But we want to impress the fact that Laurens county needs good reads; and she likewhar needs better schools. There is only one way to get them both and that's to pay for them. There's no use walting for state aid: we must do for ourselves, and then look for outside assistance.

HURTING THE CAUSE.

Carolica have not attracted any speclal and favorable attention. Mr. Harley is the leader of this society, with headquarters in Spartanburg; he has visited many points of the state in the finiterest of the cause; he has made speeches galore, and he has done much private talking—and here is the trouble. Mr. Harley, we presume, is an honest man; we have no proof to the contrary, but he is woefully lacking in discretion, without judgment, unfair, and with strong inclinations to talk too much. Through these faults he has wrought much harm to the prohibition cause in this state, but even Mr. Harley cannot stand in its way.

This institute, composed of a group of regularly graduated physiciams and sur-geons, licensed, legally chartered and in-corporated under the laws of the State of Ohlo, sends at its own expense these eminent medical spec'aliats in order to introduce the newest methods and discoveries in medicine and surgery, such as the system of treatment under X ray, Violet ray, Finsen ray, Hydrotherapy, Etc., to give to those who call on the above date, consultation, examination, advice and all medicines required to complate a cure, absolutely free. These specialists will diagnose your case and give you the benefit of their skill and medleal knowledge.

There is in this case no experimenting or guess work at your expense. You will be told whether you can be cured or not. If your case is cumble they will put you under treatment immediately; if incurabis they will give you such advice as may prolong your life. Their treatment always gives quick relief, and ultimately positively cures. Ening prepared to cope with each individual case the human system is thoroughly cleaned of the disease in a natural and direct manner, and Improvement is naticed at once; even the worst cases are treated without any inconvenience to the patient or the pur-

suing of his or her daily vocation.

If you are improving under your family

physician, do not come and take up their valuable time, as they absolutely refuse to treat any one who is under the care of the local physicians. They wish be-sides to give each patient plenty of time and their undivided attention, but can not listen to long stories not pertaining to your trouble. They have discarded the old methods and remedles used for ages by the medical world, and which it would be folly to depend upon any longer, for they are not known to cure, as thousands die, depending on them for relief. The following list of diseases only are taken under treatment, to-wit: Diseases of the Nervous System, Heart, Stomach, Lungs, Kidneys, Catarrh, (purulent or dry), Consumption, Epilepsy, Deafness, Diseases of Women, Tumora, Pseudo Cancers, Piles, of a Chronic Nature only. They treat Deafness by an entirely new methid, and hearing in many cases is restored it once. Catarrh in all its varied forms, like other diseases if once taken under treatment, is cured permanently to remain so and to never return. It matters not whom you have seen, or with whom treated, do not fall to call, as a visit will cost you nothing, and may restore you to health, or even save or prolong your life, as thousands of persons will testify by unassailable testimonials in all parts of the country. If you suspect Kidney Tronble, bring a two ounce bottle of your Urine for chemical and microscopical an-

alysis.

REMEMBER:—The free offer is during this visit only, and will not be repeated. Persons commencing treatment upon their future visits will be required to pay, but not one cent will be asked from those commencing treatment during this visit for any medicine necessary to effect a cure, irrespective of your position in life, or the number of those who come on above date. Whensoever, or by whom wanted, a positive guarantee to cure will be given under their system of treat-ment. Those having long standing and complicated disease, who have failed to get well and become discouraged, are particularly invited to call.

NOTICE: — Married ladies without their HUSBANDS, and minors without their FATHERS, will positively not be admitted to consultation unless accompanied by one of their local physicians. Office Hours: 9 A. M. to 7:30 P. M.
