surpasses the book excee foundation a The reconst many years under the s	he old International as much as that ded its predecessor. On the old new superstructure has been built, ruction has been carried on through by a large force of trained workers, supervision of Dr. W. T. Harris, ed States Commissioner of Educa-

tion, and reenforced by many eminent special-ists. The definitions have been rearranged and

amplified. The number of terms defined has

been more than doubled. The etymology,

synonyms, pronunciation, have received un-sparing scholarly labor. The language of

English literature for over seven centuries, the

terminology of the arts and sciences, and the every-day speech of street, shop, and house-hold, are presented with fullness and clearness.

In size of vocabulary, in richness of general
