The farmers of this section will very probably reduce their cotton acreage this year. Ideas of farming have taken on a somewhat different shape than they formerly were. Farmers (some of them) are eager to try a different scope of farming, other than the old way of producing cotton and cotton alone. Some farmers are slow to try this new method of farming. You can't beat such into some farmers' heads. That's the reason that the average Southern farmer falls backward with the passing of each year instead of going forward. A progressive farmer told the writer recently "that he was glad that there were plenty of farmers fool enough to plant cotton alone, for," he said, "it gave a better chance for him to climb faster." It's a good thing there's some idiots, it gives the sensible man a greater opportunity.

Dee Sims of Warthen visited his sister Mrs. Robert Japote, Sunday.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure, Send for circular, free.
