The York County Teachers association, Home Maker's Clubs, Corn Clubs, and Girl's and Boy's Industrial clubs are having a two days meeting at

Winthrop College.

Friday, October 20th was called "School Improvement Day" and was taken up with educational talks, inspection of class work, and demonstrations in industrial subjects taught in schools.

Today, Saturday is to be full of helpful ideas and things for teachers as well as club boys and girls.

Miss Mattie Sloan of Fountain Inn, who is teaching in York County is attending the Teachers' association.

One of the busiest places in the whole college during the school year is the library. It is here that the students do most of their preparation for daily recitations, for there is hardly a lesson to be prepared that does not require some parallel reading in the library.

The new students are given a course in referent work during their first term in college. The aim of this course is to make them familiar with the library and to train them in systematic and intelligent use of books.

Our library is catalogued up-to-date by author, title and subject. Before the end of the first six weeks of

school, through the use of the catalogue, practically every girl in school is able to find any book in the library that she may wish.

We are subscribing to fifty-seven periodicals. Among the most valuable recent additions to our magazine files are the following: Little's Living Age in 267 volumes, beginning 1844; Edinburgh Review in 210 volumes, beginning 1802; and Miles Weekly Register in 75 volumes, numbers from 1811-1849. Through the use of the index to periodicals, our magazines prove a valuable help in our reference collection. Our library subscribes to several daily newspapers, and most of the county papers. All are sent as complements to the girls of each county by the editors of the papers.

Alfred Tennyson Dickens, eldest son of Charles Dickens, delivered a very interesting address last night on "My Father's Life and Works."

The U. S. Marine Band will be here Thursday, October 26th.

If you need a Sewing Machine be sure to call on us, we have something that will interest you.

IS THE WORLD GROWING BETTER?

Many things go to prove that it is. The way thousands are trying to help others is proof. Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufferers, everywhere, to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. They're the best tonic and finest liver and kidney remedy that's made. Try them. You'll see, 50c at Laurens Drug Co., and Palmetto Drug Co.
