**CALORIC FIRELESS COOKSTOVE**

It cooks better, with absolutely no attention, cooks more thoroughly—more appetizingly, retains all the goodness—all the tissue and strength building qualities of the food. None is lost by evaporation in boiling away. No unpleasant odor, no burning or scorching of food.

The less expensive and toughest meats are cooked far better and more tender by the "Caloric" method. The "Caloric" not only boils and stews, bakes and roasts even better than can be accomplished by any ordinary stove, and costs much less to operate.

Let us tell you more about this wonderful saving Fireless Cookstove.
