

Got Rid of My Corns With Magic "Gets-It"

Simplest Corn Cure in the World—No Pain, No Fuss. New, Sure Way.

When corns make you almost "die with your boots on," when you've soaked them and picked them and sliced them, when corn-swelling salves, and tapes, handgags, and plasters that make corns pop-eyed have only made your corns grow faster, just hold your heart a moment and figure this: Put two drops of "Gets-It" on the corn. It

Why Have Corns At All When "Gets-It" Removes Them the New, Dead-Sure Way? Dries at once. You can put your shoe and stocking on right over it. The corn is doomed. It makes the corn come off clear and clean. It's the new easy way. Nothing to stick or press on the corn. You can wear smaller shoe. You'll be a joy-walker. No pain, no trouble. Accept no substitutes.

"Gets-It" is sold by druggists everywhere. 25c a bottle, or sent direct by E. Lawrence & Co., Chicago, Ill.

The Boy is Father to the Man

Old sayings like this are fraught with a most important meaning. And what is that? The meaning is that a boy who is a good father to his mother, will be a good man. Her mental and moral training and the influence of her mother's love is a gift of great value. Among the recognized facts in a splendid remedy known as "Mother's Friend" Applied to the mother's milk it deeply to make them firm and plump. It thus fills the grain on the breast, it lightens the burden on the nervous system, induces quiet, restful nights of health-giving sleep and makes the days sunny and happy. Get a bottle of "Mother's Friend" of any druggist and you will then realize why it has been considered true to its name in our best homes through three generations. It is perfectly harmless but so effective that once used it is recommended to all expectant mothers by those who went through the ordeal with surprising ease. For writing to Bradford Regulator Co., 412 Lane Building, Atlanta, Ga., you can have a free copy of a wonderful stork book that unfolds those things which all expectant mothers delight to read. Write today.

FREE FLOWER SEEDS

Hastings Catalogue Tells You All About Them

No matter whether you farm or only plant vegetables or flowers in a small lot you need Hastings 1916 Catalogue.

It is filled (100 pages) from cover to cover with useful farm and garden information.

It tells of needs of kind and quality that you can't buy from your merchant or druggist, seeds that cost no more but give you real satisfaction and a real garden.

It tells how every customer can get absolutely free five packets of easily grown, yet showy and beautiful flowers.

Hastings is both the best and largest seed firm in the South, the only firm that you should buy seeds from.

When you plant Hastings Seeds, you meet "Good Garden Luck" more than half way. Write today for their big 1916 Catalogue. It is free. A postal card request will bring it. H. G. HASTINGS CO., Atlanta, Ga.—(Adv.)

ON THE CORN WEEVIL.

Editor The Advertiser: If you will allow me space in your paper, I will endeavor to explain to the farmers the amount of damage done by the corn weevil and method of control of same. The injury done to corn by the weevil is looked upon as always having occurred, and is accepted as a necessary evil and one from which there is no possible escape. This is a mistaken conception and the purpose of this article is to show in a concrete way the nature of the damage done by the weevil to stored corn and to propose just how this may best be decreased.

In the year of 1911 the damage in the worst infested cribs was estimated at from two per cent, in some counties of the upper part of the state, to as high as 75 per cent in some of the counties of the lower part of the state. The average damage to all cribs alike in all counties of the state was 13.8 per cent. This of course, gives a high average for the upper section of the state, where the worst infested cribs show little above 10 per cent damage; but it is in many respects a low estimate of the damage done to cribs in the lower counties of the State. The greater damage in this section is due to the fact that the winters are much less severe than in the counties farther north of us, thus permitting a longer breeding season for the weevils. Dr. Chittenden, of the U. S. Department of Agriculture, Bureau of Entomology, makes the following statement with regard to the value of weevil eaten corn: "In addition to the loss in weight occasioned by these insects, grain infested by them is unfit for human consumption, and has been known to cause serious illness. Nor is such grain desirable for food for stock. Horses, it has been experimentally proved, are injured by being fed 'weevily' grain, and it is somewhat doubtful if such material is fit even for swine. Poultry, however, feed upon it with impunity. Perhaps the chief damage so far as feeding value is concerned occurs through the loss in weight and percentage of food compounds. The weevils eat more of the protein than any other part of the grain, there being a loss of more than 3 per cent. This is the most valuable compound from the point of feed value.

