Complete Wreck Results.

There are thousands, both men and women, who do not take time to eat properly. They rush through life, and as a result we have an age of indigestion, nervousness, irritability, sleepless nights, and morose disposition. Our national danger is stomach weakness, due to the strenuous life.

With the discovery of Mi-o-na tablets, which strengthen the walls of the stomach and stimulate secretion of the digestive juices, there is no longer any excuse for indigestion. Sick headaches, palpitation, yellow skin and coated tongue are a few of the many distressing results of indigestion that Mi-o-na never fails to cure.

Laurens Drug Co. sell Mi-o-na in 50 cent boxes, and guarantee to refund the money if it does not give complete satisfaction.

CATARRH IS CURABLE

Successful Experiments in Abating and Curing this Disease.

Catarrh is an entirely unnecessary disease and should not be tolerated for a single day now that Hyomei is so generally known and has made so many cures in Laurens and other towns. Modern science has disproved the old theory that catarrh was a blood disease. It is a germ trouble, and the remedy is Hyomei, which mediates the air you breathe, killing all catarrhal germs. As there is life and health in the air of the pine forests, filled with fragrant and healing balsams, so there is life and health in breathing Hyomei. So sure is this prescription to cure even the worst cases of catarrh that Laurens Drug Co. sell it under an absolute guarantee to refund the money if it does not do all that is claimed for it.

Notice of Settlement and Application for Final Discharge.
