COTTON MARKET BEGINS TO ADVANCE

On Account of the Steady Demand for Spots and Favorable Trade Conditions, the Market Begins to Climb. New York, Jan. 5.—Cotton has advanced under the spur of heavy buying by big spot interests despite the great strike in Lancashire. Also there has been a good deal of covering of shorts not only because of the aggressive attitude of the prominent spot people, but also because of the increased activity, and strength in Liverpool. This inspires many with the belief that the Lancashire strike, serious as it seems, is not likely to be of long duration. Liverpool spot sales on a number of days were ten thousand bales and Manchester has reported a good demand for cloth, however, quiet might be its trade in yarns. There has been little disposition noticeable to press spot cotton for sale in the Atlantic markets now for that matter at the generality of Southern points.

Exports have been big. Augsburg, Bavaria, reports the home trade as improving. Some big mills in Rhode Island have gone on a full time schedule after running on short time for a year. Maritime through continental spinners have bought freely for some months past even taking cotton to be delivered some years ahead the northern mills in this country and many of those in Great Britain are known to have bought as a rule on a very moderate not to say scanty scale and the inference is drawn that they are none too well supplied with raw cotton even if indeed their supplies are not actually low. On the other hand there is the Lancashire strike. Nobody knows how long it will last despite the efforts which the officials of the British government are making to bring about a settlement. Rumors too are to the effect that the gluing despite the recent bad weather of the South will turn out larger than expected. One rumor put the total of the National Spinners' association up to Jan. 1 at 14,356,000 bales. If that is so it is trending rather closely on the heels of the government crop estimate issued in December of 11,885,000 bales with some months of gluing to hear from. The Turko-Italian war is seriously disturbing Italy's trade and it also to some extent affects Manchester's. In parts of the South spot cotton is said to have been more freely offered at the recent advance in prices. Some cotton prints have been reduced in price. At times of late Wall street houses after buying freely have been finding profits and selling by Liverpool, Memphis and New York traders, as well as it appears some of the Waldorf-Astoria contingent has also been a noteworthy factor in the trading. The New York stock is steadily increasing. But the buying by big spot interests, the large spinners' takings, for some weeks past, and a belief that Lancashire has too much at stake to permit the strike to continue long inspires many with the belief that cotton is destined to advance further. Former Waldorf-Astoria bears are believed at the close of the week to have covered and taken the bull side on the idea that the decline has culminated. The weekly statistics are regarded as bullish.

The quickest and most effective remedy for loosening the phlegm, relieving irritation and curing any cough or cold is Bloodline Cough Checker.

Mrs. Sunie Owings.
Whereas, our dearly beloved sister, Mrs. Sunie Owings, whose life was ever devoted to her Master's service, was called to her reward December 6, 1911.

Resolved that Chestnut Ridge Sunday school has lost a devout, pious and loyal member. We deeply deplore our loss but bow submissively to the will of God, who doeth all things well and rejoice in the assurance that our sister has been transferred to the never-ending joy of a home in heaven, with her blessed Redeemer.

That in the death of our beloved sister, Chestnut Ridge Sunday school has lost one of its most loyal and faithful members.

Her undaunted faith and perfect resignation to the will of God will ever be an inspiration to each of us, as we lovingly cherish her memory.

We extend to the bereaved husband and family our heartfelt sympathy and pray that the richest blessings of our heavenly Father may rest upon each of them in their sad affliction.

That a page in our Sunday school record be dedicated to her memory and a copy of these resolutions be spread thereon. That copy be sent the bereaved husband and family, The Baptist Courier and the Laurens Advertiser.

J. S. George,
For Committee.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all dealers.

THE KING'S DAUGHTERS.