The practice of storing old corn and the new crop together cannot be too strongly condemned unless the old corn has been previously treated. There is no step in the control that is as important as that of cleaning out the crib thoroughly before the new corn is stored. This should be done two weeks before harvesting time. The crib should be made tight as possible and sulphur burned in it at the rate of 2-1/2 lbs per thousand cubic feet of space, exposure continuing for at least twenty hours. The sulphur fumes are very poisonous to all life, and will, if highly enclosed, kill or drive out rats as well as entirely destroying all weevils. Fumigation with sulphur fumes so produced is decidedly injurious to the germinating properties of the corn and make it unfit for seed purposes. It is for this reason that carbon disulphide is used for fumigating the corn itself.

Carbon disulphide is a liquid, easily volatile, producing a vapor 2.63 times as heavy as air. This vapor takes fire in air 300 Fahr. At the rate of 6 lbs per 1,000 cubic feet of space, the gas is slightly inflammable; in strengths of 10.5 lbs per 1,000 cu. ft. of space it is very inflammable, and 15 lbs per 1,000 cu. ft. of space produces a violent explosion. Have your crib tight as possible, spread sacks over top of corn, pour the liquid at the rate of 6 or 7 lbs per 1,000 cu. ft. of space, over the sacks as uniformly as possible. Leave the crib as soon as you finish, and close all openings and lock the door. Allow the crib to be closed for 50 hours, then open the crib and allow it to air. The one doing the fumigating should be very careful not to let fire be about the crib or the vessel containing the liquid. Carbon disulphide does not affect the germinating power of the corn. Carbon disulphide can be secured in 50 lbs drums F. O. B. at a cost of 10 cents per lb. The cost is very cheap in comparison with the damage done by the weevils.

J. D. Sullivan,

COLDS QUICKLY RELIEVED.

Many people cough and cough—from the beginning of fall right through to spring. Others get cold after cold. Take Dr. King's New Discovery and you will get almost immediate relief. It checks your cold, stops the racking, rasping, rattle-coughing cough, heals the inflammation, soothes the raw tubes. Easy to take, antiseptic and healing. Get a 50c bottle of Dr. King's New Discovery and keep it in the house. "It is certainly a great medicine and I keep a bottle of it continually on hand" writes W. C. Jessiman, Franconia, N. H. Money back if not satisfied but it nearly always helps.

Big lot Book Racks just in. They are in Golden Oak, Fumed Oak and Early English. W. M. & E. H. WILKES & CO.

WATERLOO NEWS.

Waterloo, March 7.—Mrs. J. Casper Smith entertained Friday night at a quaint old fashioned "Silver Tea" for the purpose of raising funds for needed improvements at the Methodist church. The occasion was well attended and unique in many respects, old and young joining in to make the evening enjoyable. Delightful music was furnished throughout the evening and many old fashioned games were played in which the older folks displayed much enthusiasm. Hot chocolate and cake were served by the gracious hostess. Mrs. Smith entertained in her usual charming manner and maintained her reputation for hospitality.

Miss Minnie Winn, who is attending Lauder college, is spending a few days at home with her mother.

Mrs. J. M. Pearce is visiting relatives in Columbia this week.

Rev. B. M. Covington is in Cross Hill this week holding a protracted meeting at the Methodist church. He is being assisted by Rev. Mr. Roper, of Rock Hill.

Mr. W. H. Wharton spent several days in Atlanta last week on business.

Mr. and Mrs. Clyde Kellar, of Greenwood, spent Sunday in Waterloo with relatives.

Mr. Fred Smith was the guest Sunday of his mother in Greenwood.

Mr. Ralph McChesney, who has been attending school in North Carolina, is spending a few days with home folks here.

Mr. T. J. Garrett, who is on the road for a large fertilizer concern, spent the week-end in Waterloo with his family.

Prof. Will Chiles visited relatives in Greenwood and Verdery the past week end.

YOU CAN'T FIND ANY DANDRUFF, AND HAIR STOPS COMING OUT

Save your hair! Make it thick, wavy, glossy and beautiful at once.

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few week's use when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any, that it has been neglected or injured by careless treatment. A 25-cent bottle will double the beauty of your hair.

SHILOH NEWS.

Shiloh, March 6.—A large number of visitors from out of the community attended services at Shiloh church Sunday afternoon. The pastor, Mr. Munnerlyn of Gray Court, officiated.

Mr. and Mrs. Arthur Curry of Diab and Mr. and Mrs. Eugene Wasson of the Friendship community visited Mr. and Mrs. J. C. Hellams and family Sunday.

Misses Nora and Lila Wilson teachers of Green Pond school were the guests of friends in the community Sunday.

Mrs. Alma Pitts of near Poplar Springs visited her parents, Mr. and Mrs. H. S. Wallace Saturday and Sunday.

