

MANAGEMENT CHANGES.

Mr. V. Cameron Will Take Charge of the Opera House.

Mr. V. Cameron, high wire artist and athlete, has taken over the management of the opera house and will hereafter be in charge. He intends running a moving picture show every night except when other attractions are booked. He has seen considerable experience in the show world, having given numbers of exhibitions in many of the larger cities of the North and at the Jamestown Exposition.

Mr. Cameron is a native of Glasgow, Scotland, and has traveled all over the world. He came here to fill an engagement Monday night and when offered the management of the opera house accepted it.

He promises first class pictures, and, when well established, vaudeville attractions. The moving picture show began last night and will continue in the future.

ONLY 50 CENTS.

That's all it Costs to Get Rid of Indigestion.

MASTER WILLIE T. WOLFF CHAMPION CORN RAISER.

(Continued from page one.)

seed. Mr. W. C. Wharton, of Waterloo, offered three prizes for the three large est yields of corn grown from the use of fertilizer sold by him.

Following are the winners in that contest:

1st. prize, 5 sacks of Fertilizer: Willie Wolf.

2nd. prize, 3 sacks of fertilizer: W. C. Byrd.

3rd prize, 2 sacks of fertilizer: J. Wash Watts.

Mr. J. W. Thompson also generously offered prizes for the boys making the largest yields on land fertilized with the product which he sells. Following are the winners in that contest:

1st. prize, 5 sacks of fertilizer: Humbert Sullivan.

2nd. prize, 3 sacks of fertilizer: Ernest Henderson.

3rd prize, 2 sacks of fertilizer: Carl I. Smith.

Besides these prizes there were prizes offered by enterprising merchants of the city for the most economical yield of corn. As evidently the young corn growers had misunderstood the coats to be taken into consideration in the tabulation of the expense, the judges felt that justice would not be done if they made the awards. Consequently the prizes in these contests were not awarded. At it would require a great deal of work on the part of the judges and contestants and would cause a deal of confusion to find the winners in this contest these awards will not be made.

Following the awarding of prizes the Corn fair came to an end.

The fair was a great success in every particular and the fine showing made is due to the untiring efforts put forth by Superintendent of Education George L. Pitts. He has worked incessantly during the entire year in the effort to have a creditable exhibit and to get the people enthused over modern methods of agriculture. It is his intention to go still further and carry the exhibits to the Corn Exposition in Columbia in December, where he expects to carry off several prizes for the Laurens county boys.

So successful was this first corn exhibit that numbers of prominent men in the county have already commenced to talk of a big county fair next fall. Laurens county is in a position to have one of the best fairs in the State and these men are determined that a big agricultural and stock exhibit shall be held next year.

Leap's Prolific Wheat.

The Most Prolific and Best of Milling Wheats

Yields reported from our customers from twenty-five to fifty-two bushels per acre. When grown side by side with other kinds this splendid beardless wheat yielded from five to eighteen bushels more per acre on same land and under same conditions as other standard wheats.

Wherever grown it is superseding all other kinds and it should be sown universally by wheat growers everywhere.

Write for price and "Wood's Crop Specs" which contains new and valuable article "How to grow big crops of wheat."