Editor The Advertiser:
Thinking perhaps the public would like to know something of the work done by the King's Daughters, especially the last year, I will ask you to grant me a small space to do so. Twenty one years ago last November our circle of King's Daughters was organized by the Rev. A. G. Wardlaw, then pastor of the Presbyterian church with five members. Only two of those members remain in the circle. We took as our text "Bear ye one another's burdens." Our work for the first few years was local, helping to bear the burdens of the suffering ones by contributing food, fuel, clothes, medicine, ice and medical services. As our membership increased our enthusiasm seemed to be catching. The newspapers and merchants encouraged and helped us in numerous ways. We began to send donations outside our town, responding to calls made for earthquake and storm sufferers in our own state and sister states. Still we worked and helped, sending donations twice to China for the famine sufferers.

For several years prior to 1907 the circle paid \$1200 per year to help support a King's Daughter room at the Riverside Infirmary at Charleston. For some years have given \$400 per year to the Florence Crittenton Home and same amount to the Daughters of Hope, for rescue work, at Columbia. This past year the circle donated \$500 to the Salvation Army for the same work. For seven years educated and supported one girl in China. Feeling the Lord had blessed us in our work and realizing it was "more blessed to give than receive" we have undertaken to educate two more. For four years the circle has clothed a blind negro girl from our town at the State Institute for the blind at Cedar Springs. The circle became deeply interested in a hospital for our town. In 1907 they decided to start raising money for that purpose. They were greatly helped and encouraged in all their efforts by our generous people and in two years they had raised \$800.00. They continued to work and put the money out at interest. The circle has several hundred dollars at interest, hoping some day a fine modern hospital will be built and they can have a share in it. Becoming discouraged in their efforts to secure or help build a hospital they stopped working for it in 1910. In 1910 they donated \$250.00 for improvements on the city cemetery. When the Laurens County Hospital opened the circle pledge \$25.00 per month to support their bed. Six patients have been admitted by the King's Daughters since June 1st, five surgical and one medical. The circle still does a good deal of local work. Christmas remembering the three orphanages and needy ones with Christmas baskets. Our present membership is 49. We would be glad to welcome new members at any time. We meet the first Friday of each month. Last year we had several honorary members. An honorary pays \$1.00 per year, but does no active work. The circle has received some small donations but at long intervals. They would be delighted to receive some this year.

Leader.

A Hero In a Lighthouse.
For years J. S. Donahue, So. Haven, Mich., a civil war captain, as a lighthouse keeper, averted awful wrecks, but a queer fact is, he might have been a wreck himself, if Electric Bitters had not prevented. "They cured me of kidney trouble and chills," he writes, "after I had taken other so called cures for years, without benefit and they also improved my sight. Now, at seventy, I am feeling fine." For dyspepsia, indigestion, all stomach, liver and kidney troubles, they're without equal. Try them. Only 50 cents at Laurens Drug Co. and Palmetto Drug Co.

Wood's Seeds For 1912.

Our New Descriptive Catalog is fully up-to-date, and tells all about the best

INTERSTATE FERTILIZERS APPLYING THEM IS LIKE PLANTING DOLLARS

INTERSTATE FERTILIZERS are made of plant foods, so mixed that the food is available to the plant all through growth. Never is the crop starved. The needed elements are supplied at the right time. The crop is nourished to a full growth.

Therein lies the skill of mixing fertilizers. We make these fertilizers as accurately as a druggist compounds a doctor's prescription. The analysis on every bag is lived up to. There is no guess work—no mist 'y.

It is but the result of scientific mixing. We must know what are the best sources of plant foods—which are quickly available—which are slower—which are slowest.

It must be known exactly what elements are drawn from the soil by each crop—the amount of plant foods that they require. It would be utter waste to apply certain plant foods upon certain soils for certain crops.

So we have INTERSTATE FERTILIZER for each crop that the South grows. The needed elements are supplied. The fertilizer is suited to the soil and crop.

And that is why INTERSTATE FERTILIZERS are winning prestige everywhere why they are causing increased yields.

Our booklet would prove interesting to you. It tells of our tested formulae for Southern crops. Write for it today and the name of our nearest dealer.
