

# JUST Rheumacide

**IT CURES Rheumatism and Blood Diseases**  
 The cause of rheumatism is excess uric acid in the blood. To cure rheumatism this acid must be expelled from the system. Rheumatism is an internal disease and requires an internal remedy. Rubbing with oils and liniments may ease the pain, but they will not cure rheumatism than paint will change the fiber of rotten wood.

**Cures Rheumatism To Stay Cured.**  
 Science has discovered a perfect and complete cure called Rheumacide. Tested in hundreds of cases, it has effected marvelous cures. Rheumacide removes the cause, gets at the joints from the inside, sweeps the poisons out of the system, tones up the stomach, regulates the bowels and kidneys. Sold by druggists at 50c. and \$1. In the tablet form at 25c. and 50c. by mail. Booklet free. Bobbitt Chemical Co., Baltimore, Md. Gets At The Joints From The Inside.

## NEWS FROM CROSS HILL.

**Prominent Firm Makes Change—Election for School Trustees Held Saturday.**

Cross Hill, Jan. 30.—Mr. J. E. Leaman of the firm of Rasor, Leaman & Denny, has sold his interest to Mr. Marvin Anderson. The firm now is Rasor, Anderson & Denny.

Mr. Floyd Spearman has sold his stock of goods to Mr. Douglas Chapman. Mr. Chapman will continue the business at the same place.

Mr. Robert Carley will open up goods in one of Dr. Miller's brick stores on "Miller Row".

Miss Mattie Mae Neville, one of our popular teachers in the school here, lost a gold watch with a gold pin on the fob last Thursday. She is sure she had the watch when she left school. She walked to Mr. R. A. Austin's, her boarding place, and went immediately down town riding in a buggy. She missed her watch when in a store. The watch was prized very highly because it was a present from her mother when she graduated. It is hoped that whoever finds it will return it to Miss Neville.

Master George Martin, son of Rev. J. A. Martin, had a bone of his arm broken in a tumble playing foot ball last week.

The young ladies of our town have organized a walking club for recreation and exercise. They have ten or more members and are out every Friday afternoon.

Prof. Parrott received a splendid state flag last week presented to the school by Dr. J. H. Miller. The flag has been put in place and is now waving to the breeze. It is a beauty, manufactured at Clemson and is about eight by three feet.

An election was held for school trustees last Saturday. R. A. Austin, J. W. Simmons, T. M. Pinson, R. A. Boyce, L. S. Pinson, Jno. W. Hanna and W. E. Griffin were elected.

Mrs. R. C. Davenport is with the family of Mr. and Mrs. N. B. Davenport for a visit.

Mr. Austin Leaman graduated at Draughts business college of Columbia last week. He will accept a position with a prominent firm in Columbia and go to work at once.

## INTERESTING EXERCISES.

**Timrod Literary Society of Rock Bridge School Raises Money for Monument.**

The Timrod Literary Society, which was organized at the beginning of the session of the Rock Bridge school, is doing good work. The teacher, Miss Janey Garlington leaves the work of the society entirely in the hands of the pupils. The pupils decided to give the money raised by the society to the Arlington monument fund.

Last Friday afternoon, after the business session, the following interesting programme of great painters, was given:

- "Life of Carol" by Frank Simpson.
- Sir Joshua Reynolds's "Angels' Heads" by Nannie Edie Young.
- "Life of Madame Lebrun" by Roy Workman.
- "Paintings of Rosa Bonheur" Emma Chandler.

## Fine Butter Record.

Mr. A. L. Nash, who lives out on Route No. 1, was in the city Saturday. In speaking about the Butter Contest which is to be held in Columbia this week, Mr. Nash said that during the year 1910 he sold from one cow 200 pounds of butter and during 1909 he sold 187 pounds. He got an average of 20 cents a pound for it. He also said that in February of 1910 he killed a pig 7 months old that weighed 391 pounds and in 1909 he killed one 6 months old that weighed 287 pounds.

That is a pretty good record for cows and pigs and perhaps will be hard to beat.

## Ekou Locals.

This is unusually pretty weather and the farmers are taking advantage of it getting their ploughing done.

Dr. Cooper has been quite busy the past week but reports his patients much better.

Mr. Paul Cooper, one of Laurens' young business men, made a short visit to our town last week.

Mrs. Susan Phillips, of the Friendship section, spent a few days with relatives here last week.

Mrs. T. C. McDaniel and children spent Sunday with her parents near Poplar Springs.

Miss Grace and Lonie Cooper spent Sunday with Miss Laurence Culbertson.

## Will Move to McCall.

Mr. and Mrs. J. A. Copeland, it is stated, will move to McCall, Marlboro county, some time this month, perhaps about the 15th, for the purpose of taking charge of a hotel at that place. For a number of years Mr. Copeland has conducted a private boarding house which she owns on West Main street, and the fact that she and her interesting family are to leave Laurens causes surprise as well as regret.

## MAKE CONCRETE DRAIN TILE

One Machine Will Turn Out Quite a Large Number Each Day of Any Size Required.