Mr. and Mrs. Claude Wilson visited Mrs. Wilson's parents, Mr. and Mrs. J. T. Powers of Ora, Saturday and Sunday.

Miss Margaret Wolff teacher of the Fleming school, visited her parents, Mr. and Mrs. Charlie Wolff Sunday.

Mr. and Mrs. Ivan Abernombie visited Mr. W. L. Chestain and family Sunday.

Messrs J. H. Abernombie and Cecil Bell each purchased a horse last week.

Little Miss Inez Hellams who was painfully burned some weeks ago is slowly but surely improving.

Messrs Will and Lee Abrams of Ware Shoals spent several days of last week with Mr. and Mrs. E. F. Hellams.

Mrs. W. L. Chestain is very sick at this writing.

Mr. John McDowell, one of the guards on the county chain gang, spent Saturday and Sunday at home with Mrs. McDowell.

AN IDEAL SPRING LAXATIVE.

A good and time tried remedy is Dr. King's New Life Pills. The first dose will move the sluggish bowels, stimulate the liver and clear the system of waste and blood impurities. You owe it to yourself to clear the system of body poisons, accumulated during the winter. Dr. King's New Life Pills will do it. 25c at your druggist.

Advertisement for Swift Fertilizer. Features a picture of a cow and the text: 'WHO HAS THE GOODS? SWIFT. It is common gossip in the South that SWIFT are the only people who can deliver 50% of last year's tonnage. We declined large profits from powder manufacturers and reserved our materials for our Southern Fertilizer Trade. We did this, believing that we will be repaid by well satisfied customers for having held our Sulphuric Acid, Acid Phosphate and Potash for our regular fertilizer business. We have the goods all stacked up in fine, dry, well cured condition with a shipping organization ready to give the famous Swift Service. Contracting is on with a rush and the indications point surely to a fertilizer demand in the South far in excess of the fertilizers available. We advise every dealer and every farmer to place his orders for the earliest possible shipment he can take so as to be sure to get his fertilizer requirements. Buy Swift's and take no chance and get in your shipping orders now. We Are Ready With the Best Fertilizer in the South. SWIFT & COMPANY, Fertilizer Works, CHARLOTTE, N. C.'

Advertisement for Post Toasties. Features a picture of a man and a woman. Text: 'Never Mind the Rain, Son'. The germ-proof, dust-proof, moisture-proof wax-sealed wrapping keeps the New Post Toasties in perfect condition. But more important—these flakes are made by a new process that gives them a new form and a distinctive flavour, entirely different from other corn flakes. In this new process, intense heat expands the interior moisture, producing little pearl-like "puffs," a distinguishing characteristic of the New Post Toasties. These flakes have a body and firmness that don't mush down, even when cream or milk is added. Toasties come factory-fresh, as crisp and delicious as when they leave the big ovens. Try Them and Note the New Flavour. Your grocer has them now.'

Advertisement for Mountville School Honor Roll. Lists names of students in various grades: Tenth Grade: Cora Bryson. Ninth Grade: Clay Crisp, Joe Miller. Seventh Grade: Rutledge Fuller, Nell Long. Sixth Grade: Marie Bryson, Caroline Motes, John Fuller, Frances Mathews. Fifth Grade: Clemmie Motes, Patrick Cannon, Roy Crisp. Fourth Grade: Frances Bryson, Beth Long. Third Grade: Carl Crisp. Second Grade: Louis Rator. First Grade: Preston Motes, Violet Crisp.

Obese and Indolent. In respect of speeding automobiles one can not be impressed with the appeal of a "Citizen" of Laurens, S. C., who, in the Laurens Advertiser, appeals to his fellow citizens in these words: "I want to ask you to please slacken your speed when driving on east Main street. There has been so much rapid, reckless driving that many of our finest chickens have been run over and killed. "It is a great annoyance and loss after we have spent time and money to raise chickens to have them butchered up in this way." While speeding through east Main street in Laurens is by no means to be excused, we believe that the fault does not lie solely with the motorists in this matter. We believe that the automobile drivers of Laurens would be as reluctant to kill a chicken as would be those of any other city. In our opinion, the fault is with the chickens themselves. They are too fat and therefore, too lazy, to get out of the way. Any man or woman who has visited in Laurens will testify that the fattest chickens in the world are natives of that city. The only way that a motorist can avoid killing a chicken in the suburbs of Laurens is to drive out into a cotton patch. The ducks of Columbia are far more agile than the chickens of Laurens.—The State.
