

A NEW FOOD-- A NEW SMILE

A smile of complete satisfaction follows the first taste of New Post Toasties--the superior corn flakes made by a new, patented process.

These delicious new breakfast flakes are featured by the tiny bubbles--raised on each flake by the quick, intense heat of this new art of toasting.

The New Toasties are not "chaffy" in the package; they don't mush down when milk or cream is added, like common "corn flakes;" and they have a delicious new flavour not found in corn flakes of the past.

They're well worth trying--these

DODGE BROTHERS MOTOR CAR

Consult the impression uppermost in your mind and you will find that you think of this car as very conscientiously made.

This very general and instinctive feeling is, of course, a reflection of the actual facts. People think of the car in this light because of their high opinion of Dodge Brothers as manufacturers. And that good opinion is justified by the performance of the car.

The gasoline consumption is unusually low.

The price of the Touring Car or Roadster complete, including regular mohair top, is \$950 (f. o. b. Detroit.)

WOMAN AND AUTO.

Local Agent Says There's Nothing Like It.

"Who has said a word about what good roads are going to do for women," asks, Doc Swygert, of Traynam & Swygert, distributors for the Haynes "Light Six."

"We have had dinned in our ears that good roads are going to profit the general public by cutting hauling costs, vivifying the country, booming real estate values, but no one has so much as intimated that good roads have benefits in store particularly for women. They might well feel that they have been slighted.

"Women and automobiles have been marked as boon companions. A few women drove cars when they were cranked by hand. But since the advent of the self starter, and improved steering devices, the connections between milady and her automobile have especially close, for women may now take their cars and go where they please, so long as streets and roads are good.

"There is no getting around the fact that the automobile has made a prettier, healthier, and more self reliant woman. The woman driver today can thread through traffic expertly, and she is beating chauffeurs at their own tricks in city driving.

"Just now few women venture taking their cars out over country roads alone. Thoroughfares outside city limits have offered rigors and discomforts, that she is unwilling to put up with on a pleasure spin. Usually the trip out through the country is postponed until Saturday or Sunday when a man can preside at the wheel.

"Level and solid roads, kept up the year around, are going to place the sunshine and good air of the country at the feminine driver's pleasure every day in the week. Highway improvements will make a wholesomer woman by extending her touring radius in parts where she needs most to go. There is nothing that will smooth out a tangle of household affairs like a dash through fields and woodlots for a good breath of fresh morning air.

"The Man of the house will find that a morning spin will place a pair of as sparkling eyes and a face as flush with color opposite him at lunch as he is likely to see for days to come."

MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

If cross, feverish, sick, bilious, clean little liver and bowels.

Children love this "fruit laxative", and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomachache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs", and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs", which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.

TRIBUTE OF RESPECT.

Whereas, on February 7th, it pleased God, our Heavenly Father, to remove from our midst Brother J. S. George, a member of Laurens Lodge No. 43, and while we deplore the death of the Brother, we hope he has entered that eternal lodge above. Therefore, be it Resolved 1. That we tender our deepest sympathy to the bereft wife and family, who now survive him.

2. That a page of our record book be inscribed to his memory.

3. That a copy of these resolutions be sent to the bereaved wife and family and a copy to the two county papers, the Herald and the Advertiser, for publication.

COLLAR BUTTON SAVED LIFE

Either Carpenter Had Remarkable Experience or He Had More Than a Shade on Ananias.

The ancient Carpenter held a small object between the thumb and first finger of his left hand and pointed at it impressively with the index finger of his right hand.

"For this little article," he exclaimed, "I wouldn't take a farm."

As the ancient Carpenter is the acknowledged verisimilitude champion of the Curbstone club, the other members gathered about him to hear his latest effort.

"Looks to me like a collar button," the fat plumber observed.

"And so it is."

"What is so valuable about it?"

"It saved my life once."

"How?"

"It was when I became lost in the Great North woods."

"Were you ever lost in the Great North woods?"

"I should say I was; for over two weeks, and without a thing to eat in my knapsack."

