Are Microbes in Your Scalp?

It Has Been Proven that Microbes Cause Baldness

Professor Unna of Hamburg, Germany, and Dr. Sabourand, the leading French dermatologist, discovered that a microbe causes baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists. This microbe lodges in the Sebium, which is the natural hair oil, and when permitted to flourish it destroys the hair follicles and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.

Dandruff is a contagious disease, which is largely due to a destructive microbe, which when left to pursue its course causes itching scalp, falling hair and baldness. Dandruff is caused by the microbe affecting the glands which produce the sebaceous matter, which latter then unnaturally dries up and scales off.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation in the scalp and around the hair roots, tighten and revitalize the hair roots and overcome baldness, so long as there is any life left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called Rexall "93" Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.

It will frequently restore gray and faded hair to its original color, providing loss of color has been caused by disease; yet it is in no sense a dye. Rexall "93" Hair Tonic accomplishes these results by making every hair root, follicle and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.

Rexall "93" Hair Tonic is entirely free from poison or sediment, is exceedingly pleasant to use and will not gum the hair or permanently soil the clothing or pillows.

We exact no obligations or promises—we simply ask you to give it a thorough trial and if not satisfied tell us and we will refund the money you paid us for it. Two sizes, prices 50 cents and \$1.00. Remember you can obtain it only at—The Rexall Store.

The highest medical authority on foods, Sir James Crichton Browne, LL.D.—F.R.S. of London, gives the best reasons for eating more Quaker Oats

In an article published in the Youth's Companion of September 23rd, 1909, Dr. Browne, the great medical authority on foods, says, about brain and muscle building—

"There is one kind of food that seems to me of marked value as a food to the brain and to the whole body throughout childhood and adolescence (youth), and that is oatmeal.

"Oats are the most nutritious of all the cereals, being richer in fats, organic phosphorus and lecithins."

He says oatmeal is gaining ground with the well-to-do of Great Britain. He speaks of it as the mainstay of the Scottish laborer's diet and says it produces a big-boned, well-developed, mentally energetic race.

His experiments prove that good oatmeal such as Quaker Oats not only furnishes the best food for the human being, but eating it strengthens and enlarges the thyroid gland—this gland is intimately connected with the nourishing processes of the body.

In conclusion he says—

"It seems probable therefore that the bulk and brawniness of the Northerners (meaning the Scotch) has been in some measure due to the stimulation of the thyroid gland by oatmeal porridge in childhood."

The Scotch eat Quaker Oats because it is the best of all oat-meals.

NEGRO BOY KILLED.

Accidentally Shot by Jim Chiles, According to the Testimony.

George Goode, a 13-year-old negro boy who lived with his mother on the plantation of Mr. Maxey Patterson, near Laurford, was shot and instantly killed last Wednesday morning by the discharge of a shotgun in the hands of another negro boy, Jim Chiles, aged 18, who claims that the shooting was purely accidental.

Coroner Harbison went up and held the inquest and according to the evidence of Chiles and one or two other negroes who were present when the shooting occurred, it seems that Chiles together with several others, including the Goode boy, were picking cotton. That sometimes during the morning Chiles took his gun which he had carried to the field, and went off to shoot a hawk; that upon his return to the other cotton pickers he placed the gun

across his arm and engaged in conversation with the party for a moment when in some manner unknown to him and the rest, it seems, the gun was discharged and Goode fell dead, the entire charge having taken effect in the lad's head.

In effect, the jury's verdict exonerated Chiles, stating in substance that the affair was an accident.

Speaker Failed To Come.

The members of the County Farmers' union were disappointed on Monday at the failure of Prof. J. N. Harp of Clemson college, to fill his appointment to speak before the union. A good number of farmers were present, and some matters of interest were discussed. It is hoped that at the January meeting a speaker may be secured.

Do You Gamble?

Some people put the savings of a life time into a home, and then trust to LUCK to avoid the thousand and one daggers of fire Do you? Others invest their entire assets in a store and then carry the whole or a part of their insurance themselves, thinking they can do so as well as the insurance companies. Do you? Insurance is based on the law of averages, and can be safely conducted, but only when based on the experiences of tens of thousands of cases scattered over the entire country.

WARREN TOPPAN, Lynn, Mass.
 Cured of severe compound cold and cough by
Vinol

"From Dec. 20, '08, to March 1, '09, I had three bad colds, one on top of the other. I got so weak I could hardly get around. Nothing seemed to help me until I began to take Vinol. The change was magic. Three bottles completely fixed that compound cold and stopped the terrible cough—and what surprises me most, at the same time it cured me of a severe stomach trouble that has bothered me for 20 years.

Vinol is certainly a wonderful medicine."

Mr. Toppan is one of Lynn's most prominent and highly respected merchants, whose word is as good as his bond.

The reason Vinol is so successful in such cases is because it contains the two most world-famed tonics—the medicinal, strengthening, body-building elements of Cod Liver Oil and Tonic Iron.