For the core a five-inch length of stove pipe is used. This is cut 20 inches long, or two inches longer than the tile is to be made. A circle is cut from a board to fit into the bottom of this pipe, where it is fastened, says the Orange Judd Farmer. In the center of same a bolt is placed which acts as a pin, going through the molding board or pallet and thus insuring setting the core in correct position. The top is finished with a block to fit into same, as shown, with a ring and bolt to draw out core from the completed tile.

The outside form is made of heavy sheet iron and is eight inches in diameter and 18 inches high, which makes the walls of the 1 1/2 inches thick. This requires a piece of sheet iron 18 by 26 1/2 inches in size, which you should have the tinner bend into a circle or cylinder form, with the edges overlapping each other one inch. Exactly one inch from each edge of the sheet

Core and Form for Tile.

naill two strips of wood, as shown in illustration, and to these attach hooks and eyelets, so when the form is together with the sheet iron lapped one inch the hooks are in position to go into eyelets.

This is placed over the core and held at the proper distance from same by little blocks nailed to pallet on the outside of form or by small nails driven into pallet. The mortar is placed in machine and thoroughly tamped down. The best mix for this work is one part cement to three parts of coarse sand used with as little water as possible, just enough to wet the concrete.

One machine will make a number of tile each day, as it can be removed from the tile as soon as molded by drawing the core first and then unhooking and removing outside form.

The average cost of five-inch tile 18 inches long made as above is 8 1/2 cents each; six-inch tile ten cents each, with sand at 75 cents per cubic yard, cement \$2 per barrel and labor at \$2 a day of ten hours. This same machine may be constructed in larger or smaller size, as requirements demand.

## Close Pasturing.

Close, late pasturing of autumn-sown wheat fields reduces the yield. The Oklahoma experiment station recommends that stock be taken out of the wheat field by March 1 or March 15, at the latest, if reasonable returns are to be expected. The quality of grain deteriorates perceptibly with late pasturing. Pasturing wheat when the ground is very wet will have a tendency to lower the yield of grain, and at the same time injure the texture of the soil. Under favorable season conditions wheat frequently makes a very heavy growth and in these cases it is advantageous to pasture.

## Handling Sheep.

Sheep are timid, nervous creatures, and all excitement and roughness should be avoided in handling them.

# General Farm Notes

The young hen is usually the best layer.

The hog responds readily to good treatment.

Brood sows ought to have a feed of roots occasionally.

The first shoeing of a colt is the most important of all.

Fifth in the poultry yards and houses invites disease.

Pure air without draft is the solution of health in the hen house.

The hens that must fight lice and mites are usually poor producers.

Never cut a limb from a fruit tree unless you know just why you do it.

An orchard neglected for one year virtually puts it back three years.

The heifers should freshen early, at two to two and one-half years of age.

The breeding ewes and store sheep remain as long as possible in the pastures.

The breeder of fancy sheep finds it almost impossible to sell a ram this in flesh.

As every one knows, the best time to train an animal is while he is young.

Training the cow to be a good milker should begin with the rearing of the calf.

Do not neglect to give each horse a chance to drink the last thing at night, even if the weather is cool.

Jerk the nervous and skittish horse every time he shies, thereby showing yourself to be a bigger fool than the horse.

For the first two or three weeks the calf should be fed at least three times a day on warm milk taken direct from the cow.

## SCIENCE AND INVENTION

### PADDED SUIT FOR AVIATORS

Safety Jacket and Headpiece Among Latest Devices Invented for Protection of Airmen.

Among the many devices for the protection of aviators in case of fall exhibited at the recent international congress of Aerial leagues at Boulogne was a padded jacket and headpiece, says Popular Mechanics. The headpiece protects the head, neck and lower part of the face, only leaving the eyes and nose exposed. In the tests, the inventor of the jacket hurled himself head first, against a rough stone in one of the

Padded Jackets for Aviators.

city's walls and suffered no harm from the impact. The outfit, however, is very cumbersome, as the padding of the jacket and headpiece is six inches thick.

Another interesting device brought forward was a parachute which will open fully after a fall of 30 feet. The old-style parachutes required a fall of several hundred feet before opening. The possibilities of the new parachute were personally demonstrated by the inventor, who dropped from an elevation 30 feet high with it.

### MASSEUR THAT IS AUTOMATIC

Large Leather Knobs Turned by Revolving Wheel Knead Stomach in Way to Stimulate Blood.

There is no longer any necessity for paying an expensive Swedish rough house artist several dollars every time you want a massage. A machine has been invented which, it is claimed, will do the work just as well and cheaper in the long run. This machine is fastened to an upright, which in turn is fastened to a platform, so walls need not be marred. A wheel with large leather covered knobs on the ends of its spokes project a foot or so, and this is revolved by turning two handles. The patient, or subject, stands in front of the wheel with his abdomen just touching the wheel which, by the way, can be adjusted to a height to suit the user. He then turns the handles, and the wheel revolves, the balls passing over his stomach and kneading it

An Automatic Masseur.

In a way to stimulate the circulation of the blood and impart a healthy action to the liver and other organs. Another use for this device is for the reduction of adipose tissue and the consequent reducing of a too generous waist-line.