"How did you manage to subsist?"

"That's where this trinket comes in."

"Indeed?"

The ancient Carpenter gazed affectionately on the little object in his hand as he replied, amidst breathless silence:

"Yes, the little bit of bone saved my life. For two long weeks I didn't have a thing to eat but collar-button soup."

The club members, as in one voice fervently exclaimed:

"Poor old Ananias!"—Youngstown Telegram.

PLAYING CARDS LONG IN USE

Their Origin Lost in Obscurity—Have Been Put to a Great Variety of Uses.

The origin of playing cards is lost in obscurity. They are generally assigned to the Orient, but they are now almost universal in currency and popularity. The backs of old English cards were generally plain, and thus it was that when paper was scarce or expensive, old cards were too useful to be destroyed. They were, on the contrary, used for various purposes.

Thus they are often found in the bindings of old books, where they were preserved. The old cards were also sometimes cut up for paper dolls. They were also used as cards of invitation and as visiting cards. Thackeray refers to this in "Henry Esmond."

The earliest examples of wood cuts were intended for playing cards. They antedate the famous St. Christopher wood cut that is sometimes credited with being the earliest.

In the olden days playing cards, instead of knitting, were used by spectators in playhouses as an amusement while waiting for the performance to begin.

Such widely differing materials as silver, leather, paper, wood, parchment, cardboard, deerskin and even buffalo hide have all been used in making playing cards.

The Japanese Woman.

The Japanese woman exists primarily for and in the family. We still adhere to the old way of thinking that her natural habitat is the home, and that her appearance at the polls is as unnatural as on the battlefield. Let it be far from me to give an impression, already too prevalent abroad and at home, that we look upon women only as cogs in the machinery of the kitchen or as mere puppets and ornaments in the parlor, writes Doctor Nitrobe in the Japanese Nation. The personality of the fair sex is not as clearly recognized among us as it ought to be; but I am confident that it will come with more general enlightenment of public conscience. As it is at present, the aim of female education is to make "a good wife and a wise mother," a stereotyped shibboleth on the lips of all educators and of the nation, circumscribing the end and aim of woman's life. According to this doctrine, it is not as person, but as wife and mother, that woman is to be educated.

Infection Through Cigar Cutters.

When it is recognized how easily the cigar cutter may be the means of spreading infection, and infection of a dangerous nature, the days of this article of convenience will be numbered. To illustrate: a person will often, after he has first held his cigar in his mouth, step to the counter and put his cigar into the cutter. This thoughtless yet dangerous habit is so common that it can be witnessed time after time at every cigar stand. Undoubtedly it has been one of the principal means of spreading infection among those who smoke cigars, and it is high time that an agent so potent for harm was abolished.—American Medicine.

Aztecs Favored Turquoise.

At the time of the Spanish conquest under Cortez, the Aztecs of old Mexico employed turquoise and "chalchihuitl," a similar stone of greenish hue, in many of their ceremonies. These Spaniards, entering the region now occupied by New Mexico and Arizona, found the turquoise there also held in high regard, and recent excavations in the ancient pueblos and cliff dwellings of these states have revealed many turquoise ornaments which reflect credit upon artistic ability of those early workers.

FLEMING BROS.

THE RELIABLE JEWELERS

A SPRING BLOSSOMING

The eye is relieved from the sombre shades of winter wear at the appearance of the brighter and more variegated tints for spring. The goods just opened have been personally selected in the northern markets and embrace the latest effects for the season. Many choice designs are displayed in colored fabrics and the plain and fancy weaves in all white show nice textures.

One of the most difficult lines to secure this season is Hosiery of foreign make, fortunately we succeeded in getting our old standard stock, numbers that have been so satisfactory in former seasons. And this can also be said of Table Linen.

A complete line of Notions including the latest ideas in Neckwear.

Owing to the high cost of materials, the manufacturers have notified the jobbers to advance prices, and the customer at the retail counter will make a wise move to buy early, or later pay the advanced price.

We solicit an inspection of the new goods opened here,
Respectfully,
