Investigating Committee of Dispensary Winding Up Commission Calls on Anybody to Produce Evidence.

Columbia, March 21.—To the charge Governor Blease made against them in his Newberry interview, that they were "whitewashing" their friends and devoting their time to attempting to find something to discredit him and his administration, the dispensary investigating committee made reply late this afternoon. After receiving the Governor's refusal to appear before the committee and submit his proofs and evidence, which he says he has, and of the Governor's refusal to turn over the Felder letters the committee says that the "Governor can hardly be serious in his statement that the committee is attempting to 'whitewash.'"

Bleas Again Invited.

They recited the Governor's repeated refusal to assist the committee, but renew their invitation to him to come forward and give out what he knows. The committee is attempting to probe without fear and without favor. To this end the committee invites any citizen of South Carolina, who has any knowledge of any one who has had criminal or unquestionable connection with the late dispensary, or who suspects any one of any knowledge of unlawful acts to come forward and assist the committee in probing into everything. Governor Blease is included in this invitation and the committee states that they would be very glad to have the Governor present any proof or evidence he may have.

"Show Down" Has Come.

The "show down" has come and the committee issues the invitation broadcast. Their next meeting will be on April 3, at 11 a. m., in the State House library, and any one who can throw light on the dispensary matters is asked to be on hand then and be ready to give the committee his information. "The investigation is going to be thorough and will be without fear and without favor" was a statement which sums up the attitude of the committee.

Next Session April 3.

The dispensary investigating committee has taken a recess until April 3, in order to allow the Blease winding-up commission to make their final report, which must be in by March 28, so that the committee can examine them at their next hearing. An expert accountant has been employed to check the books of the Ansel commission and the Blease commission, and the report of the accountant will be considered at a later meeting of the investigation committee. The decision to take a recess for two weeks was decided on at an executive session of the committee this afternoon, following the examination of witnesses. —News and Courier.

FOR A LONG LIFE

Those Interested, Please Read Fresh air and exercise, with proper food and a sufficient amount of sleep, are the essentials.

Under such a regime of living, germs cannot develop, and many diseases are prevented.

Should the system require a tonic, take only such as you know their ingredients—such as Vinol, which is a delicious combination of the health-giving properties of the cods' livers with all the useless grease eliminated and tonic iron added, happily blended in a mild, medicinal wine.

For this reason Vinol is regarded as one of the greatest body builders and invigorators for aged people. It invigorates and builds them up, and keeps them up.

We sell Vinol with the understanding that if it does not give satisfaction the price will be returned.

POTASH

The corn crop fooled lots of farmers last year. Many fields looked good but fell down on the yield. This was owing to a lack of available Potash, for Potash is primarily a producer of grain. Your corn must have enough quickly available Potash to produce well-filled ears as well as stalks. A corn fertilizer should contain at least 8% Potash—better 10%—no matter in what form the fertilizer is used. Rainfall, 75 to 100 lbs. per acre, drilled in with the seed, will keep away cutworms and root lice. If your dealer can't furnish brands rich enough in Potash and won't carry Potash Salts so you can supplement your stable manure or strengthen the brands he does carry, write us for prices. We will sell direct in any amount from a 200-lb. bag up. Write for free book of fertilizer formulas and directions. GERMAN KALI WORKS, Inc.