### Sex in Handwriting.

That it is possible to determine sex from handwriting in perhaps eighty out of one hundred is a conclusion reached by Miss June E. Downey from an examination of the writing of 200 persons. The specimens were submitted to two "professional graphologists," as well as to fifteen persons ignorant of their art. The so-called sex signs are found to be largely influenced by the amount of writing done, by age and to a certain extent by professional requirements, as in the conventional writing of teachers and the rapid hand of bookkeepers.

### Famous English Clock.

The famous clock of Hampton Court palace, England, is said by many superstitious people to stop when a person long a resident in the castle dies. The first instance recorded is that of Anne of Denmark, queen of James I. The clock, which was striking four at the moment, immediately stopped. Other instances are cited.

## HOW TO OWN THE OLIVER TYPEWRITER FOR 17C A DAY.

You don't have to draw on your Bank Account when you pay on the Penny Plan.

You need not disturb your Dollars. Keep them at work earning interest!

We offer our newest model, the Oliver Typewriter No. 5—fresh from the factory—for Seventeen Cents a Day.

The plan is printed in "black and white" on the Application Blank below.

Simply fill out the blank, attach the small first payment, send it in, and on comes the Oliver!

## NOTICE OF ELECTION.

State of South Carolina, County of Laurens.

Whereas, petitions signed by more than one third of the qualified electors and freeholders, residents of Youngs School District No. 1, Laurens County, South Carolina, asking for an election upon the question of voting a three (3) mill tax upon the property in said school district to be used for school purposes have been filed with the County Board of Education, an election is hereby ordered upon said question, said election to be held on the 18th day of February, 1911, at Stewart's Store, under the management of the school trustees of said district.

Only such electors as return real or personal property for taxation and who exhibit their tax receipts and registration certificates as required in the general election shall be allowed to vote.

Those favoring the tax shall vote a ballot with the word "Yes" written or printed thereon. Those who oppose the tax shall vote a ballot with the word "No" written or printed thereon. Polls shall open at the hour of 8 o'clock in the forenoon and shall remain open until the hour of 4 o'clock in the afternoon when they shall be closed and the ballots counted.

The trustees shall report the results of the election to the county superintendent of education and to the county Auditor within ten days thereafter.

Geo. L. Pitts, Co. Supt. of Education.

## FINAL SETTLEMENT.

Take notice that on the 23rd day of February, I will render a final account of my acts and doings as Administrator of the estate of W. H. Garrett, deceased, in the office of the Judge of Probate of Laurens county, at 11 o'clock, a. m., and on the same day will apply for a final discharge from my trusts as Administrator.

Any persons indebted to said estate are notified and required to make payment on that date; and all persons having claims against said estate will deliver them on or before said date, duly proven, or be forever barred.

C. W. Garrett, Administrator.

January 18, 1911.—1 mo.

## Licence Fees for Hawkers and Peddlers in Laurens County for the Year A. D. 1911.

State of South Carolina, County of Laurens.

By virtue of an Act of the General Assembly of South Carolina providing therefor; Be it resolved by the Board of County Commissioners of Laurens County, in the State of South Carolina, in regular annual meeting assembled; That the license fees to be paid by hawkers and peddlers doing business within said county during the year A. D. 1911 be and the same are hereby fixed in the following amounts, to wit:

- For peddlers of merchandise, on foot, Fifteen Dollars; Peddlers of merchandise in one horse wagon Fifty Dollars; Peddlers of merchandise in two horse wagons, Seventy Dollars; For peddlers of stoves or ranges, for the first wagon Seventy Dollars, and for each additional wagon operated by the same firm, Fifty Dollars. For peddlers of clocks, for the first wagon Fifty Dollars, and for each additional wagon Thirty Dollars; For peddlers of lighting rods, Twenty Dollars for the first wagon, and Ten Dollars for each additional wagon. For peddlers of spectacles, on foot, Seven Dollars; and Fifty cents; peddlers of spectacles in vehicle, Fifteen Dollars; Peddlers of sewing machines, Fifty Dollars for the first wagon, and for each additional wagon Thirty Dollars; For peddlers of pianos or organs, for each one horse wagon Eighty Dollars, and for each two horse wagon, One Hundred and Twenty Dollars. All licenses will be issued by the Clerk of Court of said county to be of force and effect until the 31st day of December, A. D. 1911, as provided by law.

Done in regular annual meeting at Laurens, S. C., this 5th day of January A. D. 1911.

Attest: H. B. Humbert, Messer Babb Supervisor, Clerk of the Board. 25-41

## ASSESSOR'S NOTICE

The auditor's office will be open from the first of January to the 20th of February, 1911, to make returns of all personal property for taxation and wherever changes have been made in real estate.

All male citizens between the ages of 21 and 60 years on the 1st of January, except those who are incapable of earning a support from being maimed or from other causes, are deemed polls. Confederate veterans excepted.

All taxpayers are required to give Township and No. of School District; also state whether property is situated in town or country. Each lot, tract or parcel of land must be entered separately.

After the 20th of February, 50 per cent penalty will be attached for failure to make returns.

J. ROSS DORRHO, Dec. 9, 1910.—td.
