## The "Wonder Car"

### Demountable Rims

The 1916 Maxwell is equipped with demountable rims, and has the same size tire on all four wheels. Two vitally important features.

To replace a tire on the road it is only necessary to loosen five bolts; slip off the flat tire; slip on spare rim and tire; tighten three bolts, and proceed.

We are waiting to take you for a test ride in the car that has broken all low "First-Cost" records, and is breaking all low "After-Cost" records.

### HEFLIN PREDICTS 20 CENT COTTON

#### Alabama Congressman Says Bale of Cotton will Bring \$100.

Washington, Oct. 17.—That cotton will sell at \$100 a bale before Christmas and cotton seed at \$65 a ton was the confident prediction of Congressman Hefflin of Alabama here today. In a statement urging that Southern cotton growers stick to the plan of holding their staple for a price Hefflin said the mills of this country will demand three-fifths of the entire crop this year.

Ten million bales will constitute the entire cotton production of the country this year, according to Hefflin. Of this the mills will take six million, he says, leaving only four million to be divided between export and munitions manufacture. Hefflin points out that since August last year, we have exported almost as much as the entire crop this year will aggregate.

"The European nations are already paying fabulous prices for secondary productions of cotton, such as dry batteries and picric acid, used in making explosives," says the statement. "And cotton for smokeless powder and other explosives will be in greater demand than ever before.

"Cotton prices are bound to be higher, higher than at any time since the war between the states. The European nations are going to pay and ought to pay 20 cents a pound for cotton before long. Germany is already in the Southern market, buying and storing cotton."

Congressman Hefflin said the holding movement is getting a grip on the South and there will be no backsliders to let the price barrier down below what is proper. He expressed doubt whether there would be sufficient to supply the splinters of the country.

### Strange Rock Dweller.

One of the strangest creatures known to science is the pholas, or boring clam. When still very minute the animal bores into the sandstone ledges at extreme low water, by means of its sharp shell, which is replaced by secretions as it is worn away. It penetrates the rock to a depth of six or eight inches, and hollows out its burrow as it increases in size. Shaped roughly like a top, it could not leave its rock dwelling even if it wished to do so. For food, it depends on the animalcules that float in sea water, which it seizes by its long siphon, or tongue. The pholas is in great demand at the seaside resorts along the Pacific coast, for its meat is very tender and makes excellent soup. The clams are dislodged in great numbers from the ledges by the use of dynamite, although it is possible to obtain them with a pick and crowbar.

### BIG CIRCUS COMING

#### Carl Hagenbeck-Wallace Shows to Appear Here Soon.

The Carl Hagenbeck-Wallace Shows Combined will visit Laurens on Thursday, October 28th.

For more than a quarter of a century the Great Wallace Circus was the best in all the land. Several years ago the big circus was consolidated with Carl Hagenbeck's trained wild animal exhibition. Carl Hagenbeck, before his death, was the "animal king", and the combination of the two shows for a single price of admission makes it something unheard of in the amusement world. With few exceptions great acts originate in Europe. They are invariably introduced in America by the Carl Hagenbeck-Wallace Circus, which maintains agencies in Europe and Asia for the purpose of keeping in touch with the latest achievements.

The Carl Hagenbeck-Wallace Circus has either originated all great attractions in the past few years or have searched them out from distant lands. It has offices in London, Liverpool, Paris, Berlin, Hamburg, Vienna, Constantinople, Calcutta, Hong Kong and Buenos Ayres. Its agents are always looking for novelties. B. E. Wallace may be justly called the "circus king" as he is the largest individual circus owner in the entire world. His name has been hissed by the mouths of two generations of children.

Today the circus has reached a size that is giving the railroads much concern. If the three trains were any longer they could not handle them. It enrolls almost 1,000 people, who travel along with the show. It has over 810 horses and animals, together with three herds of elephants. All of the equipment throughout this season is new. It cost the owner, Mr. Wallace \$3,000,000. The parade alone represents a cash outlay of \$1,000,000. The menagerie is worth half as much. The best circus artists in the world have been engaged for this season; there are 400 of them.

Doors to the big show will be opened at 1 and 7 p. m. Performance will begin an hour later. The parade leaves the grounds at 10 o'clock.

### GIRLS! DRAW A MOIST CLOTH THROUGH HAIR DOUBLE ITS BEAUTY

Try this! Hair gets thick, glossy, wavy and beautiful at once.

Immediate?—yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

### She Will Recover

So her doctor said. Her friends and neighbors felt sure of it too. They have used Peruna themselves and know of its merits. That old cough that had worried her for years and years, for which she had taken all sorts of cough medicines, has disappeared. Peruna is doing the work. She will recover. Indeed, she has recovered.

Her name is Mrs. William Hohmann, 2764 Lincoln Ave., Chicago, Ill. She had suffered with catarrh of the bronchial tubes and had a terrible cough ever since a child. As she got older she grew worse. She coughed both winter and summer. Had to sit up at night. Could not sleep. "But all that has left me now. Peruna has cured me."

There are others, and there is a reason.

### All Babies Destined to Great Achievement

To be born is to be great. For there are possibilities in every tiny human infant. And for this reason every one should remember that whatever is done to aid the mother, to relieve her of distresses during her trying months, will surely be of marked benefit to the child.

Among the sterling aids is a splendid external remedy known as "Mother's Friend."

It is what is called an embrocation. It is applied to the abdominal muscles, gently rubbed in by your own hand guided by your own mind. It makes the muscles pliant, they expand quite naturally and the effect upon the nerves is such that they adjust themselves to the process of expansion just that pain from this source is almost eliminated. Women who use "Mother's Friend" refer to the absence of morning sickness, they are relieved of a great many minor distresses, all apprehension disappears and those peculiar nervous "fidgets" no longer disturb the nights. It is well named "Mother's Friend." Get a bottle today of any druggist. Then at once write for a most entertaining and instructive book for all prospective mothers. ### A Lover of the Horse

looks as carefully after his feet as any other part of his anatomy. It pays too. Bring your horse here to be shod and see how much better he will work for you. The improvement in his action will show you that it makes a lot of difference when you have him shod right.
